### ALABAMA

#### Alabama (State of)

**Legislature Creates Emergency Finance Corporation**—A law has been approved which provides for the creation by the State of an agency to be designated as the Alabama Emergency Finance Corporation. The purpose of this corporation is to buy or handle revenue or public improvement assessment bonds of municipalities in order to stimulate employment in the post-war period. An original capital of \$1,000,000 is authorized for the corporation. This agency will function in relation to municipal governments in the same manner that the RFC operates at the national Government level to the various governmental lending agencies.

#### Tarrant City, Ala.

**Bond Call**—Mayor A. M. Combron states that the city is calling for payment on Oct. 1, at par plus accrued interest to redemption date. Public Improvement Refunding bonds Nos. 1 to 31, 34 to 36, 99 to 151, 154 to 170, 173 to 204, 208 to 212, 218 to 231, 233 to 362, 368 to 383, 392 to 411, 420 to 427, 438 to 443, 449 and 451 to 488.

Dated April 1, 1937. Said bonds should be presented for payment at the principal office of City Bank Farmers Trust Co., New York City.

### ARIZONA

#### Gila County (P. O. Globe), Ariz.

**School Warrants Called**—Elton S. Bryant, County Treasurer, reported the call for payment on July 24, 1943, of the following described school warrants: Elementary School District No. 5, all warrants registered on or before July 23, 1943; Elementary School District No. 10, all warrants registered on or before April 8, 1943; High School District No. 1, all warrants registered on or before July 23, 1943; High School District No. 1 (C. P. T. fund), all warrants registered on or before July 23, 1943.

#### Mohave County Union High School Dist. (P. O. Kingman), Ariz.

**Bond Offering**—Sealed bids will be received until 10 a.m. on Aug. 12, by J. J. Cunningham, Clerk of the Board of Supervisors, for the purchase of \$12,000 funding bonds. Interest rate is not to exceed 2½%, payable J-J. Denom. \$1,000. Dated July 1, 1943. Due \$4,000 from July 1, 1944 to 1946. No bids for less than par and accrued interest will be considered. The successful bidder will be furnished with the opinion of Gust. Rosenfeld, Divelbess, Robinette & Coolidge, of Phoenix. All bids will be unconditional. Enclose a certified check for 5% of the total amount bid, payable to the County Treasurer.

### ARKANSAS

#### Clay County, Western Clay Drain Dist., Sub-Dists. Nos. 4 and 5, Ark.

**Bond Descriptions Sought**—Holders of bonds of the above sub-districts are being asked to send a description of the amounts, denominations, numbers, maturities of bonds and all past due coupons to Bowman & Co., 418 Olive St., St. Louis, Mo. Both of the districts in question have been in default of both principal and interest for more than ten years.

An effort is being made to straighten out the affairs of the two sub-districts. No charge or obligation of any kind is involved at this time in furnishing the requested information, but united action is declared advisable, due to several unfavorable factors.

### CALIFORNIA

#### California (State of)

**Cash Excess Heavy**—The general fund cash excess of the State of California was increased nearly sevenfold June 30, 1943, when the surplus totaled \$84,232,625, compared with \$13,861,400 a year earlier, according to the recent report of Harry B. Riley, State Controller.

Total current assets of the State as of June 30 last included \$65,400,000 in bond investments at par, compared with \$5,035,000 a year ago; \$18,830,363 in cash against \$8,587,485. No registered warrants were outstanding, and the total current debt position was perfect—there being no current debts June 30. As of June 30, 1942, warrants issued and outstanding were \$41,411,744, but these were retired.

Revenue receipts of the State amounted to \$273,878,447 on June 30 last, compared to \$237,568,297 a year earlier, while receipts of all kinds rose to \$284,693,063 from \$261,997,838. Expenditures were \$168,305,964 as against \$168,968,760, while disbursements of all kinds declined to \$214,321,837 from the year-ago figure of \$315,637,992.

Revenue receipts from sales and use taxes were increased to \$132,758,587 from \$129,766,096; from bank and corporation franchise and income taxes, to \$52,887,521 from \$34,389,239; from personal income taxes to \$38,131,719 as compared with \$28,127,026 and from liquor taxes and licenses, to \$17,852,122 as against \$13,617,170. Inheritance tax receipts showed a decline to \$6,245,960 from \$8,040,899, motor vehicle license fees fell off to \$5,272,569 from \$5,620,355, gift taxes decreased to \$618,989 from \$1,199,571. The cost disbursement showed a reserve of \$25,000,000 for "war catastrophes," and a transfer to the bond sinking fund of 1943 of \$14,588,249.

### CONNECTICUT

#### Connecticut (State of)

**Tax Receipts Show Increase**—Governor Raymond E. Baldwin has made public a fiscal year-end statement of State tax receipts, which points up the war impact on Connecticut revenues. This report, prepared by Walter W. Walsh, State Tax Commissioner, reflects the fact that State corporation business taxes and other levies based on profit and volume of production soared to unprecedented heights during the past year, while sales and excise taxes levied by the State barely held their own. Total receipts from the 18 principal sources of general fund revenue for the fiscal year ended June 30 were \$35,384,963, an increase of \$3,430,818 over the \$31,954,144 collected during the fiscal year which ended June 30, 1942.

Reaching an all-time high, business taxes more than accounted for the overall increase in receipts, the difference being offset principally by a substantial drop in collections of inheritance tax receipts.

The State tax on railroads returned \$2,218,664 as compared with \$1,300,176, an increase of \$918,487, or better than 70%. Taxes on Connecticut insurance companies, always a large source, amounted to \$3,007,381, as com-

pared with collections of \$2,810,735 during the previous period.

Reflecting the tremendous volumes of war production and other types of business being carried on in Connecticut, the corporation business tax, established in 1927, returned \$12,631,544 during the last fiscal year, an increase of \$2,312,282 over last year's collection from this source.

The commissioner listed receipts from taxes on telephone companies as totaling \$847,216 during the year, as compared to the previous total of \$716,936.

Liquor sales in Connecticut, the report showed, have decreased substantially since tax receipts from these sales have decreased slightly although prices for liquor products have been continually raised during the tax period. Liquor taxes returned \$5,797,889 during the year as compared with collections of \$5,843,524 during the previous period.

### FLORIDA

#### Escambia County (P. O. Pensacola), Fla.

**Bonds Offered for Investment**—A syndicate headed by B. J. Van Ingen & Co., Inc., of New York, is offering a new issue of \$1,345,000 2¾%, 3% and 3¼% bridge revenue bonds dated May 1, 1943, and due serially from May 1, 1948 to 1963. The 2¾% bonds due 1948 to 1950 are priced to yield from 1.90% to 2.10%. The 3% bonds due from 1952 to 1954 are priced to yield from 2.30% to 2.50%. The remaining \$895,000 3¼% bonds which are callable and mature from 1955 to 1963 are priced to yield from 2.55% to 2.79% to maturity. \$500,000 of these bonds maturing from 1955 to 1959 inclusive yield approximately 2.77% to optional date and the remaining \$395,000 maturing from 1960 to 1963 yield 2.86% to optional date.

The bonds maturing from 1955 to 1959 inclusive, are subject to call in inverse order of their maturities on May 1, 1954 or on any interest date thereafter at par, plus a premium of 3½% if called in 1954, the premium reducing one-half of one per cent each year thereafter to 1958. The bonds maturing from 1960 to 1963 inclusive are subject to call in reverse order of their maturities on May 1, 1958, at par plus a premium of 3½% if called in 1958, the premium reducing one-half of one per cent each year thereafter to 1962.

The bonds, in the opinion of counsel are exempt from all present Federal income taxes. They are issued to pay for the acquisition of the privately owned toll bridge over Pensacola Bay, connecting Escambia County with Santa Rosa County.

The bridge will be operated free of tolls by the State Road Department of the State of Florida as a connecting link in "its Highway System," under a lease-purchase agreement with the county. Under the terms of the lease-purchase

agreement the State Road Department has pledged itself to apply 80% of the surplus gasoline taxes accruing to Escambia County after payment of debt service charges on the county's outstanding road and bridge bonds. When these bonds and interest have been paid or retired, title and ownership of the bridge will be vested in the State of Florida.

Associated with B. J. Van Ingen & Co., Inc. in this financing are Sullivan, Nelson & Goss, Inc., Welsh, Davis & Co., Robert Hawkins & Co., Inc. and Cohu & Torrey.

#### Florida (State of)

**Municipal Situation Discussed**—The following information is taken from the July issue of the monthly bond bulletin published by A. B. Morrison & Co., Congress Building, Miami:

There has been little change marketwise in the Florida municipal situation the last month. Most of the dollar bonds have risen a little higher in price. Yield bonds appear to have about reached their limit as bonds priced above levels at which other comparable bonds have sold recently aren't moving. Activity, due to scarcity, has been at low levels.

The Florida tax collection picture looks very good right now. Both county and city collections are practically all well above previous records. Intangible tax collections, due to aggressive action on the part of State officials, made an exceptional showing, way above anything previously known. The fact that property on which county taxes were delinquent two years automatically reverted to the State was apparently a large factor in inducing property owners to pay up. The 1943 Legislature weakened the Tax Collection Law, in our opinion, when it changed it so that property delinquent two years reverts to the county instead of the State. Counties have had a habit of adjusting delinquent taxes on a much too lenient basis, and are likely to continue the practice. Incidentally, in passing this new Act the Legislature ignored completely two of the recommendations of its bond refunding committee, which, after long investigation and study gave as two factors making for high interest rates on Florida Municipals the fact that laws favor the debtor, and tax

collection methods are lax. It rather appears to us that the debtor (in this case the tax payer) is going to have things easier under the new law and tax collections may suffer.

Receipts from the gas tax are holding up well. Our own estimates, made prior to Jan. 1, 1943, when the new law went into effect, and on which we formed our conclusions as to the ability to service road bonds from the gas tax alone, were based on a total gallonage in 1943 equal to 75% of that in 1942. For the first five months of this year the total gallons sold were 72 1/4% of sales in 1942. This does not take into account sales to the Army and Navy in lots of 500 gallons or less, which will probably boost the total well above 75%. The curve shows a decided upward trend in April and May with sales totalling 77 1/2% and 91 1/2% respectively, compared with the corresponding months of 1942.

#### Pompano, Fla.

**Debt Refunding Plan Filed**—The city's proposed refunding plan, filed recently in the U. S. District Court at Miami, is said to provide for the readjustment of outstanding debt in the principal amount of \$351,000 and unpaid interest accrued to July 1, 1942 of \$175,213.35.

The city proposes to refund the principal of the debt, plus 25% of the interest accrued and unpaid to July 1, 1942, by issuing in exchange therefor "Refunding bonds of 1942," dated July 1, 1942, due July 1, 1972, optional in numerical order at par on any interest date, and to bear interest at rates scaled from 1% for the period July 1, 1942 to July 1, 1947, 2% to July 1, 1952, 2 1/2% to July 1, 1957, 3 1/2% to July 1, 1962, and 4% to maturity. Bonds issued to refund interest to be identical except interest rate to be 1% to July 1, 1952, and 2% to maturity.

The plan provides for bondholders and the city sharing the expenses incident to working out the debt readjustment plan.

#### GEORGIA

##### Georgia (State of)

**Cash Surplus Reported In Excess of \$8,000,000**—Georgia had a current cash surplus of more than eight million dollars on June 30, 1943, State Auditor B. E. Thrasher, Jr. is reported to have disclosed. Besides this cash, the State was in about a 12-million-dollar better general financial condition, and its fixed indebtedness has been reduced more than eight million dollars, it was said.

With most State departments trimming their budgets in accordance with Governor Arnall's requests for economical administration, the auditor's report showed a cash surplus on hand of \$8,368,219.81.

"After taking into consideration \$6,881,895.17 State funds needed to complete the highway contracts, the State has, of June 30, a surplus of \$1,486,324.64," Thrasher added.

The current surplus of the more than eight-million-dollar figure represented a gain of \$2,764,867.68 in current cash surplus over the \$5,603,352.13 on hand on June 30, 1942, the report showed.

The auditor's report disclosed that the fixed debt was \$19,759,784.03, the majority of which matures by 1950. To retire this amount, the State has a cash reserve in the Treasury of \$5,677,993.10, leaving \$14,081,790.93 needed from future State revenue to retire this class of indebtedness in full.

This indebtedness is \$8,235,489.09 lower than the fixed debt of \$22,317,280.02 on June 30, 1942, the auditor said.

In addition to the fixed debt, there is \$2,294,000 of the State hospital authority building debt to be liquidated over a period of years from rentals charged the hospital, the report continued.

The State's general financial condition has shown a \$12,491,627.09 improvement during the past fiscal year, the auditor said.

The sharpest part of this general improvement was shown after Governor Arnall assumed office in January. The report for the six months ending Dec. 31, 1942, showed a financial gain of \$1,585,677.57. After the first six months of the Arnall administration, the State's general financial condition had improved \$10,905,949.52, according to report.

#### IDAHO

##### Canyon County Independent Sch. Dist. No. 28 (P. O. Caldwell)

**Bond Sale Details**—The District Treasurer now reports that the \$54,000 construction bonds sold to the State Department of Public Investments, as noted here—V. 158, p. 242—were purchased as 2 1/2% at par, and mature on Jan. 1 as follows: \$5,000 in 1953 to 1958, and \$6,000 in 1959 to 1962. Interest payable J-J.

#### ILLINOIS

##### Chicago, Ill.

**School Warrants Called**—J. B. McCahey, President of the Board of Education, called for payment on July 30, the following Board of Education tax anticipation warrants:

Educational Fund, 1942, Nos. E-1903 to E-2077, dated July 1 and Sept. 1, 1942.

Building Fund, 1942, Nos. B-4389 to B-4683, dated Feb. 2, 1942.

Playground Fund, 1942, Nos. P-229 to P-244, dated Feb. 24, 1942.

Free Text Book Fund, 1942, Nos. T-566 to T-602, dated Feb. 24, 1942.

Holders of these warrants were required to present them to the Board of Education, City of Chicago, Room 352, 228 North La Salle St., on or before July 29, 1943, in order that same may be verified and interest computed so that cash warrants drawn on the City Treasurer may be issued in payment thereof.

##### Cook County (P. O. Chicago), Ill.

**Bond Issue Measure Becomes Law**—The Chicago "Journal of Commerce" of July 29 reported as follows:

Gov. Dwight H. Green of Illinois permitted a bill to become a law without his signature yesterday by which Cook County may fund all outstanding claims and judgments, amounting, according to Richard J. Daley, deputy controller of the county, to around \$10,000,000.

The bill allows Cook County to refund without a referendum. The amount set by Mr. Daley yesterday exceeds by some \$2,000,000 the total which had been thought represented the claims and judgments outstanding, of which some \$3,500,000 represented judgments against the county and the City of Chicago for municipal court costs.

In allowing the measure to become a law, Gov. Green charged the government of Cook County with "flagrant mismanagement."

"Cook County is authorized by this bill to issue bonds to discharge certain indebtedness incurred prior to Dec. 1, 1942," the governor said, adding that the debts "have accumulated despite repeated warnings to the Cook County government that it has lived beyond its income for many years, and in the face of the startling fact that destruction of the county's credit deprives inmates of public institutions of proper care."

The governor recalled that he had vetoed a similar measure two years ago because he believed that the taxpayers should have a voice in such bond issues, and that he was now permitting the present bill to become law in order to avert the suffering of wards of the county institutions.

Immediately upon news from the state capital, officers of the county began a breakdown of all

the claims and judgments against it which had accumulated up to Dec. 1, 1942, in order to effect a complete itemization of the obligations. This work, according to Mr. Daley, will take about ten days. The next step, of course, will be action by the Cook County board on an ordinance authorizing the issuance of the bonds, and opening of bids.

Bidding is expected to be reached in about 20 or 30 days hence, the county controller's office indicated.

##### East Peoria, Ill.

**Bonds Sold**—The City Clerk states that \$15,750 judgment funding bonds were sold on July 13 to Barcus, Kindred & Co., Chicago, as 2 1/4% due \$3,000 in 1945 to 1948, and \$3,750 in 1949.

##### Green Tp. (P. O. Metamora), Ill.

**Bonds Voted**—At a recent election the voters are said to have approved the issuance of \$48,000 road bonds by a wide margin.

##### Gridley Tp. (P. O. Gridley), Ill.

**Bonds Voted**—At a recent election the voters are said to have approved the issuance of \$25,000 road imp't bonds by a two-to-one margin.

##### Illinois (State of)

**Record General Revenue Fund Balance Reported**—An Associated Press dispatch from Springfield on July 23 had the following to say:

The fiscal year ended June 30 found Illinois with a balance of \$66,052,470 in the state Treasury's general revenue fund, an increase of more than 26 million dollars during the year and by far the highest balance in the state's history.

State Treasurer William G. Stratton's report showed the record high reserve even after payment of \$18,570,780 of bonded indebtedness.

Most of the general fund balance has been invested in Government securities. A recent treasurer's office statement said that such investments totaled 78 million dollars including balances available in some funds other than the general revenue fund.

The general fund, covering most operations of the State Government, increased from \$39,533,133 on June 30, 1942, to \$66,052,470 on the same date this year. Stratton reported other regular funds of the treasury increased \$30,332,811 during the fiscal year, to \$115,278,680. Trust funds increased \$76,930,791, and they had a combined June 30 balance of \$368,681,685.

##### Morgan County Road District No. 11 (P. O. Jacksonville), Ill.

**Bonds Sold**—An issue of \$20,000 2 1/2% road improvement bonds, authorized by the voters on July 7, has been sold to the White-Phillips Co. of Davenport.

##### Urbana, Ill.

**Bond Call Pending**—The City Council has passed a resolution to call for payment local improvement bonds in the amount of \$11,000.

##### Wellington, Ill.

**Bonds Voted**—At a recent election the voters are reported to have approved the issuance of \$6,500 storm sewer bonds.

#### INDIANA

##### Indiana (State of)

**Railroad and Utility Assessments Increase**—Completion of final assessment by the State Tax Board of all railroads and other public utilities in Indiana was announced in Indianapolis recently as showing an increase of \$73,591,431 over the assessment of these properties in 1942.

The total final assessment for taxes which are payable next year was \$701,026,775. The assessment of 1942 for taxes payable this year was \$627,435,344.

These and other substantial increases in taxable valuations and the unprecedented balance in the State general fund, Governor

possible a further reduction of one Henry F. Shricker said, will make cent in the State tax rate next year. The Governor said he would recommend this reduction at the August meeting of the State Board of Finance, and expressed the opinion that it would meet with the unanimous approval of all members of the board.

In the event the board carries out the Governor's recommendation the State property tax rate will be cut to 11 cents on each \$100 of taxables, payable in 1944.

The tax board's review of figures on new assessments showed that the largest percentage of increase in any group of utilities was in electric railroads. Indiana at one time was covered thoroughly by systems of interurban and electric lines, but these largely have been abandoned. The few remaining lines, it was pointed out by the board, have enjoyed prosperous business conditions during 1942 because of gasoline rationing and limitations on automobile use, and it was said that this in part accounts for the percentage of increase of such assessments.

The tax board was in the process of allocating and certifying the new assessments to various taxing units of the State.

The State property tax rate remained at 15 cents for a number of years and in 1941 was cut to 14 cents by the Board of Finance. Another cut of two cents last year slashed the rate to 12 cents. A one-cent cut in the rate slices off approximately \$416,000. Thus, if the Governor's recommendation is voted by the board, a total reduction of four cents will save about \$1,664,000 in property taxes over a period of three years.

Higher receipts from gross income tax were cited by the Governor as a contributing factor to cuts in the State property tax rate.

He pointed out that if the rate is reduced to 11 cents, this would be the first time since Indiana was admitted to the Union that the State met all of its general fund obligations without the aid of a property tax levy.

Besides the Governor, members of the Board of Finance are: Richard T. James, State Auditor, and James M. Givins, State Treasurer. Republicans. The two previous cuts in the State property tax rate which were made by the board were proposed by Mr. James and Mr. Givins.

##### Indianapolis, Ind.

**Warrants Sold**—It is stated by Roy E. Hickman, City Controller, that the following temporary loan warrants were offered for sale on July 27 and were awarded to a syndicate composed of the Union Trust Co., the American National Bank, the Indiana Trust Co., the Fletcher Trust Co., and the Merchants National Bank, all of Indianapolis, taking the entire \$1,065,000 at 0.625%, plus a premium of \$135.11:

General Fund	\$750,000
Board of Health	125,000
Firemen's Pension Fund	70,000
School Health Fund	25,000
Tuberculosis Fund	20,000
Sanitary District	75,000

#### IOWA

##### Cushing Consolidated School Dist. Iowa

**Refunding Planned**—The Board of School Directors is considering the matter of issuing \$28,000 refunding bonds.

#### KENTUCKY

##### Frankfort, Ky.

**Bond Offering**—The City will receive sealed bids on or about Aug. 10 for the sale of \$1,200,000 water and light plant revenue bonds.

##### Magoffin County (P. O. Salyersville), Ky.

**Bond Authorization Sought**—It is reported that Harry R. Lynn, State Local Finance Officer, has been asked to approve the issuance of \$92,000 refunding bonds.

##### McCreary County (P. O. Whitley City) Ky.

**Price Paid**—The County Clerk now states that the \$11,000 4% semi-annual road and bridge refunding bonds sold to F. L. Dupree & Co. of Harlan, as noted here—V. 158, p. 346—were purchased at a price of 105.411, not 100.958, as previously reported.

#### LOUISIANA

##### Labadieville Gravity Drainage Dist. No. 3 (P. O. Labadieville) La.

**Bond Offering**—Separate sealed bids will be received by Fernand Talbot, Secretary of the Board of Drainage Commissioners, until Aug. 17, at 3 p. m., for the purchase of the following bonds aggregating \$35,000:

\$20,000 improvement bonds. Denominations \$1,000 and \$500. Due Sept. 1, as follows: \$1,000 in 1944 to 1950, \$1,500 in 1951 to 1956, and \$2,000 in 1957 and 1958. Payable from ad valorem taxes.

15,000 improvement bonds. Denomination \$1,000. Due \$1,000 from Sept. 1, 1944 to 1958 inclusive. Payable from acreage taxes.

Interest rate is not to exceed 4%, payable M-S. Dated Sept. 1, 1943. A certified transcript and the approving opinion of Chapman & Cutler of Chicago, will be furnished the successful bidder for each issue without cost to him and all bids should be so conditioned. Enclose a certified check for 2% of the bonds, payable to the District Treasurer.

##### Orleans Levee District (P. O. New Orleans), La.

**Bond Sale**—The \$2,906,000 reparations refunding, issue of 1943 bonds offered July 29—V. 158, p. 146—were awarded to a syndicate headed by Paine, Webber, Jackson & Curtis of Chicago, on a bid figuring a net interest cost of about 1.836%. The bankers paid a price of par for the bonds to bear interest rates, as follows:

\$225,000 2 1/2% due Aug. 1, as follows: \$110,000 in 1947 and \$115,000 in 1948.

\$641,000 2 1/4% due Aug. 1 as follows: \$119,000 in 1949, \$123,000 in 1950, \$129,000 in 1951, \$132,000 in 1952 and \$138,000 in 1953.

\$1,503,000 2s. due Aug. 1, as follows: \$143,000 in 1954, \$148,000 in 1955, \$153,000 in 1956, \$158,000 in 1957, \$164,000 in 1958, \$169,000 in 1959, \$174,000 in 1960, \$193,000 in 1961 and \$201,000 in 1962.

\$537,000 1 1/4% due Aug. 1 as follows: \$209,000 in 1963, \$216,000 in 1964 and \$112,000 in 1965.

Associated with Paine, Webber, Jackson & Curtis in the successful bid were the following: Hibernia National Bank, B. S. D'Antoni, Inc., both of New Orleans; C. F. Childs & Co., of Chicago; Braun, Bosworth & Co., of Toledo; Field, Richards & Co., of Cincinnati; Stern Bros. & Co., of Kansas City; McDougal & Condon, of Chicago; Fox, Reusch & Co., Pohl & Co., Widman & Holzman, all of Cincinnati; M. A. Saunders & Co., of Memphis; Harold E. Wood & Co., of St. Paul; Watkins, Morrow & Co., Marx & Co., both of Birmingham; C. H. Little & Co., of Jackson, and Crutenden & Co., of Chicago.

#### MAINE

##### Maine (State of)

**Investment To Be Made In U. S. Treasury Bonds**—Governor Sumner Sewall and his Executive Council on July 21 authorized investment by the State of Maine of \$950,000 in U. S. Treasury bonds bearing interest at the rate of 3/8% and maturing May 1, 1944.

State Treasurer Joseph H. McGillicuddy announced the amount would be earmarked as the Maine Post-war Public Works Reserve, "which funds are not needed at this time to meet current obligations."

#### MARYLAND

##### Baltimore, Md.

**Tax Revenues Increase**—Revenue collections of the City of

Baltimore rose 4.10% to \$38,503,311 for the first six months of this year, from collections of \$36,989,224 in the comparable 1942 period, a report received from Herbert Fallin, budget director, showed.

Collections for the first half represented 67.76% of the \$56,820,981 which the city had estimated it would obtain in 1943 from tax sources, and compared with a ratio of 64.82% of collections to estimates of a 1942 collection totaling \$57,067,680.

Real estate tax collections aggregated \$19,030,567 in the first half of 1943, or 72.59% of the \$26,218,048 that the city expects to collect from this source in the entire year. In the first six months of 1942, real estate tax income amounted to \$16,771,735 or 61.55% of the estimated receipts of \$27,250,503 for the entire 1942 year.

Other revenue sources included a rise in collection of delinquent taxes to \$1,579,148, or 83.11% of estimated collections of \$1,900,000 from this source for 1943 in full, compared with collections of \$1,330,864 in delinquent taxes the first six months of 1942, which represented 57.86% of the \$2,300,000 which the city expected to collect in the entire 1942 year.

#### MASSACHUSETTS

##### Peabody, Mass.

**Bond Sale**—City Treasurer Patrick M. Cahill states that the \$65,000 semi-ann. street paving of 1943 bonds offered for sale on July 23, were awarded to Halsey, Stuart & Co., Inc., as 0.75s, at a price of 100.218, a basis of about 0.68%. Due in 1944 to 1948 incl.

Second best bid was an offer of 100.027 for 0.75s, submitted by Robert Hawkins & Co.

##### Rehoboth, Mass.

**Notes Sold**—The Town Treasurer states that \$16,150 notes were offered for sale on July 23 and were awarded to the First National Bank of Attleboro, at 0.44%. Due in eight months after date of issue.

##### Somerville, Mass.

**Note Sale**—The Merchants National Bank of Boston purchased on July 29 an issue of \$200,000 notes at 0.45% discount. Dated July 29, 1943 and due March 14, 1944. The National Shawmut Bank of Boston, second high bidder, named a rate of 0.468%.

#### MICHIGAN

##### Detroit, Mich.

**Note Sale**—City Controller Charles G. Oakman states that the \$700,000 street railway revenue notes were awarded on July 22 to the Post-War Capital Improvement Fund of the City, at par, giving a net interest cost of about 0.80%, on the issue divided as follows: \$90,000 notes, maturing on Jan. 15, 1944, as 45s, \$85,000 maturing July 15, 1944, as 50s, \$90,000 maturing Jan. 15, 1945, as 60s, \$85,000 maturing July 15, 1945, as 65s, \$90,000 maturing Jan. 15, 1946, as 70s, \$85,000 maturing July 15, 1946, as 80s, \$90,000 maturing Jan. 15, 1947, as 90s, and \$85,000 maturing July 15, 1947, as 1.05s.

**Gratiot Township School District No. 2 (P. O. Detroit), Mich.**

**Bond Sale**—The \$35,000 coupon building bonds offered July 26—v. 158, p. 346—were awarded to the First of Michigan Corp., Detroit, as 1½s at a price of 100.02, a basis of about 1.493%. Dated July 1, 1943 and due on April 1 from 1944 to 1948 incl. Stranahan, Harris & Co., Inc., Toledo, second high bidder, offered a price of 100.16 for a combination of \$25,000 1½s and \$10,000 1½s.

#### Michigan (State of)

**Fiscal Year-End Shows Increased Revenues**—It was announced recently by Louis M. Nims, State Revenue Commissioner, that his department collected \$104,678,787.29 revenues in the fiscal year ended June 30, including record sales and use tax receipts of \$86,412,724.82.

The total of all revenues, he said, was \$1,672,774.08 greater than in the preceding year, while the sales and use tax total was up \$2,877,676.59.

At the same time the Commissioner warned that the State must expect a slump in this flood of wealth, declaring that it already has lost about \$9,000,000 in taxes on the sale of automobiles because of war-time restrictions, and that "the ever-increasing limitation of salable consumer goods will inevitably reduce the tax yield."

"During the past year we lost nearly 10,000 taxpayers—retailers who quit business because they had nothing to sell," Mr. Nims asserted. "Under such circumstances it is obvious that the future sales trend will be downward."

Mr. Nims said that luxury buying by high wage earners and higher food prices were "largely" responsible for the big sales tax collections.

As a matter of fact, he added, the total collections do not tell all of the story of State income, because "several large utility corporations" paid their utility tax June 30 and the payments "were not audited by the auditor general until the new fiscal period" had started July 1. They will be credited to this year's revenues.

Mr. Nims' report covered income from the sales and use tax, intangible tax, inheritance tax, utilities tax, steamship tonnage tax, severance tax on gas and oil and inmate maintenance.

#### MICHIGAN SINKING FUND OFFERING, See page 444

#### MINNESOTA

##### Milaca, Minn.

**Bond Sale**—The \$48,000 funding bonds offered for sale on July 26—v. 158, p. 347—were awarded to Kalman & Co. of St. Paul, according to J. F. Sundt, Village Recorder. Dated Sept. 1, 1943. Due on Sept. 1 in 1946 to 1961 inclusive.

Runner-up in the bidding was the Northwestern National Bank & Trust Co., Minneapolis.

#### Minnesota (State of)

**Post-War Air Transportation Considered**—Commenting on legislation enacted by the recently adjourned session, the American Municipal Association points out that Minnesota has already laid the foundations for the development of a State system of municipal airports.

The Twin Cities commission is directed by the Legislature to take over operation and control of all airports owned by either city, and it may construct new airports "substantially equidistant" from the two city halls but within 25 miles of them. The corporation, also, may issue up to \$15,000,000 in bonds, with credit of the two cities pledged to their payment.

Significant in connection with \$1,000,000 to be contributed by the State toward municipal airport development, the association said, is that it may be spent on any public airport in the State. The money will be spent by the Governor, though he must act with advice and consent of a legislative advisory committee.

In spending the money the Governor must take into consideration "the locations of airports owned by municipalities and their

usefulness as part of the State, national or international system of air transportation; benefit of such airports to the people of the State as a whole as distinguished from purely local benefits; possibilities of their use in providing for State and national defense; use being made of them during the present war, and probabilities for future war use."

**Wright County Indep. Sch. Dist. No. 71 (P. O. Annandale) Minn.**

**Bond Sale**—The \$40,000 refunding bonds offered for sale on July 13—v. 158, p. 147—were awarded jointly to the Allison-Williams Co. of Minneapolis, and Kalman & Co. of St. Paul, as 1½s, at par.

#### MONTANA

##### Billings, Mont.

**Bond Offering**—Bids will be received until Aug. 17, at 8 p.m., by O. W. Nickey, City Clerk, for the purchase of \$57,845.53 funding bonds. Interest rate is not to exceed 2%, payable J-J. Dated July 1, 1943. Amortization bonds will be the first choice and serial bonds will be the second choice of the Council. If amortization bonds are sold and issued the entire issue may be put into one single bond or divided into several bonds, as the Council may determine upon at the time of sale, both principal and interest to be payable in semi-annual installments during a period of 10 years from the date of issue.

If serial bonds are issued and sold they will be in the amount of \$500 and \$300, except the last bond which will be in the amount of \$145.53, the sum of \$5,800 of said serial bonds will become due and payable on July 1, 1944, and a like amount on the same day each year thereafter until all such bonds are paid, except that the last installment will be in the amount of \$5,645.53.

The bonds, whether amortization or serial, will be redeemable in full at the option of the city on any interest paying date from and after 10 years from the date of issue.

**Cascade County School Dist. No. 1 (P. O. Great Falls), Mont.**

**Bond Offering**—Bids will be received until Aug. 23, at 7:30 p.m., by V. F. Gibson, District Clerk, for the purchase of \$127,500 refunding bonds. Dated Sept. 15, 1943. Amortization bonds will be the first choice and serial bonds will be the second choice of the school board. If amortization bonds are sold and issued, the entire issue may be put into one single bond or divided into several bonds, as the purchaser may indicate in his bid and as the Board of Trustees may determine upon at the time of the sale, both principal and interest to be payable in semi-annual installments during a period of 10 years from the date of issue.

If serial bonds are issued and sold they shall be in denominations of \$1,000 and \$750 each; the sum of \$12,750 of said serial bonds will become payable on Sept. 15, 1944, and a like amount on the same day of each year thereafter until all such bonds are paid. The bonds, whether amortization or serial bonds, will bear interest at a rate not exceeding 2% per annum, payable semi-annually on March 15 and Sept. 15 in each year, and will be redeemable in full on any interest payment date from and after Sept. 15, 1948. The bonds will be sold for not less than their par value with accrued interest and all bidders must state the lowest rate of interest at which they will purchase the bonds at par. The Board of Trustees reserves the right to reject any and all bids and to sell the bonds at private sale. All bids other than by or on behalf of the State Board of Land Commission-

ers must be accompanied by a certified check, in the sum of \$2,500, payable to H. H. Stanley, Chairman of the Board of Trustees.

#### NEBRASKA

##### Nebraska (State of)

**Local Unit Bond Offering Scheduled**—It is stated by Henry F. Bartling, Secretary of the Board of Educational Lands and Funds, that the Board will offer for sale at open, public and competitive bidding, a total of \$1,588,300 tax-free bonds of Nebraska State subdivisions on Aug. 26, at 10.30 a.m. (CWT).

#### NEW JERSEY

##### Irvington, N. J.

**Bond Sale**—The \$85,000 series E school refunding bonds offered July 27—v. 158, p. 244—were awarded to B. J. Van Ingen & Co., Inc., New York, and McBride, Miller & Co., Newark, jointly, as 1½s, at a price of 100.558, a basis of about 1.446%. Dated Dec. 1, 1939 and due on Dec. 1, 1954. Among other bids were the following: United States Trust Co., Newark, 1½s, 100.519; Kean, Taylor & Co. and VanDeventer Bros., jointly, 1½s, 100.39; Halsey, Stuart & Co., Inc., 1½s, 100.30; M. M. Freeman & Co., 1½s, 100.20.

##### New Jersey (State of)

**Railroad Levy at Record Figure**—It was announced on July 23 by State Tax Commissioner Kelly that the total railroad tax for this year will be \$23,539,092. This is almost \$3,000,000 more than the highest collection ever made under the old taxing system, which was used until 1941. The levy compares to a levy of \$18,053,032 last year.

Kelly said the increase is based on the heavy wartime business of the carriers. The franchise tax, based upon earnings of the roads, will be \$11,063,317 this year, compared to \$5,851,283 in 1942.

The 3% tax upon the real and tangible properties of the railroads remains about the same. It was \$12,201,748 last year and is increased this year to \$12,475,775.

The assessment was made under the revised rail tax program adopted by the Legislature in 1941 under Governor Edison's leadership. The statutes were not affected by Vice Chancellor Jayne's opinion, which held the rail tax settlement laws of 1941 and 1942 were unconstitutional. These settlement laws involved only back taxes owed by the railroads.

The new taxing method is designed to make the railroads pay on the basis of their earnings. Thus they pay more when their revenues are high and less during years when business is poor.

Out of the total levy, the State will get \$12,546,461, which is dedicated mainly to schools and the educational system. The municipalities will receive \$10,992,631.

The State's part of the tax will be \$7,014,803 on main line properties and \$5,531,658 from earnings. Municipalities will get \$5,460,972 from tax on properties and \$5,531,658 from earnings.

Last year the State's levy was \$9,829,783, with \$6,904,141 coming from property taxes and \$2,925,641 from earnings. The levy for municipalities totaled \$8,223,249, with \$5,297,607 assessed on real estate and \$2,925,641 on earnings.

**Post-War Planning Subcommittee Formed**—The New Jersey Local Government Board has formed a subcommittee to deal with post-war plans of local governments. Keeping in mind the fact that there will be a great demand for post-war projects, the board is seeking to determine whether there is any yardstick which would indicate if a particular municipality is financially able to undertake new projects. The board will also aim to place

before the municipality the cost as well as the benefits which may arise through post-war construction. One of the aims will be to avoid some of the unfortunate experiences which occurred in the middle '30s. It is not the board's intention to promote projects but rather to be in a position of a coordinating body working with other groups which are interested in promoting post-war projects but confining its activities to the realm of municipal finance.

**Utilities Lose Franchise-Tax Case**—Utility companies can not include service connections to consumers in their computation of the length of mains and lines on which the gross-receipts franchise tax is based, the State Supreme Court ruled July 22.

The litigation before the court involved assessments for 1940, and tax authorities said the opinion would mean a million dollars more in State revenues.

If a utility was permitted to count all its lines running along public thoroughfares, plus service connections, its franchise tax would be less, the court said.

The percentage which the length of lines or mains along public thoroughfares bears to the whole length of a utility's lines or mains measures the amount of money to which the State's 5% gross receipts franchise tax is applicable.

The Supreme Court affirmed a decision on the State Board of Tax Appeals, which had held that service connections were not to be considered in the calculations under terms of the franchise tax statute.

Appealing from the decision of the tax appeals board were Jersey Central Power & Light Co., Public Service Electric & Gas Co., New Jersey Bell Telephone Co. and New Jersey Power & Light Co.

##### Newark, N. J.

**Statement Prepared on Debt Position**—Mayor Murphy has made public figures prepared for him by the City Auditor's Office, reporting that Newark's bonded debt payments, listed at \$8,140,573 in the current budget, will be down to \$4,824,439.50 by 1950, thus making possible a tax rate reduction of about 54 points. The debt statement was drawn up by Acting City Auditor Farrell in order to clarify the city's financial situation. Due to forthcoming heavy payments by the Sinking Fund Commission various estimates of the effect they will have on future tax rates have been heard. Mr. Farrell made his study on the present figures, exclusive of future bond issues.

Mr. Farrell's figures show that debt payments will be cut sharpest in 1946, when they will fall \$1,020,587, and in 1947, when they will drop \$929,114. Meanwhile, possible retirement of callable bonds, beginning in 1945, may cut the tax rate even more.

Mr. Farrell pointed out that \$11,406,000 of the bonds held by the Sinking Fund Commission mature in 1943, 1944 and 1945 and the Commission will retire them. At the same time \$3,380,000 in bonds may be called. Mr. Farrell said the Commission will save thousands of dollars in interest by paying the bonds off 10 years earlier than necessary.

The downward trend of the debt ceiling is reflected in interest payments. Mr. Farrell pointed out that this year these payments totaled \$3,573,223, with principal payments of \$4,567,350. In 1950 interest payments will be \$1,787,439 and principal \$3,037,000.

This is the schedule of future debt payments: 1944, \$7,893,314; 1945, \$7,457,080; 1946, \$6,020,593;

1947, \$5,507,379; 1948, \$5,291,594; 1949, \$4,965,174; 1950, \$4,824,439. In 1934, when the city went on the cash basis plan—forcing retirement of a set amount of bonds as they came due—Newark had a gross debt of \$130,647,200. In 1945 the debt will be \$71,991,200.

#### Rumson, N. J.

**Bond Offering**—Albert A. Kerr, Jr., Borough Clerk, will receive sealed bids until 8.15 p.m. (EWT) on Aug. 12 for the purchase of \$12,000 not to exceed 6% interest coupon or registered First Sewer District 1941 bonds. Dated Aug. 1, 1943. Denom. \$500. Interest F-A. Due \$1,500 Aug. 1, 1944 to 1951. These bonds are part of an authorized issue of \$60,000. Principal and interest payable at the office of the Borough Treasurer. Each proposal must specify a single rate of interest. No proposal will be considered which specifies a rate higher than the lowest rate stated in any legally acceptable proposal. Each proposal must state the amount bid for the bonds, which shall be not less than \$12,000 nor more than \$13,000. As between legally acceptable proposals specifying the same rate of interest, the bonds will be sold to the bidder complying with the terms of sale and offering to accept for the amount bid the least amount of bonds, the bonds to be accepted being those first maturing, and if two or more bidders offer to accept the same least amount, then to the bidder offering to pay therefor the highest price. The purchaser must also pay an amount equal to accrued interest at the rate borne by the bond from the date of the purchase. The successful bidder will be furnished with the opinion of Theodore D. Parsons, Borough Attorney, that the bonds are valid and legally binding obligations of the Borough. Enclose a certified check for 2% of the amount bid for, payable to the Borough.

#### NEW YORK

##### East Williston, N. Y.

**Bond Offering Postponed**—It is stated by Vanderwater, Sykes & Galloway of New York, that the offering of the \$10,000 not to exceed 4% semi-ann. drainage bonds, which had been scheduled for July 26—v. 158, p. 244—has been postponed to 3 p.m. (EWT), on Aug. 3. Interest payable F-A. Denom. \$1,000. Dated Aug. 1, 1943. Due \$2,000 from Aug. 1, 1944 to 1948 inclusive. Principal and interest payable at the Nassau County Trust Co., Mineola, with New York exchange. The approving opinion of Vanderwater, Sykes & Galloway of New York, will be furnished to successful bidder. A \$200 certified check, payable to the Village, must accompany the bid.

##### New York City, N. Y.

**Governor Again Rejects La Guardia Plea For New Tax Powers**—Governor Dewey on July 23 rejected a second plea from Mayor LaGuardia for a special session of the Legislature to grant new taxing powers to New York City.

The Governor advised Mr. LaGuardia to get together with the City Council on a specific taxing program and said he would be "happy forthwith to submit it to the legislative leaders."

Mr. Dewey said that until such a program had been agreed upon it would be an abuse of power and a futile act to call an extraordinary legislative session.

"The solution to the problem obviously does not lie in continued correspondence with me," he added.

The Governor declared that present tax burdens upon real estate in the city are "onerous and should they result in increases in rents it would be extremely unfortunate."

Dewey turned down the first request for a special session on (Continued on page 445)

#### Michigan (State of)

**Local Unit Bond Offering**—It is reported by D. Hale Brake, State Treasurer, that pursuant to authorization of the State Administrative Board, he will receive sealed bids until Aug. 9, at 1 p.m. (CWT), for various items of Michigan Municipal bonds aggregating \$406,400.

The notation (All) in connection with an item indicates that the State is offering its complete holding of the municipality involved. The notation (\*) indicates more of similar maturity of this issue or series held. The statement of a number of days in connection with an item indicates the time following date of sale, during which the State will not offer any more of such Series or Issue held by it, providing the item listed is sold, unless purchaser waives time restriction.

The items being offered for sale are as follows:

No bid for part of an item will be considered. The right is retained by the Finance Committee to reject all bids, but unless all bids are so rejected for any item, sale thereof will be made to the highest bidder, who complies with the terms of sale. Bids are to be submitted showing dollar price per item, plus accrued interest to date of delivery at coupon rate. The Committee reserves the right at its option to sell to the purchaser of any item more bonds of the same issue, at the same price, if such purchaser desires such additional bonds, such option is to be exercised prior to 4:00 o'clock P.M. (Central War Time) on day of sale.

Each bid must be enclosed in a sealed envelope addressed to said Treasurer and should be marked, "Bid For Bonds" and must be accompanied by a certified check guaranteeing compliance with bid in the amount of 2% of the amount bid for said bonds, or 2% of the par value where bids exceed par.

Bids will be publicly opened at the time and place above mentioned in the presence of the Auditor General, the Secretary of State and the State Treasurer or their Deputies.

(Continued from page 444)  
June 17, but the Mayor recently repeated his plea. He asked for new taxing powers in order to lower the real estate tax rate, which now carries the brunt of the city budget.

At the receipt of the Governor's message, Mayor LaGuardia immediately called on the City Council to submit a specific local tax program to the State officials.

"I have done everything in my power to get new taxing powers for the city. I sincerely hope the City Council will act now that we have a definite commitment from the Governor," the Mayor declared.

#### New York City Housing Authority, N. Y.

**Note Sale**—A group composed of the Chemical Bank & Trust Co., National City Bank, New York Trust Co., and Brown Bros. Harriman & Co., all of New York City, purchased on July 29 a total of \$3,985,000 notes at 0.43% interest, plus a premium of \$54. The offering consisted of: \$1,000,000 first series; \$500,000 each of series 2, 3, 4, 5 and 6, and \$485,000 seventh series. All of the notes are dated Aug. 13, 1943 and payable to bearer on Feb. 15, 1944. Other bids were as follows: R. W. Pressprich & Co., New York, \$1,000,000 (series 1), 0.49%, plus \$11 premium; \$1,000,000 (series 2 and 3), 0.48%, plus \$16; \$1,500,000 (series 4, 5 and 6), 0.47%, plus \$22, and for \$485,000 seventh series, 0.46%, plus \$8; Harriman Ripley & Co., Inc., New York, \$500,000 second series at 0.44%, plus \$1.50.

**Plans Large Scale Post-War Program**—Edmond B. Butler, chairman of the New York City Housing Authority has announced that the Authority has selected the architects to prepare the plans and specifications for six low-rent public housing projects in the post-war program. These are to be financed by the Authority with State loans and State and city subsidies. It is estimated that these projects will cost \$53,000,000 in the aggregate, and will house approximately 8,668 families. These projects are:

Lillian Wald Houses—Manhattan—bounded by Avenue D, East River Drive, East 6th Street, and East Houston Street.

Morrisania Houses—Bronx—bounded by Morris Avenue and East 146th Street, College Avenue and East 145th Street, and Third Avenue and East 140th Street.

Abraham Lincoln Houses—Manhattan—bounded by Fifth Avenue, Park Avenue, East 132nd Street, and East 135th Street.

James Weldon Johnson Houses—Manhattan—bounded by Third Avenue, Park Avenue, East 112th Street, and East 115th Street.

Marcy Houses—Brooklyn—bounded by Nostrand, Flushing, Myrtle, and Marcy Avenues.

Gowanus Houses—Brooklyn—bounded by Wycoff, Bond, Baltic, and Hoyt Streets.

Mr. Butler stated: "These designations are in accordance with the Authority's policy to proceed with the planning of its post-war housing program as far as war conditions will permit. The public housing projects of the Authority which are scheduled for construction at the end of the war form a very important part of the post-war public works program of the city and the State. Through its public housing program the Authority is making an important contribution not only to the improvement of the city, but also to the solution of the post-war problems of employment."

So that the development of this program will proceed without delay as soon as the war ends, the Authority intends, whenever possible, to complete at least the first three stages in the development of a project. The first stage is the making of the necessary financing contracts with the State of New York and the City of New York. These contracts

have now been made. The contracts for Morrisania Houses, Abraham Lincoln Houses, and Marcy Houses were signed on June 30, 1942. On Dec. 23, 1942, contracts for Gowanus Houses and James Weldon Johnson Houses were also signed. The contract for Lillian Wald was signed in 1941. All of these projects have been approved by the City Planning Commission and the Board of Estimate.

**New York (State of)**  
**Dewey Will Not Ask Election For Lt. Governor**—Governor Dewey will not press for election this year of a lieutenant governor, his secretary, Paul E. Lockwood, announced July 28. He will allow Joe R. Hanley, president pro tem of the State Senate, to fulfill the duties performed by the late Lieutenant Governor Thomas W. Wallace.

It was pointed out the main duty of the lieutenant governor is to preside over the Senate and inasmuch as he has only a casting vote, Senator Hanley can keep his seat without disrupting the legislative machinery. The Governor, it was said, takes the position that Hanley automatically became acting lieutenant governor upon the death of Wallace and that no formal appointment was necessary.

Mr. Lockwood's statement was taken to mean that the Governor will not ask Attorney General Goldstein for an official opinion on the subject. This will pass the problem to the Democrats, who may ask the courts to solve it.

**New York (State of)**  
**Retirement System Assets Over \$200,000,000**—It was reported recently by Frank C. Moore, State Comptroller, that over 100,000 persons engaged in public service are now members of the State Retirement System. As of July 15, the organizations enrollment had reached 100,151.

While making these figures public, Mr. Moore also made known that the system's assets have kept pace with the increased membership and are now in excess of \$200,000,000.

Thus in the space of 22½ years its membership has grown from an initial group of 4,250 to today's 100,151 and its funds from a borrowed \$500,000 to \$200,000,000 worth of the soundest securities obtainable.

In 1922 the system's scope was extended by legislation, permitting counties and cities to participate. A year later another measure enabled towns and villages to join and finally, in 1924, provisions were made to indicate such quasi-public agencies as bridge authorities, boards of water supply, libraries, school districts and similar bodies. Today the employees of all counties but six, all cities but three, 86 towns, 280 villages and 247 quasi-public agencies are included in the system.

Administration of this complex organization which, in many respects, has all the elements of a large insurance company, is charged by law to Comptroller Moore. Upon him falls the duty of safeguarding its \$200,000,000 in investments, promptly adjudicating claims, and providing efficient methods for collecting and registering contributions from members and member municipalities. This requires a staff of 160 men and women.

**War Contract Volume Greatly Expanded**—The New York "Herald Tribune," in its issue of July 25, commented editorially as follows:

New York State is now second only to California in the volume of its war contracts. In the last four months, according to Commerce Commissioner Catherwood, its firms have benefited by an increase of \$3,000,000,000 in such contracts, raising the total since June, 1940, to \$11,713,000,000. All of which is a highly gratifying indication that we are no longer

the forgotten commonwealth in the war economy.

But we are by no means yet a favorite, as the per capita value of these contracts makes plain. That per capita value for New York is now \$869 as compared with the national average of \$897. This is a distinct improvement over four months ago, when the New York figure stood at \$667, but it justifies Commissioner Catherwood's remark that "we know we can do better."

The question is, how much better should we want to do? We are not a state conspicuous for its mass production industries, rather for the relatively small units that compose its vast workshop. It is exceedingly gratifying that these units are now receiving the nourishment they deserve, which evidently means that the Government is making commendable progress in solving the problem of a better distribution of war production through subcontracts. But there is such a thing as too great a conversion to the demands of war. Not for a minute would we deprecate such conversion to the full extent required for victory, but beyond that point further competition to attract war contracts will have its penalties when peace comes and with it the drastic and painful readjustment to a normal market.

**Port of New York Authority, N. Y.**  
**Refunding Decision Expected Soon**—A committee representing the Port Authority recently discussed with investment bankers the question of refunding \$13,865,000 of outstanding port bonds of 1976 which may be called for payment on Nov. 1, 1943, at a price of 103. Results of the conferences will be reported to the Port Authority Commissioners shortly, at which time the question will receive further consideration.

## OHIO

**Bellaire, Ohio**  
**Bonds Authorized**—The City Council has authorized an issue of \$10,000 4% sewer bonds. Dated March 1, 1943. Denomination \$1,000. Due \$1,000 on Sept. 1 from 1944 to 1953 inclusive. Principal and interest payable at the City Treasurer's office.

**Lorain, Ohio**  
**Bond Offering**—Sealed bids will be received until noon on Aug. 12, by Earl R. Frank, City Auditor, for the purchase of the following bonds aggregating \$61,667:

\$46,227 street imp't bonds. Denom. \$1,000, one for \$1,227. Due Nov. 1, as follows: \$4,227 in 1945, \$4,000 in 1946 to 1948, and \$5,000 in 1949 to 1954.

15,450 resurfacing bonds. Denomination \$1,000, one for \$1,450. Due Nov. 1, as follows: \$1,450 in 1945, \$2,000 in 1946 to 1950, and \$1,000 in 1951 to 1954.

Interest rate is not to exceed 3%, payable M-N. Dated Aug. 25, 1943. Rate of interest is to be in multiples of ¼ of 1%. No bids for less than par and accrued interest to date of delivery. The bonds to be delivered to the purchaser in Lorain. Principal and interest payable at the office of the Sinking Fund Trustees. Authority: Uniform Bond Act of the State and ordinances Nos. 5250 and 5251, passed by the City Council on July 6. A complete transcript of the proceedings had relative to the above issues to be approved by Squire, Sanders & Dempsey of Cleveland, will be furnished the successful bidder upon the day of sale. The legal opinion of such transcript to be paid by the successful bidder. Enclose a certified check for 2% of bid.

**Maumee, Ohio**  
**Bond Sale**—Village Clerk O. E. Charles states that \$25,000 3% semi-annual water system mortgage revenue bonds have been purchased by Siler, Roose & Co. of Toledo. Denomination

\$1,000. Dated June 1, 1943. Due on Dec. 1 as follows: \$1,000 in 1948 to 1952, and \$2,000 in 1953 to 1962, callable at 103 on and after Dec. 1, 1948. Principal and interest payable at the State Savings Bank Co., Maumee.

**Newark, Ohio**  
**Bond Issue Authority**—The Council has taken the necessary procedure for the authorization of \$190,000 water filtration plant construction bonds. Dated July 1, 1943.

**Norwood, Ohio**  
**Bonds Authorized**—The City Council is said to have passed an ordinance calling for the issuance of \$6,500 4% semi-annual motor equipment purchase bonds. Dated June 1, 1943. Due \$1,300 from Dec. 1, 1944 to 1948 inclusive.

**Ohio City, Ohio**  
**Bond Sale**—The \$4,000 3½% semi-annual public building bonds offered for sale on July 19—V. 158, p. 150—were awarded to J. A. White & Co. of Cincinnati, according to the Village Clerk. Dated Aug. 1, 1943. Due \$500 from April 1, 1945 to 1952 inclusive.

**Ohio (State of)**  
**Gas Tax Revenue Off \$3,000,000**—Ohio's gasoline tax revenues—and incidentally Toledo's and Lucas County's, too—were given a three-million-dollar jolt the first four months of this year, a report made to William S. Evatt, State Tax Commissioner, disclosed.

Mileage rationing with its A, B, and C stickers and coupons gets most of the blame for the 25% slash in both tax revenue and gasoline consumption.

The effect of the motor fuel dole, which started Dec. 1, 1942, was mirrored in the report of L. K. Douglas, chief of the division of gasoline and liquid fuel of the Department of Taxation, to Mr. Evatt. Net income, earned from the gasoline tax of three cents a gallon slid \$2,997,799.61 the first four months of this year compared to the first four of 1942.

The revenue in that period of last year was \$12,418,371.03 while this year it dipped to \$9,420,372.42.

The gross number of gallons used by motor transportation units in the State before exemptions for refund allowances totaled 346,508,539 in the first four 1943 months, a decrease of 93,125,627 gallons from the same period in 1942.

The skid began in December, 1942, the first month of gasoline rationing in Ohio. Gallons sold to motorists dropped to 81,066,033 from the previous month's mark of 121,046,453, a decline of nearly one-third. This affected the State's revenue to the tune of \$1,226,588.01 less than the month before rationing started.

**Ohio State Bridge Commission (P. O. Columbus), Ohio**  
**Funds Available For Payment Of 1943 Debt Charges**—With many bridge commissions experiencing difficulties in meeting their obligations, due to tire and gasoline rationing, the State Bridge Commission of Ohio announced last week that it will meet in full and on time time all bonds maturing and interest due this year.

A report to Governor John W. Bricker by Ray Palmer, Secretary-Treasurer of the Bridge Commission, covering the first six months of 1943, shows that the Commission already has in its various bridge sinking funds sufficient balances to meet the bonds and interest due in 1943 on three of its four bridges. The fourth bridge is expected to be in a similar position by Oct. 1 when the bonds are due.

Bonds to be retired Oct. 1 are: Sandusky Bay Bridge, \$125,000; East Liverpool-Chester Bridge, \$125,000; Steubenville-Weirton Bridge, \$90,000. The Commission also expects to pay off \$40,000 of

Pomeroy-Mason Bridge Bonds, which are not due until 1956.

Sinking fund balances of these bridges on July 15 were: Sandusky Bay Bridge, \$188,293.80; Steubenville-Weirton Bridge, \$145,523.74; East Liverpool-Chester Bridge, \$117,734.15; Pomeroy-Mason Bridge, \$31,618.88.

The Commission paid off \$48,000 Pomeroy-Mason bonds in April and the anticipated Oct. 1 retirement will make \$88,000 for the year.

In addition to the large sinking fund balances, the report shows balances far in excess of requirements in the Special Maintenance Reserve Funds and the Tax Reserve Funds. These surplus funds may also be used for bond retirement.

Reductions this year of \$300,000 in West Virginia's valuation of the Commission's three Ohio River bridges, and a reduction of \$290,000 last year in the valuation will mean a savings of nearly \$11,000 annually in taxes. About 80% of the Ohio River bridges are inside the West Virginia border.

Following is a table showing the condition of the various bridge sinking funds and the relation of each sinking fund to Oct. 1, 1943 debt-service requirements:

Bridge	Bal. in Sink- ing Fund July 15, '43	Bonds & Int. Due Oct. 1, '43	Over or Short
Sandusky Bay Bridge	\$188,293.80	\$132,810	\$55,483
Steubenville-Weirton	145,523.74	97,393	48,129
Pomeroy-Mason Bridge	31,618.88	4,060	27,558
East Liverpool-Chester	117,734.15	139,875	22,140
* \$48,000 Pomeroy-Mason bonds were retired April 1, 1943. † Over. ‡ Short.			

In a covering letter to Governor John W. Bricker, which accompanied the complete detailed results of the bridge operations for the six months ended June 30, 1943, Secretary-Treasurer Ray Palmer, stated in part as follows:

"The foregoing table shows that three of the four State operated bridges already have in their sinking funds more than enough to pay Oct. 1, 1943 obligations. The fourth bridge—the East Liverpool-Chester Bridge—is primarily a tourist bridge, but at this time is only \$22,140.85 short of its Oct. 1 requirements."

"In the Special Reserve Funds and the Tax Reserve Funds of all four bridges are large excesses—balances beyond requirements—which may be used for debt service in an emergency. We call attention to these surplus funds in the case of the East Liverpool-Chester Bridge only, because it is the only one of our bridges which may ever need them."

"The June 30 balance in the Special Reserve Fund of the East Liverpool-Chester Bridge was \$32,191.70. This is a contingent fund as well as a reserve fund for special maintenance and most of this \$32,191.70 balance may be used for debt service by resolution of the Commission and with the approval of the consulting engineers. This fund increases \$1,500 monthly."

"The June 30 balance in the East Liverpool-Chester Bridge Tax Reserve Fund was \$14,548.87. This represents an excess of \$8,874.37, which is available for debt service."

"It is clear that all bridges will not only meet 1943 obligations, but will carry over into 1944 good balances to help pay the bonds and interest due next year."

"In addition to the favorable balances shown, the Commission has a backlog in the Appropriation Act for the 1943-1944 biennium. The Appropriation Act gives legislative authority for loans to the Bridge Commission by the State Emergency Board of \$25,000 in 1943, and \$125,000 in 1944, for debt service in case of an emergency. Such a contingency appears much more remote now than it did when the Legislature

was in session, but the backlog is there if needed."

#### **Perrysburg Exempted Village Sch. Dist. (P. O. Perrysburg), Ohio**

**Bond Offering** — Sealed bids will be received until noon on Aug. 6, by Virginia Witzler, District Clerk, for the purchase of \$3,800 2% building bonds. Interest payable A-O. Dated Aug. 1, 1943. Denomination \$500, one for \$800. Due Oct. 1, as follows: \$500 in 1944 to 1949, and \$800 in 1950. Bidders may bid for a different rate of interest in a multiple of 1/4 of 1%. Principal and interest payable at the Citizens Banking Co., Perrysburg. Authority: Uniform Bond Act of the General Code and pursuant to a resolution passed by the Board of Education on July 13. Enclose a certified check for not less than 1% of the bonds bid for, payable to the District Clerk-Treasurer.

#### **Port Clinton, Ohio**

**Bond Offering** — W. L. Zeis, Village Clerk, will receive sealed bids until noon (EWT) on Aug. 10 for the purchase of \$21,902.65 not to exceed 4% interest West Third St. improvement bonds. Dated Sept. 1, 1943. One bond for \$902.65, others \$1,000 and \$500. Due Oct. 1, as follows: \$1,902.65 in 1944; \$2,500 from 1945 to 1948 inclusive and \$2,000 from 1949 to 1953 inclusive. Rate of interest to be expressed in multiples of 1/4 of 1%. Principal and interest (A-O) payable at the Village Treasurer's office. A certified check for \$220, payable to order of the village, is required. Legal opinion of Squire, Sanders & Dempsey of Cleveland will be furnished the successful bidder.

#### **OKLAHOMA**

##### **Ponca City, Okla.**

**Bond Election** — At an election on Aug. 10 the voters will consider a proposal to issue \$50,000 park bonds.

#### **OREGON**

##### **The Dalles, Ore.**

**Bond Sale** — The \$70,000 semi-annual water improvement bonds offered for sale on July 22—V. 158, p. 349—were purchased by the First National Bank of Portland, (The Dalles Branch) as 2s, at par. Due \$5,000 on July 1 in 1946 to 1959 inclusive.

The \$7,500 semi-annual airport improvement bonds offered at the same time, were purchased by P. J. Stadelman of The Dalles, as 2s, at par. Due \$2,500 on July 1 in 1945 to 1947 inclusive.

##### **Wasco, Ore.**

**Bond Sale** — It is stated by E. F. Feldman, City Recorder that the \$15,000 semi-annual refunding, Series B bonds offered for sale on July 26, were purchased by the Charles N. Tripp Co. of Portland. Denomination \$1,000. Dated June 15, 1943. Due on June 15 as follows: \$2,000 in 1945 to 1950, and \$3,000 in 1951.

#### **PENNSYLVANIA**

##### **Jefferson Tp. (P. O. Clairton), Pa.**

**Bonds Authorized** — The Board of Commissioners is said to have voted to issue \$35,000 sewer bonds.

##### **Jenkins Tp. Sch. Dist. (P. O. Griffith, Pittston), Pa.**

**Bond Sale** — The \$35,000 3% coupon semi-annual school bonds offered for sale on July 17—V. 158, p. 245—were awarded to Moore, Leonard & Lynch, of Pittsburgh, the only bidders for the issue. Dated June 28, 1943. Due on June 28 in 1945 to 1953; callable on June 28, 1947.

##### **McKeesport, Pa.**

**Bond Legality Test Sought** — The City Council is said to have established an expense account with which to engage an attorney to prepare a taxpayers' suit by which to test the legality of \$400,000 not to exceed 2 1/2% funding bonds.

#### **Pennsylvania (State of)**

**Governor Planning to Reduce Debt** — A dispatch from Harrisburg to the Philadelphia "Inquirer" of July 23 reported in part as follows:

Any surplus that might accrue in the State Treasury in the next two years will be utilized for post-war projects and to lower the Commonwealth's \$119,000,000 bonded indebtedness, Governor Martin declared today.

"This is the time we must all get down to common sense and conduct government as economically and as efficiently as we can under war conditions," Martin said.

State Senator Harry Shapiro (D., Philadelphia), yesterday urged Auditor General F. Clair Ross and State Treasurer G. Harold Wagner, both Democrats, to ascertain the surplus as of May 31, and cited a constitutional provision that excess monies should be assigned to the Sinking Fund to pay off debts.

Ross promptly took up the issue and charged that "there has been apparent juggling of financial figures."

The Governor retorted that "it is part of the duties of the Auditor General to see that there is no juggling of funds."

Pointing out that war-time conditions add an uncertainty to what revenues can be anticipated, the Governor said he hoped the 1943-'45 biennium would wind up with a \$25,000,000 surplus.

"To actually determine what a surplus is in Pennsylvania," he commented, "sufficient time has to elapse in order that everything provided for by the Legislature is carried into effect."

"The matter of a surplus will depend on tax receipts. It's really a bookkeeping proposition."

The Governor said that he would like to see some of the surplus applied to the general State Authority's \$51,000,000 indebtedness.

He characterized the net State indebtedness as "doggoned good." There is \$38,000,000 in the Sinking Fund applicable to these debts.

##### **Trainer (P. O. Chester) Pa.**

**Bond Sale** — The \$35,000 semi-annual improvement bonds offered for sale on July 8—V. 158, p. 44—were awarded to Blair & Co., Inc. of Philadelphia, as 1 1/2s, at a price of 101.208, a basis of about 1.35%. Dated July 1, 1943. Due on July 1 in 1944 to 1958.

#### **RHODE ISLAND**

##### **Westerly, R. I.**

**Note Offering** — Sealed bids will be received until 11 a. m. on Aug. 3, by Lewis Stone, Town Treasurer, for the purchase at discount of \$125,000 notes. Dated Aug. 5, 1943. Denominations \$25,000, \$10,000 and \$5,000. Due Nov. 5, 1943. Issued in anticipation of taxes for the current fiscal year. The notes will be authenticated as to genuineness and validity by the First National Bank of Boston, under advice of Storey, Thorndike, Palmer & Dodge, of Boston. Telephone bids will be accepted. The notes will be ready for delivery on or about August 5 at the above bank against payment in Boston funds.

#### **SOUTH CAROLINA**

##### **Abbeville County Sch. Dist. No. 38 (P. O. Due West) S. C.**

**Bond Sale** — It is reported that R. S. Dickson & Co. of Charlotte, were the successful bidders on July 20 for \$44,000 school bonds at a price of 100.025, a net interest cost of about 2.38%, divided as follows: \$20,000 at 2 3/4s, due on July 1; \$2,000 in 1945 to 1951, and \$3,000 in 1952 and 1953, the remaining \$24,000 as 2 1/4s, due \$3,000 from July 1, 1954 to 1961 inclusive.

Interest payable J-J. Bonds maturing in 1954 to 1961 are callable at any interest date on Jan. 1, 1954, and thereafter.

#### **TENNESSEE**

##### **Claiborne County (P. O. Tazewell) Tenn.**

**Bond Call** — It is stated by J. Kyle Kivett, County Judge, that the following refunding bonds are called for payment on September 1, at par and accrued interest:

General, Nos. 891 to 900, 902 to 905, 907, and 909 to 914.

Dated June 1, 1936. Denomination \$500. Due Sept. 1, 1956.

General, Nos. 1442, 1443 and 1448 to 1453.

Dated April 1, 1936. Denomination \$750. Due Sept. 1, 1956.

Irrespective of payee agent named in the bonds, the same should be forwarded to the Third National Bank of Nashville for payment. Interest ceases on September 1.

##### **Obion, Tenn.**

**Debt Reorganization Completed** — It is reported by H. M. Blevens, Town Treasurer, that the plan of reorganization of the town's indebtedness has been completed and is now on a current basis.

#### **TEXAS**

##### **Jefferson Co. (P. O. Beaumont) Texas**

**Bids Rejected** — It is stated by W. W. P. Kent, County Judge, that the bids received for the refunding of the following bonds were not accepted:

\$99,000, 5%, Canal Bridge, dated July 10, 1929, maturing in 1944 to 1965.

\$98,000, 4%, Office Building and Jail, dated March 15, 1934, maturing in 1944 to 1964.

\$550,000 Dryden Ferry Bridge, 4%, dated March 20, 1935, maturing in 1944 to 1965.

##### **Olney, Texas**

**Bonds Sold** — It is reported that \$11,000 3 3/4% semi-annual refunding, Series of 1943 bonds were purchased recently by the Dallas Union Trust Co. of Dallas. Dated June 1, 1943. Legality approved by John D. McCall of Dallas.

##### **Ralls, Texas**

**Bond Call** — City Treasurer Waurika Brock states that 4 1/2% refunding bonds, numbered from 14 to 153, Series 1936, aggregating \$134,500, are called for redemption on September 1, on which date interest ceases, at the Guaranty Trust Co., New York City.

Dated March 1, 1936. Due March 1, 1944 to 1976, redeemable on any interest payment date, on 30 days' notice.

##### **Texas (State of)**

**Warrant Call** — State Treasurer Jesse James reports that he is calling for payment at par value. General Revenue warrants to and including No. 313,134 (1942-43 Series), which includes all warrants issued prior to and including Nov. 18, 1942. This call is for \$2,067,641.77.

General Revenue warrants, dated prior to Sept. 1, 1940, are now void because of the State statute for two years' limitation. Possessors of these warrants should make arrangements with the State representative of their district to have them presented to the General Claims Committee for special appropriation at the next session of the State Legislature. Out-of-State holders of such warrants are requested to notify the State Treasurer's office.

Other than General Revenue warrants, all State warrants are cashable when issued and should be presented immediately for payment. Prompt presentation for payment of these warrants will be greatly appreciated by the State Treasurer's office.

##### **Wheeler County (P. O. Wheeler), Texas**

**Bond Call** — County Treasurer James O'Gorman reports that the county has exercised the option granted by Article 611, Revised Civil Statutes of Texas, 1911, to redeem \$54,000 5% court house bonds, dated June 1, 1925, maturing serially during each of the years 1944 through 1965, and be-

ing all remaining bonds now outstanding of an original issue of \$80,000. Said bonds have been called for redemption on September 1, 1943, at the Central Hanover Bank & Trust Co., New York, where they will be redeemed at par and accrued interest. For the convenience of the holders, arrangements have also been made to take up these bonds at the American National Bank, Austin, where they may be presented on said date.

#### **UNITED STATES**

##### **United States**

**New York Life Insurance Co. Sells \$7,490,000 Bonds** — The Metropolitan Life Insurance Co. of New York sold on July 29 a total of \$7,490,000 of its holdings of municipals, as follows:

606,000 5% Baltimore, Md., general improvement (registered) bonds. Due \$125,000 on March 1 in 1944 and \$481,000 in 1946. Interest M-S.

To R. W. Pressprich & Co., New York:

250 4% Baltimore, Md. water (registered) bonds. Due Dec. 1, 1958. Interest J-D.

400,000 4 1/4% Richmond, Va., school bonds. Due July 1, 1962. Interest J-J.

400,000 4 1/4% Richmond, Va., sewer bonds. Due July 1, 1962. Interest J-J.

To C. J. Devine & Co., New York:

1,000,000 5% Chicago, Ill., water revenue bonds. Due Jan. 1, as follows: \$60,000 in 1944, \$250,000 in 1945, \$260,000 in 1946, \$235,000 in 1947 and \$195,000 in 1948. Interest J-J.

500,000 5% Chicago, Ill., water revenue bonds. Due 100,000 on Jan. 1 from 1945 to 1949 inclusive. Interest J-J.

To Lazard Freres & Co., New York:

1,150,000 4% Chicago, Ill., general obligations bonds. Due Jan. 1, as follows: \$350,000 in 1944; \$300,000 in 1945 and \$125,000 from 1946 to 1949 inclusive. Interest J-J.

500,000 4% Chicago, Ill., improvement bonds. Due \$100,000 on Jan. 1 from 1944 to 1948 inclusive. Interest J-J.

To a syndicate composed of First National Bank of Chicago, Barr Bros. & Co., Coffin & Burr, and Laurence M. Marks & Co., all of New York:

1,000,000 3 3/4% Pittsburgh, Pa., bonds. Due April 1, as follows: \$72,000 from 1949 to 1951 inclusive; \$64,000 in 1952 and \$72,000 from 1955 to 1964 inclusive. Interest A-O.

To a syndicate composed of the Bankers Trust Co., New York, Harris Trust & Savings Bank, Chicago, and Lazard Freres & Co., New York:

384,000 4 1/2% Richmond, Va., registered bonds. Due Jan. 1, 1960. Interest J-J.

**Reversion Stopped on Federal Road Aid Funds** — To prevent the reversion of unobligated Federal-aid road funds Congress has suspended for the period of the emergency and one year thereafter, the previous requirement regarding reversion and reappropriation of unobligated funds and authorized the use of part of such funds for engineering investigations and plans and specifications for post-war construction projects,

according to the U. S. Conference of Mayors. In the absence of this legislation \$68,000,000 would have reverted to the Federal Treasury on July 1, 1943, with no State eligible to share in a reapportionment by virtue of the Defense Highway Act of 1941 which provides that "States which have not obligated such apportioned funds on June 30, 1943, shall not be eligible to share in the reapportionment provided." Because of the labor, equipment and material shortages no State had been able to obligate the funds allotted to it. By July 1, 1944, unobligated funds would amount to about \$171,500,000.

Of the amount continued available \$50,000,000, apportioned among the States in accordance with the formula provided in the Federal Highway Act, is authorized to be used as the Federal share in preparing plans for post-war construction. This, in effect, is an enlargement of Section 9 of the Defense Highway Act of 1941 which authorized \$10,000,000 for "such surveys and plans as may be necessary . . . including advance engineering surveys and plans for future development of the strategic network of highways and bypasses around and extensions into and through municipalities and metropolitan areas." The first appropriation under this authorization, amounting to \$3,000,000 has just been made. Each State's share of the \$50,000,000 under the formula provided would be as follows:

Alabama	\$1,073,685
Arizona	737,698
Arkansas	879,398
California	2,052,843
Colorado	920,452
Connecticut	318,057
Delaware	250,000
Florida	736,147
Georgia	1,287,986
Idaho	634,020
Illinois	2,020,185
Indiana	1,232,715
Iowa	1,275,186
Kansas	1,293,058
Kentucky	955,360
Louisiana	762,633
Maine	444,348
Maryland	415,242
Massachusetts	670,583
Michigan	1,556,139
Minnesota	1,380,023
Mississippi	919,522
Missouri	1,519,138
Montana	1,037,280
Nebraska	1,020,507
Nevada	654,359
New Hampshire	250,000
New Jersey	651,596
New Mexico	829,669
New York	2,469,884
North Carolina	1,235,019
North Dakota	765,365
Ohio	1,802,996
Oklahoma	1,162,017
Oregon	849,827
Pennsylvania	2,093,587
Rhode Island	250,000
South Carolina	693,473
South Dakota	804,186
Tennessee	1,086,546
Texas	3,252,287
Utah	576,142
Vermont	250,000
Virginia	936,400
Washington	807,890
West Virginia	563,183
Wisconsin	1,231,947
Wyoming	638,436
Hawaii	250,000
Dist. of Columbia	250,000
Puerto Rico	253,006
Total	\$50,000,000

#### **WASHINGTON**

##### **Seattle, Wash.**

**Plans Bond Redemption** — A bill has been introduced in the City Council authorizing the call for redemption on Oct. 1, 1943, of \$1,000,000 municipal light and power bonds, consisting of \$750,000 in series LR4 and \$250,000 series LT8, according to unofficial report.

##### **Washington (State of)**

**Cities Discover New Tax Field** — Washington cities will obtain an estimated \$1,444,000 in revenue during the next year from munic-

ipal admission taxes. These were levied earlier in the year after the State vacated the admission tax field in favor of the municipalities.

The estimate was made on the basis of 1942 admission taxes collected by the State, according to the American Municipal Association.

To tap this revenue source a municipality has to pass an ordinance requiring payment of admission taxes and setting the amount of the tax. The levy falls upon the person paying the admission charge.

Penalties for late payment or non-payment by the organization or business collecting the tax are increased taxes in most cases, since such action was found to be more successful than threats of prosecution against amusement operators when the State collected admission taxes.

According to estimates of ad-

missions tax returns, a city with a population of 20,000 or more will collect about 75 cents per capita. Cities with less than 20,000 population may expect to collect approximately 50 cents per capita. Local conditions, however, may change expectations. Several war "boom" cities are collecting exceptionally high yields.

Most of the Washington cities do not need the extra revenue for current purposes, but use it to build up reserve funds for post-war public works programs.

#### WYOMING

##### Sheridan, Wyo.

**Bond Sale Details**—In connection with the sale of the \$16,000 fire equipment bonds to the First National Bank of Sheridan, as 2s, at par—v. 158, p. 246—the City Clerk now reports that the bonds mature \$1,000 Aug. 1, 1953 to 1968. All or any part of said bonds may be redeemed, at the option of

the city, on any interest date after 10 years from date.

#### CANADIAN SECTION

##### Canada (Dominion of)

**Treasury Bills Sold**—An issue of \$55,000,000 Treasury bills was sold on July 28 at an average yield of 0.498%. Dated July 29, 1943 and due Oct. 29, 1943.

#### NEW BRUNSWICK

##### St. John, N. B.

**Bonds Sold**—It is stated that \$162,000 2½%, 3, 3½ and 3½% semi-ann. street improvement bonds were purchased recently by a syndicate composed by A. E. Ames & Co. of Toronto, the Royal Bank of Canada, of Montreal, and T. M. Bell & Co., of St. John, at a price of 100.63, a basis of about 3.28%. Due in 1944 to 1962.

#### ONTARIO

##### St. Catharines, Ont.

**Bonds Sold**—It is stated that

\$40,092 3% semi-ann. improvement bonds were purchased recently by Wood, Gundy & Co. of Toronto, at a price of 102.63, a basis of about 2.51%. Due in from one to 10 years after date of issue.

#### QUEBEC

##### Point Claire, Que.

**Bonds Sold**—An \$88,000 issue of 4% semi-ann. improvement bonds is said to have been purchased recently by L. B. Beaubien & Co. of Montreal, at a price of 101.07, a basis of about 3.87%. Due in 1944 to 1963.

##### St. Hyacinthe, Que.

**Bonds Sold**—The Montreal "Gazette" of July 22 carried the following report: A new issue of City of St. Hyacinthe 3½% debentures has been sold by tender to The Wood Gundy Corporation, Limited. The new issue, amounting to \$444,000, for local improvement purposes, carries interest at

3½% and matures from 1944-1962. The tender price was \$102.207 which is a 3.32% cost basis to the city. Five other tenders were received for the issue.

The City of St. Hyacinthe has long been regarded as one of the best municipal credits in the Province of Quebec, due to its strong financial position and good fiscal management. Located about 35 miles southeast of Montreal in a rich farming area, there are in the city a number of manufacturing industries, which make agricultural implements, pipe organs, textiles and leather goods.

Net debenture debt of the municipality is less than \$87 per capita, while in 1942 total tax collections amounted to 102.89% of current tax levy. The city has no bank loans, and reports a net profit from the operation of its waterworks and electric light utilities.

## Redemption Calls and Sinking Fund Notices

Below will be found a list of corporate bonds, notes, preferred and common stocks called for redemption, including those called under sinking fund provisions. The date indicates the redemption or last date for making tenders, and the page number gives the location in which the details were given in the "Chronicle."

## DIVIDENDS

Dividends are grouped in two separate tables. In the first we bring together all the dividends announced the current week. Then we follow with a second table in which we show the dividends previously announced, but which have not yet been paid. Further details and record of past dividend payments in many cases are given under the company name in our "General Corporation and Investment News Department" in the week when declared.

The dividends announced this week are:

Bank and Trust Companies			
Name of Company	Per share	When Payable	Holders of Rec.
Citizens National Trust & Savings Bank (Los Angeles) (increased)	50c	8-1	7-22
Citizens Natl. Bank (Collingswood, N. J.)—

### Amalgamated Leather Cos., Inc.—50-Cent Pref. Div.—

A dividend of 50 cents per share has been declared on account of accumulations on the 6% cumulative convertible preferred stock, par \$50, payable Aug. 12 to holders of record Aug. 3. Like amounts were disbursed on March 10, May 28 and June 28, last. In 1942 only one payment of 50 cents was made on April 1.—V. 157, p. 1937.

### American Airlines, Inc.—Mr. Damon to Resume Vice-Presidency—

Ralph S. Damon, who has resigned as President of Republic Aviation Corp., will return to American Airlines as Vice-President and General Manager. He had been with Republic since May 1941, on "loan," at which time he was Vice-President of American Airlines in charge of operations.

### Express rises 105% in First Half of Year—

The corporation in the first six months of 1943 carried 9,307,080 pounds of air express compared to 4,525,354 in the corresponding six months of 1942, an increase of 105.6%. Pound miles flown rose to the astronomical figure of 4,470,538,000, an increase of 97.4% over the same period last year, according to Charles A. Rheinstrom, Vice-President in charge of traffic.

Air mail also has risen, with American carrying 11,473,578 pounds in the first six months of 1943, compared to 6,061,570 in the corresponding period of 1942. This is an increase of 89.2%.—V. 157, p. 2208.

### American Barge Line Co. (& Subs.)—Earnings—

6 Months Ended June 30—	1943	1942	1941
Net profit before taxes and reserve	\$1,446,703	\$954,478	\$682,458
Provision for Federal income and excess profits taxes	972,700	602,400	317,700
Reserve for contingencies	184,000	—	—
Net profit	\$290,003	\$352,078	\$364,758
Earnings per common share	\$0.97	\$1.17	\$1.22

\*On 300,000 shares of common stock outstanding.  
J. Sterling Davis, Treasurer, pointed out that the above figures for 1942 do not reflect the results of renegotiation of Government contracts.—V. 158, p. 155.

### American Home Products Corp.—Semi-Annual Report

Alvin G. Brush, Chairman, announced on July 23, 1943, following the monthly meeting of the board of directors, that sales of the corporation had increased 39% in the first six months of 1943, profits before taxes were 53% higher and net earnings after taxes showed a gain of 9%. Directors declared the regular monthly dividend of 20 cents per share, payable Sept. 1 to stockholders of record Aug. 14.

"The increases in sales and earnings were achieved in spite of some reduction in export and foreign business and restrictions under rationing of raw materials and containers," Mr. Brush stated, in commenting on the mid-year figures.

"The increase in sales was due to three factors: a substantial rise in the Corporation's normal civilian business, increased deliveries on government contract and increased output of important new subsidiaries acquired within the past year.

"Although American Home Products has further increased its production of vitally-needed medical supplies for the armed forces, ap-

proximately 60% of the net increase in sales during the past six months reflected gains in the corporation's normal lines of business other than deliveries on government contracts. Exclusive of government business, net sales of the corporation were 22.8% higher than in the comparable period of last year.

"The overall sales increase was heightened by increased volume of pharmaceutical sales by John Wyeth & Brother, Inc. and Ayerst, McKenna & Harrison, the latter a new acquisition which is now registering the highest sales volume in its history. Sales of S. M. A. Corp., Harold H. Clapp, Inc., The Anacin Co., The A. S. Boyle Co. and the corporation's principal subsidiary in the cosmetic field, Affiliated Products, Inc., have also scored substantial gains during the past six months."

### Consolidated Income Statement for 6 Months Ended June 30

	1943	1942
*Profit before prov. for inc. & exc. profits taxes	\$7,174,258	\$4,667,659
Prov. for foreign inc. & exc. profits taxes & Fed. inc., surtax & exc. profits taxes (estim.)	14,953,460	2,631,182
Consolidated net earnings	\$2,220,798	\$2,036,477
Aver. number of shares of cap. stock outstanding	903,157	852,300
Earnings per share	\$2.46	\$2.39

\*After deducting depreciation, interest and other charges. †Estimated in accordance with the provision of the Revenue Act of 1942

### Acquisition—

The New York Stock Exchange has authorized the listing of 6,000 additional shares of stock (par \$1) upon official notice of issuance in connection with the acquisition of the outstanding capital stock of Belle Center Creamery & Cheese Co. and O. M. S. Corp., both Ohio corporations, making the total number of shares of stock applied for, 948,470.—V. 158, p. 355.

### American Hair & Felt Co.—Earnings—

Quarter Ended March 31—	1943	1942
Net income after all charges	\$191,164	\$210,570
Earnings per common share	\$0.83	\$0.97

—V. 157, p. 861.

### American Locomotive Co.—Recapitalization Planned—To Clean Up Dividend Arrears—To Merge Subsidiaries—

A special meeting of stockholders will be held on Sept. 2 to consider a capital readjustment program designed to clear up dividend accumulations amounting to \$15,046,332 on the 7% preferred stock.

It is proposed to offer for each present preferred share, on which arrears now total \$42.75 a share, one share of new \$100 par 7% cumulative preferred stock, 1 1/4 shares of new common stock, and \$7 in cash. Holders of the present common stock would receive a like number of shares of new common stock.

The stockholders first will consider a proposed consolidation and merger of American Locomotive Sales Corp., New York, and Trans-American Construction Co., Delaware (all the shares of both companies being owned by American Locomotive Co.), with and into the parent company. This consolidation, it is explained, is not designed to effect any change in the character of the business or in the official personnel of the corporation, except that the businesses heretofore conducted by the subsidiaries shall be continued by the corporation.

Upon consummation of the merger the continuing corporation will have authorized (a) 351,961 shares of new 7% preferred stock, entitled to \$115 a share and accrued dividends upon voluntary liquidation, which is also the redemption price, and to \$100 a share preference in involuntary liquidation; and (b) 1,383,832 shares of no-par common stock, with a stated value of \$1 per share.

All such authorized stock will be outstanding if all outstanding shares of present preferred and common stock are exchanged under the plan. This would involve also the payment of a total of \$2,463,727 in cash. Shares of the company at present held in its treasury would be retired and canceled.

W. C. Dickerman, Chairman of the company, says in his letter to stockholders that when the consolidation is effective it will be possible, in view of the elimination of the accrued and unpaid dividends on the present preferred stock, to pay dividends on the common stock, adding that it is hoped that it will be possible to resume in the reasonably near future dividends on such stock.

Estimated gross sales for the first half of 1943 were \$230,000,000, and net profit before provision for possible results of war contract renegotiation is estimated at \$4,300,000, allowing for post-war credits and providing for post-war contingencies in identical amounts. This compares with a net profit of \$2,551,732 for the first half of 1942.

Dividends on the new preferred stock will be cumulative from July 1. The corporation is to set aside \$350,000 on May 1, 1944, as a sinking fund for retirement of the new preferred stock, and on May 1 each year thereafter it will set aside an amount equal to 25% of consolidated net profit of the preceding year in excess of the amount required for payment of full preferred dividends for that year.

The company will not be required to set aside any amount for the sinking fund in any year if, after such amount shall have been so set aside, the consolidated net current assets would be less than \$16,000,000, or after the par amount of the new preferred stock outstanding has been reduced from \$35,196,100 to \$20,000,000.

Stockholders of record July 26 will be entitled to vote on the proposals at the special meeting on Sept. 2, 1943, according to the proxy statement. This meeting originally had been set for Aug. 25 at which stockholders of record July 16 were to act, according to a notice issued about three weeks ago by the New York Stock Exchange.—V. 158, p. 251.

### American Rolling Mill Co.—Earnings—

6 Months Ended June 30—	1943	1942	1941
Earnings after all charges but before taxes and reserve	\$11,948,720	\$10,465,782	\$11,570,297
Fed. inc. and excess profits taxes	8,219,023	7,131,460	4,902,320
Reserve for contingencies	500,000	—	—
Net profit	\$3,229,697	\$3,334,322	\$6,667,977
Earnings per share	\$0.77	\$0.81	\$1.97

\*On 2,868,686 common shares.—V. 158, p. 252.

### American Steel Foundries—Earnings—

9 Months Ended June 30—	1943	1942
*Net profit before Federal taxes	\$14,975,999	\$17,077,237
Federal income and excess profits taxes	12,499,200	14,348,800
Net profit	\$2,476,799	\$2,728,437
Earnings per common share	\$2.09	\$2.30

\*After depreciation, amortization of emergency facilities, reserve for renegotiation of contracts, after post-war credit, etc.—V. 157, p. 2209.

### American Water Works & Electric Co., Inc.—Output—

Output of electric energy of the electric properties of this company for the week ended July 24, 1943, totaled 80,103,000 kwh., an increase of 13.01% over the output of 70,876,000 kwh. for the corresponding week of 1942.

Comparative table of weekly output of electric energy for the last five years follows:

# Bond Record «» New York Stock Exchange

## FRIDAY - WEEKLY - YEARLY

NOTICE—Prices are "and interest"—except for income and defaulted bonds. Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when outside of the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year. The italic letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

# NEW YORK CURB EXCHANGE

## WEEKLY AND YEARLY RECORD

NOTICE—Cash and deferred delivery sales are disregarded in the week's range unless they are the only transactions of the week, and when selling outside the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

In the following extensive list we furnish a complete record of the transactions on the New York Curb Exchange for the week beginning on Saturday, July 24 and ending the present Friday (July 30, 1943). It is compiled entirely from the daily reports of the Curb Exchange itself, and is intended to include every security, whether stock or bond, in which any dealings have occurred during the current year.

# THE COURSE OF BANK CLEARINGS

Bank clearings this week show an increase compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country indicate that for the week ended Saturday, July 31, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 23.7% above those for the corresponding week last year. Our preliminary total stands at \$8,611,482,851, against \$6,960,470,224 for the same week in 1942. At this center there is a gain for the week ended Friday of 31.6%. Our comparative summary for the week follows:

Clearings—Returns by Telegraph Week Ending July 31	1943	1942	%
New York	\$3,692,179,027	\$2,805,981,932	+ 31.6
Chicago	354,194,833	299,817,473	+ 18.1
Philadelphia	501,000,000	431,000,000	+ 16.2
Boston	270,708,983	236,210,890	+ 14.6
Kansas City	175,851,257	131,765,332	+ 33.5
St. Louis	131,300,000	110,000,000	+ 19.4
San Francisco	213,866,000	178,166,000	+ 20.0
Pittsburgh	185,010,311	175,812,377	+ 5.2
Cleveland	168,852,399	142,139,514	+ 18.8
Baltimore	115,032,179	93,195,381	+ 23.4
Ten cities, five days	5,808,004,983	4,595,922,899	+ 26.4
Other cities, five days	1,368,230,720	1,118,541,080	+ 22.3
Total all cities, five days	7,176,235,703	5,714,463,979	+ 25.6
All cities, one day	1,435,247,142	1,246,006,245	+ 15.2
Total all cities for week	8,611,482,851	6,960,470,224	+ 23.7

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below we are able to give the final and complete results for the week previous—the week ended July 24. For that week there was an increase of 24.3%, the aggregate of clearings for the whole country having amounted to \$8,480,244,779, against \$6,821,250,198 in the same week in 1942. Outside of this city there was an increase of 21.2%, the bank clearings at this center having recorded a gain of 27.6%. We group the cities according to the Federal Reserve Districts in which they are located and from this it appears that in the New York District (including this city) the totals show a gain of 27.5% in the Boston Reserve District of 10.9% and in the Philadelphia Reserve District of 17.8%. In the Cleveland and Richmond Reserve District there is an increase of 17.2% and in the Atlanta Reserve District of 24.4%. The Chicago Reserve District has enlarged its totals by 24.4%, the St. Louis Reserve District by 24.5%, and the Minneapolis Reserve District by 28.3%. In the Kansas City Reserve District the increase is 39.0%, in the Dallas Reserve District 52.5% and in the San Francisco Reserve District 13.6%.

In the following we furnish a summary by Federal Reserve Districts:

SUMMARY OF BANK CLEARINGS							
Week Ended July 24			1943	1942	Inc. or Dec. %	1941	1940

**Atlantic Refining Co.—To Pay Larger Dividend—**

The directors have declared a dividend of 25 cents per share on the common stock, payable Sept. 15 to holders of record Aug. 20. Distributions of 15 cents each were made on March 15 and June 15, last. Payments in 1942 were as follows: March 15, 25 cents; and June 15, Sept. 15 and Dec. 15, 15 cents each.—V. 157, p. 2143.

**(The) Aviation Corp.—Division's Output Up 25%—**

Production for the first half of the 1943 fiscal year by the two Detroit plants of Republic Aircraft Products Division of The Aviation Corp. showed an increase of more than 25% over the production for the last half of 1942 and was almost double the output in the first half of last year. It was announced on July 27 by William F. Wise, Executive Vice-President of Detroit.

Republic's backlog of unfilled orders as of June 30 was three times the backlog a year ago this time, Mr. Wise stated.

**Official Transferred—**

William B. Griese, formerly Plant Manager of the corporation's Liquid Cooled Engine Division, Toledo, Ohio, has been transferred to Plant Manager of its Spencer Heater Division at Williamsport, Pa., it was announced on July 29 by William F. Wise, Executive Vice-President.—V. 158, p. 82.

**Baker Hotel of Dallas Inc.—Bonds Placed Privately—**  
Dallas Rupe & Son have placed privately an issue of \$1,925,000 1st mtge. 4% bonds, dated Aug. 1, 1943, due serially each Aug. 1 (variable because of sinking fund provisions relating to income) to Aug. 1, 1963. Proceeds of the issue will be used to retire \$1,925,000 1st mtge. 5s called for payment Aug. 1, 1943, at par and interest at office of First National Bank, Dallas, Texas.—V. 158, p. 252.

**Bethlehem Steel Corp.—Report for Second Quarter—**

The report of the results of the businesses and operations of the corporation and its subsidiary companies for the second quarter of 1943, compares with the first quarter of 1943 and the second quarter of 1942 as follows:

	2nd Quarter 1943	1st Quarter 1943	2nd Quarter 1942
Net billings	490,414,380	432,715,168	360,118,243
Total income before charges	50,893,250	45,470,223	41,565,898
Interest and other charges	1,633,000	1,304,706	1,384,753
*Provision for depletion and depreciation (incl. amortization)	9,916,040	9,056,824	8,900,232
Prov. for taxes based on income	32,730,000	28,860,000	25,210,000
Net income for the period	6,614,210	6,228,693	6,070,913
Earnings per common share	\$1.67	\$1.54	\$1.49

\*Other than depreciation on certain equipment provided for through charge to operating expense.

**E. G. Grace, President, stated:**

"Steel production (ingots and castings) averaged approximately 98.7% of capacity during the second quarter of 1943 as compared with 99.1% during the first quarter of 1943 and 98.9% during the second quarter of 1942. Current steel production is approximately 101% of capacity."

Net billings of the Corporation this year will be in excess of \$2,000,000,000, in the opinion of Eugene G. Grace, president. The total for the first six months of 1943 was \$937,129,548, compared with \$665,771,561 in the corresponding period of 1942. Billings for 1942 totaled \$1,511,672,299.

Mr. Grace stated that much would depend upon the manpower situation and the matter of work stoppages. In this connection he pointed out that there had been a number of "spot strikes" in Bethlehem plants in the second quarter which he described as "intolerable and totally unnecessary," adding:

"We have contracts in all our steel plants and most of our shipyards which carry a no strike clause, and make complete and adequate provisions to handle all grievances. All we ask is that the other party live up to these contracts, and there will not be any work stoppages."

It was disclosed Bethlehem was proceeding with plans for the construction of eight 25,000-ton ore carriers to bring up ore from Chile and Venezuela when the war ends. Mr. Grace expressed the opinion ore would be available from Venezuela either late in 1944 or early in 1945 if other conditions were satisfactory.

He pointed out that originally Bethlehem had eight ore carriers of 20,000 tons each. Five of these have been lost and the government has taken over the three remaining. The old ships made 11 to 12 knots

per hour, whereas the new boats will go at 15 to 16 knots. All in all the construction of the new vessels will make for greater efficiency and also result in lower costs.

Discussing the shipbuilding activities of the Corporation Mr. Grace said that the program was on schedule and he could see no obstacle to the achievement of the objective of a ship a day this year, except if there are work stoppages. He disclosed that Bethlehem delivered more ships in the first half of the year than in all of 1942.

Mr. Grace pointed out that in the second quarter the earnings were equivalent to 1.35% of net billings and 5.05% on the investment in the Corporation. For the three months ended June 30, 1942, the earnings equaled 1.69% on billings and 4.45% on investments.

During the second quarter Bethlehem expended approximately \$4,616,000 for construction of plant additions for its own account, and while no figures for the unexpended balance was given, Mr. Grace estimated that between \$8,000,000 and \$9,000,000 would be spent during the last half of this year.

Bethlehem's payroll, number of workers and average hourly pay reached new highs in the second quarter. Payroll amounted to \$220,546,000 and went to 291,488 persons who received an average of \$1.288 per hour. In the first quarter the payroll totaled \$199,042,000, there were 275,569 workers, and the average hourly rate was \$1.279.

Separating the mining branch from the others in his payroll discussion, Mr. Grace said that the Corporation had 6,700 men in its captive mines, who averaged \$1.365 per hour, compared with \$1.053 in January, 1941, or an increase since the Little Steel formula of 29.6%. He added that weekly earnings of the miners were up 34.6%, and they worked only 34.6 hours per week, although the schedule called for 42 hours.

In June Bethlehem had a total of 294,000 employees, and the president stated that about 15,000 additional were needed, primarily in the shipyards and repair yards. He admitted that there had been some difficulty in securing men and described the manpower situation all around as tight.—V. 157, p. 2037.

**Blaw-Knox Co. (& Subs.)—Earnings—**

6 Months Ended June 30—	1943	1942	1941
*Net profit	\$780,728	\$585,434	\$1,220,496
Earnings per common share	\$0.59	\$0.44	\$0.91

\*After all charges including depreciation, interest, bond discount, provision for war and post-war adjustments, and State and Federal taxes, including excess profits tax.

Note—Provision for Pennsylvania State income and Federal income and excess profits taxes for the six months ended June 30, 1943, totaled \$4,741,002 as compared with \$4,418,050 for the first half of 1942.

W. P. Witherow, President, in a letter to stockholders stated in part: "During the first half of the year all of the outstanding first mortgage bonds of the company were called for redemption."

"There have been substantial price reductions on certain products and some quantity reductions in others. However, overall output has continually increased."

"Plans for the post-war period are receiving careful attention. The company plans to diversify its activities and products so as to provide the maximum number of jobs after the war."

**(S. F.) Bowser & Co., Inc., Fort Wayne, Ind.—Makes Offer for Control of Eagle Lock Co.—**

It was announced on July 23 that the Bowser company has made an offer of exchange for the stock of the Eagle Lock Co., Terryville, Conn., and that stockholders of the latter company will meet in the near future to consider the proposal. The transaction, it is estimated, will involve approximately \$2,500,000.

Under the offer, \$25 par value of 20-year 5% debentures and one-half share of common stock of Bowser will be issued in exchange for each share of capital stock of Eagle Lock held. As of Dec. 31, 1942, the Eagle Lock Co. had outstanding 78,266 shares of \$25 par value capital stock.

Under the offer, \$250,000 of new money will be expended immediately for improvement of the Eagle plants and an increase in production schedules is pledged. The offer also undertakes to continue the industry in Connecticut.

The Bowser corporation is a manufacturer and patentee of meter and computing pumps, meters, tanks, oil and beverage filters and other products.—V. 157, p. 2445.

**Canadian Vickers, Ltd.—Aug. 1, 1940, Coupon Payable**

It was announced on July 21 that the company would make payment on Aug. 1, 1943, of the semi-annual interest instalment which

became due on the 1st mtg. 20-year 6% sinking fund gold bonds, series A, on Aug. 1, 1940, with interest thereon at the rate of 6% per annum from the said last mentioned original due date.

It was also announced that at the same time the company would make payment of the semi-annual interest instalment due on the above-mentioned bonds on Aug. 1, 1943.

Such payments are being made upon presentation and surrender for cancellation of the respective coupons relating to the particular semi-annual interest instalments aforesaid, at the Bank of Montreal in Montreal or Toronto, Canada, or at the agency of the Bank of Montreal in New York, N. Y., or at the office or agency of the Bank of Montreal in London, England.—V. 158, p. 385.

**Celotex Corp.—Debentures Offered—**A banking group headed by Paul H. Davis & Co. of Chicago made public offering July 26 of \$3,000,000 12-year 3½% debentures at 100½ and accrued int. Other underwriters include A. G. Becker & Co., Inc., Central Republic Co., Inc., Hornblower & Weeks, Laurence M. Marks & Co., The Milwaukee Co., F. S. Moseley & Co., Paine, Webber, Jackson & Curtis and Keillon, McCormick & Co.

Dated July 1, 1943; due July 1, 1955. Redeemable to and including June 30, 1944, at 103½; thereafter, to and including June 30, 1945, at 103; thereafter, to and including June 30, 1946, at 102½; thereafter, to and including June 30, 1947, at 102; thereafter, to and including June 30, 1948, at 101½; thereafter, to and including June 30, 1949, at 101; thereafter, to and including June 30, 1950, at 100¾; thereafter, to and including June 30, 1954, at 100½; and thereafter at 100; in each case plus accrued interest.

**Sinking Fund—**Annually an amount equal to 15% of the net earnings, applicable to the payment of dividends on the capital stock, but not to exceed \$200,000. If 15% of such net earnings amount to less than \$125,000, then, unless amounts paid into the sinking fund for all preceding fiscal years together with the amount then payable shall at least average \$125,000 for each year, the company shall pay a sum at least equal to such deficiency. Sinking fund redemption price to and including June 30, 1946, is 102½, plus interest, and thereafter is the redemption price otherwise applicable as set forth above.

**Purpose—**The net proceeds after deducting estimated expenses, will amount to approximately \$2,878,597. Net proceeds, together with other funds (estimated at \$195,000 including \$31,415 for redemption premium but excluding accrued interest) of the company, will be placed in trust, concurrently with the delivery by the company of the debentures now offered, for the purpose of redeeming the outstanding 10-year 4½% debentures, due Feb. 1, 1947. As of July 13, 1943, such debentures to be redeemed were outstanding in the principal amount of \$3,141,500 and there was \$101,189 in cash in the sinking fund for the retirement of such debentures.

Capitalization	Authorized	Outstanding
12-yr. 3½% debentures, due July 1, '55	\$3,000,000	—
15% cumulative pfd. stock (par \$20)	500,000 shs.	148,862½ shs.
Common stk. (no par)	1,500,000 shs.	638,410 shs.

\*The debentures are the securities now offered. †By amendment to the certificate of incorporation, effective July 12, 1943, each share of 5% cumulative preferred stock (par \$100) became five shares of 5% cumulative preferred stock (par \$20), which increased the amount authorized from 100,000 shares to 500,000 shares and the amount outstanding from 29,772½ shares to 148,862½ shares. The amount outstanding includes 710 shares issuable upon surrender of securities of predecessor company and 155 7/10 shares no longer issuable in respect of scrip certificates which have become void. ‡On July 9, 1943, the company offered for sale 63,841 shares of common stock at \$10.50 per share to employees of the company and others. Such persons had by July 20, 1943 subscribed for or expressed an intention to subscribe for approximately 35,000 of such shares, but no such shares have as yet been issued. The amount outstanding included 2,279 shares issuable upon surrender of securities of predecessor company and 126 2/3 shares no longer issuable in respect of scrip certificates which have become void.

On June 18, 1943, the common stockholders of the company approved the issuance and sale of the 63,841 shares of common stock mentioned above, and not exceeding 70,226 shares of common stock to the common stockholders of the company at \$10.50 per share on the basis of one new share for each ten shares held. No action has yet been taken by the board of directors of the company to authorize the making of any offering to the common stockholders. It is contemplated that, within a reasonable time after the issuance of the debentures now offered, such offering will be authorized and made to the common stockholders.

**Sales and Earnings for Stated Periods**

\*The amounts of Federal excess profits tax for the year 1942 and for the five months ended March 31, 1943, are after deducting post-war refunds of \$30,000 and \$111,069, respectively.

**Business—**Company was incorporated in Delaware June 29, 1935, and company is engaged in the building material business. The principal products which it sells consist of rigid insulation, acoustical, gypsum, roofing and hardboard products.

The rigid insulation products are manufactured at the company's plant at Marrero, La., principally from bagasse, the fibre remaining after the juice has been extracted from sugar cane, and are used for exterior sheathing, plaster base, exterior and interior finish, roof insulation, for insulating refrigerating equipment and for various other building and insulating purposes.

Rigid or structural insulation is also utilized by the company in the manufacture of various building materials such as vapor-seal sheathing and asphalted sheathing, the surfaces of which are coated or impregnated with asphalt. Another such product is Cemesto, manufactured at its plant at Metuchen, N. J., a cane fibre insulation product with asbestos-cement board covering, used for the wall sections in house and other types of construction and providing complete exterior and interior surfaces.

The acoustical products, most of which are manufactured by the company, consists of perforated cane and mineral fibre tile and expanded gypsum tile.

The gypsum products consist of plaster, wallboard, sheathing, lath and liner board, interior and exterior wall units and roof deck slabs. Company mines gypsum rock and manufactures gypsum products at its plant near Port Clinton, Ohio. In addition the company sells gypsum products which are manufactured in the plants of Certain-teed Products Corp., and with respect to the gypsum board products, it acts as selling agent of Certain-teed Products Corp.

The roofing products consist of asphalt felt shingles, sidings, roll roofing and allied products. A new roofing product was recently introduced as Celotex-Roof which is a cane fibre product combining roofing, insulation and structural functions. Celotex-Roof is manufactured in the company's plants, the remaining roofing products being manufactured in the plants of Certain-teed Products Corp.

The hardboard products are made of wood fibre, fabricated into

sheets, and are used for paneling, partitions, shelving and for other purposes. Company is a selling agent for these products.

The company also manufactures and sells impregnated roof deck promenade surfacing and a cane fibre product for meeting needs of expansion joints in concrete construction. Company sells various forms of rock wool insulation, a portion of which it manufactures in its plant near Lagro, Ind. It also sells an expanded aggregate, processed from slag, for use principally in the preparation of light-weight load-bearing concrete. A subsidiary of the company owns a patent and issues licenses for this type of concrete. Company also mines gypsum rock near Falfurrias, Texas, all of which is sold as raw material for manufacture of cement.

Celotex Limited, whose plant is located near London, manufactures and sells principally rigid insulation and hardboard products.

**Underwriters—**The names of the several underwriters, and the principal amount of such debentures which each has agreed to purchase from the company are as follows:

Paul H. Davis & Co.	\$400,000

## Chicago Mill &amp; Lumber Co.—Earnings—

Earnings before provision for Federal taxes	\$1,011,383
Provision for Federal income and excess profits taxes	*654,365
Net profit	\$357,018
Earnings per common share	\$1.52

\*Estimated at 64.7%.

Net profit for the quarter ended June 30, 1943, amounted to \$454,560.

Notes—(1) In estimating provision for income and excess profits taxes the company used the same percentage figure (64.7%) as in the report to stockholders for the year 1942, which we considered ample to cover tax liability. The Revenue Act of 1942 was passed very late in the year and at the years' close regulations covering some important factors had not been issued by the Treasury and indeed have not been issued as this is written. Our Federal taxes for the years 1939 to 1942, inclusive, are now being audited by the

Bureau of Internal Revenue, and we expect to know the Bureau's view in the near future.

(2) Renegotiation of profits for the year 1942 is now in progress.—V. 157, p. 1176.

## Commonwealth Edison Co.—New Vice-President—

William T. Reace has been elected a Vice-President to succeed Gaylord A. Freeman, Vice-President in charge of sales, who retired as of Aug. 1.—V. 158, p. 84.

## Commonwealth &amp; Southern Corp.—Weekly Output—

The weekly kilowatt hour output of electric energy of subsidiaries of this corporation adjusted to show general business conditions of territory served for the week ended July 22, 1943, amounted to 238,040,004 as compared with 208,186,724 for the corresponding week in 1942, an increase of 29,853,280 or 14.34%.

## Preferred Dividend Payable Out of Capital—

A letter to preferred stockholders, dated July 22, accompanying the check for dividend of \$3 per share on the preferred stock, \$6 series, to holders of record July 8, says:

"The net income of the corporation for the period Jan. 1, 1942, to April 30, 1943, after deduction of the preferred dividend of 75 cents per share paid April 1, 1942, was \$4,463,289. The total of the \$3 dividend declared on the preferred stock is \$4,446,000. Before declaring the above dividends the corporation was advised that under the laws of the State of Delaware dividends could legally be declared on the preferred stock of the corporation to the extent of such net income although the corporation recognized that, under the plan now pending before the Commission for a change of its capital stock to one class of stock, there will be a restatement of the carrying value of the assets of the corporation which will result in a decrease in such carrying value by an amount not less than \$5,717,379 (i.e., the earned surplus of the corporation as of April 30, 1943), plus such earnings as may accrue during the remainder of the year. Because of

**Consolidated Cigar Corp.—Trustee, etc.—**

The Manufacturers Trust Co. has been named trustee for the 10-year 3½% sinking fund debenture issue due July 1, 1953, in the amount of \$7,000,000.

The Manufacturers Trust Co. has also been appointed redemption agent for the 7% cumulative preferred stock.—V. 158, p. 387.

**Conde Nast Publications, Inc.—Earnings—**

(And Domestic Subsidiaries)

6 Months Ended June 30—	1943	1942

Prov. for Fed. income and excess profits taxes	448,075	52,000
Net profit	\$308,557	\$71,412
Earnings per common share	\$0.95	\$0.22
*Loss—V. 157, p. 2146.		

**Container Corp. of America (& Subs.)—Earnings—**

Period End. June 30—	1943—3 Mos.—1942	1943—6 Mos.—1942
Net profit before Fed. income taxes	\$2,256,096	\$1,782,585
*Provision for Federal income taxes	1,638,633	1,259,394
War & post-war reserve	161,603	252,557
Net profit	\$455,860	\$272,634
Earnings per com. share	\$0.58	\$0.67

\*Provision for Federal income taxes is net after deducting post-war excess profits tax refund amounting to \$161,603 for the three-month period of 1943 and \$252,557 for the six-month period of 1943. For the same periods in 1942 the deductions were \$119,933 and \$326,323, respectively. All provisions are based on the Revenue Act of 1942.

Notes—(1) It should be noted that a war and post-war reserve has been set up for any contingencies that may arise in the war and post-war periods. In the previous press release made for the first quarter of 1943, this reserve did not appear, and a retroactive reserve of \$90,953 has been provided, which reduces first quarter earnings to \$0.48 per share from \$0.60 per share previously reported.

(2) Net sales for the six-month period ended June 30, 1943, were \$28,062,000, compared with \$27,474,000 for the corresponding six-month period in 1942, an increase of about 2%.—V. 158, p. 85.

**Continental Can Co., Inc.—Earnings—**

(Including Wholly Owned Subsidiaries)

12 Mos. Ended June 30—	1943	1942	1941
*Profit	\$14,798,017	\$14,891,919	\$16,997,088

**Cornell-Dubilier Electric Corp.—Listing—**

The New York Stock Exchange has authorized the listing of 402,497 shares of common stock (\$1 par) which are issued and outstanding, and of 24,022 additional shares upon conversion of 10-year 4½% convertible sinking fund debentures due Jan. 1, 1952, making the total amount of common stock applied for 426,519 shares.

**Renegotiation of War Contracts, Etc.—**

Octave Blake, President, in a letter to stockholders July 23 states: Company has been engaged in negotiations with various agencies of the U. S. Government relative to matters which affect the earnings of the company. This interim letter is intended to inform you prior to the usual annual report, of the progress of these negotiations to date and to report on certain other matters of general interest to stockholders.

The company officials have reached a tentative agreement with representatives of the Price Adjustment Board of the War Department as to the amount payable to the U. S. Government under the Acts relating to renegotiation of war contracts. If this tentative agreement is approved by the Secretary of War it will have the effect of reducing by \$73,103 the net profit shown in the audited financial statements for the year ended Sept. 30, 1942, i. e., from \$859,225 to \$786,122. This latter figure also reflects the effect on earnings of a directive order of the War Labor Board requiring the company to pay \$45,103 back wages. Inasmuch as the audited financial statements for the year ended Sept. 30, 1942, provided for a reserve of \$113,000 for possible liability for such back wages, it will be seen that \$67,897 of such reserve will be saved.

As a result of an audit of Federal income and excess profits tax returns for years prior to the year ended Sept. 30, 1942, the U. S. Treasury has asserted additional taxes of \$4,416 against the company. No provision for such additional taxes was heretofore made in the company's financial statements.

The Board of Governors of the New York Stock Exchange has authorized the listing of the company's common stock. The stock will therefore be traded in on the New York Stock Exchange as soon as the necessary action by the Securities and Exchange Commission for registration under the Securities Exchange Act of 1934 has become effective.

Sales of the company are continuing at a considerably increased rate for the past quarter.—V. 157, p. 1647.

**Crowley, Milner & Co.—Stop Order Proceedings—**

The Securities and Exchange Commission July 22 announced the institution of proceedings against two registration statements filed by company under the Securities Act of 1933, to determine whether stop orders should issue against the statements. The hearing is scheduled for Aug. 2.

The registration statements relate to the proposed offering of certificates of deposit for \$996,500 5½% sinking fund debentures,

due 1946 (File No. 2-5175) and to the proposed offering of \$996,500 5½% sinking fund debentures, extended to 1952, and \$1,245,600 4% debentures due 1962 (File No. 2-5176).

The text of the orders for hearing, which are identical except for the docket numbers assigned thereto, reads as follows:

The Commission having reasonable cause to believe that the registration statement filed by Crowley, Milner & Co. under the Securities Act of 1933, as amended, includes untrue statements of material facts and omits to state material facts required to be stated therein and material facts necessary to make the statements therein not misleading.

It is ordered that a hearing be held in this matter on Aug. 2 and to continue thereafter at such time and place as the officer designated may determine.—V. 158, p. 289.

**Crucible Steel Co. of America (& Subs.)—Earnings—**

Period End. June 30—	1943—3 Mos.—1942	1943—6 Mos.—1942

**Detroit Edison Co.—Petition by City for Lower Rates Dismissed—**

The Michigan Public Service Commission has dismissed the petition of the City of Detroit filed in October, 1942, to have this company reduce residential and commercial electricity rates by 25% annually and refund to customers \$8,000,000 of 1942 earnings, rather than pay the latter sum in excess profits taxes.

The interesting aspect of the Commission's announcement is its statement on whether excess profits taxes are a valid charge against operating returns in determining the rates which the company should charge for electricity service.

In its reply brief to the regulatory agency the City recognized the fact during the past 20 years all normal income taxes and surtaxes have been accepted generally, and had been recognized by the Courts, as being properly included as an operating expense in making up rate schedules. In its rate reduction petition, however, the City raised the question as to "what constitutes a proper and just proportion of taxes imposed by the 77th Congress which should be included as operating expenses for rate-making purposes."

The Commission, in its decision, set forth that the City's statements "postulate a power in this Commission to proportion taxes which it does not possess."

"Under the Federal income tax law, any industry can avoid taxes by making less money. However, a free exercise of this alternative would unquestionably lessen industrial activity. In order to avoid any part of the income tax, it is necessary for the revenue producer to give up part of its income."

"Under the laws of the State of Michigan, a regulated utility is entitled to earn a fair return upon the present value of the property devoted by it to public service. Money that has been lawfully spent in rendering service constitutes no part of such a return. The dollar paid out for taxes is no more available as income and return than a dollar spent for labor or any other legitimate expense."

"We have repeatedly stressed the fact that we are a statutory body and possess only the powers conferred upon us by statute. We know of no statute giving us the power to forbid a company the right to charge as an operating expense any tax lawfully incurred by it. Likewise we know of no statute giving us the power to forbid such a company the right to so charge any part of the tax so incurred to operating expenses."

Surplus at June 30—\$323,712,944—\$290,383,527

\*In accordance with a practice followed since 1925, the amount at which du Pont Company's Investment in General Motors Corp. common stock is carried was adjusted on the books of the company in March, 1942 to \$216,000,000 (\$21.60 a share) and in March, 1943 to \$231,500,000 (\$23.15 a share), which closely corresponded to the equity indicated by the consolidated balance sheets of General Motors Corp. at Dec. 31, 1941 and Dec. 31, 1942, respectively. The net amount so added to surplus from 1925 to 1943, inclusive, is \$173,878,242. Also, there was added to surplus in prior years \$4,364,113 as a result of revaluing a Canadian investment carried in "Other Securities and Investments."

**Consolidated Balance Sheet, June 30**

(Including Wholly-Owned Subsidiary Companies)

	1943	1942

**International Utilities Corp. — Offers To Purchase \$600,000 Dominion Gas and Electric Co. Collateral Trust Bonds—**

Corporation has filed with the Securities and Exchange Commission a plan for its recapitalization and merger with Dominion Gas and Electric Co., its subsidiary. If the plan should be consummated in the manner now proposed, the presently outstanding collateral trust bonds, 6½% series, due July 1, 1945 of Dominion Gas and Electric Co. will be called for redemption.

Dominion Gas and Electric Co. has outstanding \$3,846,500 of such bonds of which \$1,232,500 are held by International.

This corporation offers to purchase up to but not exceeding \$600,000 of such bonds from holders thereof at 101 and interest to date of delivery, with Jan. 1, 1944 and subsequent coupons attached. Payment for bonds accepted under this offer will be made in New York funds. The price aforementioned is in an amount equal to the redemption price of said bonds subsequent to July 1, 1943 and prior to July 1, 1944. Bondholders desiring to tender their bonds are asked to sign and mail letter of tender to International Utilities Corp. Tenders will be accepted, in order of their receipt, until the tender of an aggregate of \$600,000 of bonds shall have been accepted, provided, however, that this offer shall expire on Dec. 15, 1943 or on the date when Dominion Gas and Electric Co. shall call bonds for redemption, whichever is earlier.—V. 158, p. 393.

**Interstate Power Co.—Sale of Subsidiary—**

The SEC on July 24 issued an order permitting to become effective declaration filed relating to the proposed sale by Interstate Power Co. (Del.) of all its investments and open account in its wholly-owned subsidiary, Interstate Power Co. of North Dakota, to Otter Tail Power Co., a nonaffiliated public utility company for \$125,000 cash; such investments and open account consisting of (a) \$75,000 of first mortgage 5% bonds, due 1957, (b) 314 shares of capital stock (par value \$100) and (c) an open account in the aggregate amount of \$99,438.84 adjusted for additions to or repayments of at the date of closing. Otter Tail Power Co. proposes to merge Interstate Power Co. of North Dakota into it.

**Purchase of Eastern Iowa Electric Co.—**

The SEC also approved the declaration regarding the proposed purchase by Interstate Power Co. (Del.) from some nine individuals of 60 shares of common stock of Eastern Iowa Electric Co., constituting all of the outstanding securities of such company other than the 90 shares of common stock presently held by Interstate Power Co. (Del.), for \$94,320 or \$1,572 per share; such acquisition to be followed by the transfer to Interstate Power Co. (Del.) of all of the assets and liabilities of Eastern Iowa Electric and the dissolution of the latter company.—V. 158, p. 193.

**Iowa Public Service Co.—Earnings—**

**Jacobs Aircraft Engine Co.—Stock Admitted to Trading**

The company announces that its outstanding capital stock, totaling 618,546 shares, was admitted to trading on the New York Curb Exchange and the Philadelphia Stock Exchange, effective July 16, 1943. The listing of this stock was approved by the New York Curb Exchange on June 17 and by the Philadelphia Stock Exchange on June 21. The company has no funded debt. It is one of the largest producers of commercial airplane engines in the medium class range. At present it is engaged in producing Jacobs engines and parts at its own plant, and Pratt & Whitney type engines and parts at a Government-owned plant. Both types of engines are being produced solely for the U. S. Army Air Forces.—V. 153, p. 291.

**Jones & Laughlin Steel Corp. (& Subs.)—Earnings—**

**Kelsey-Hayes Wheel Co., Detroit, Mich.—Sale of Notes**

Lester R. Downie, Treasurer of the company, has confirmed the private sale to the Equitable Life Assurance Society of the United States of an issue of \$10,000,000 five-year 3% notes, dated May 1, 1943, and due May 1, 1948.

The purpose of the loan is to provide ample working funds during the period immediately following cessation of the war when considerable sums will be tied up in war contracts, inventories and claims against the U. S. Government. By making the loan now the company insures that it will be able to liquidate such claims in an orderly manner and the loan will be self-liquidating as claims under war contracts are settled.

One requirement of the present financing is that the company pay off the \$1,200,000 balance of its five-year serial bank loan and its current bank indebtedness be reduced to an amount not in excess of \$1,000,000. Company is permitted to have outstanding current bank indebtedness up to \$2,000,000 provided the total of such current bank indebtedness, together with the unpaid balance of the Equitable notes, does not exceed \$11,000,000.—V. 158, p. 87.

#### Midvale Co. (& Sub.)—Earnings—

(Controlled by Baldwin Locomotive Works)

	1943	1942
12 Months Ended June 30—		
Earnings bef. taxes and res. for contingencies	\$16,099,733	\$14,677,951
Federal and State income taxes	*11,616,900	11,103,000
Reserve for contingencies	1,635,000	650,000
Net profit	\$2,847,833	\$2,924,951
Outstanding common shares	600,000	600,000
Earnings per share	\$4.74	\$4.87

\*Includes \$9,954,900 excess profits taxes, after post-war refund credit of \$1,106,100.

As the result of the conclusion of renegotiation of war contracts covering all business to Dec. 31, 1942, the company will make a net cash refund to the U. S. Government of \$1,704,695. Of this total \$1,152,695 is for the year ended Dec. 31, 1942, and \$552,000 for the year ended Dec. 31, 1941.

Reflecting the results of the renegotiation of war contracts, the company and its subsidiary in a revised consolidated statement of profit and loss for the year ended Dec. 31, 1942, report a net income transferred to surplus of \$2,582,941 after all charges and taxes, including Federal income taxes and a provision of \$270,000 for contingencies, equal to \$4.30 a share on 600,000 no-par shares of capital stock.

In its prior report for 1942 which it was stated was subject to adjustment arising from renegotiation of war contracts, net profit after all charges and taxes including a contingency provision of \$1,020,000, was reported at \$3,740,366, equal to \$6.23 a share.

In a letter to stockholders, H. L. Frevert, chairman of the board, referring to the renegotiation proceedings stated in part:

"For the year ended Dec. 31, 1942, it was determined by the Price Adjustment Board, Navy Department, that excessive profits of \$8,700,000 were realized. It was also determined that for the year ended Dec. 31, 1941, excessive profits of \$2,000,000 were realized. After deducting the credit for income taxes applicable to such 'excessive profits,' the net cash refund to the U. S. Government amounts to \$1,152,695 for the year ended Dec. 31, 1942, and \$552,000 for the year ended Dec. 31, 1941, or an aggregate amount for both years of \$1,704,695. The net cash refund is payable in three bi-monthly installments beginning Aug. 15, 1943.

"As indicated above, a credit of \$7,547,304 for excess profits tax has been applied against the gross amount of 'excessive profits' refundable for the year 1942. As a result, the post-war refund of excess profits tax for 1942 is reduced by \$754,730, that is from \$1,337,700 to \$582,969."

In the revised balance sheet as of Dec. 31, 1942, the reduction of profit for the year 1941 resulting from renegotiation of war contracts, amounting to \$552,000, was charged against surplus account.

Net earnings from operations, as previously reported, of \$18,167,596 were reduced in the consolidated statement by the amount of the "excessive profits" of \$8,700,000 to \$9,467,595.

Federal excess profits taxes in the revised statement are reported at \$5,246,726 after the 10% post-war refund credit as compared with \$12,039,300 after refund credit reported in the statement issued before renegotiation.

#### To Pay 50-Cent Dividend—

A dividend of 50 cents per share has been declared on the capital stock, payable October 1 to holders of record September 15. Like amounts were disbursed on April 1 and July 1, last. Distributions during 1942 were as follows: April 1, 60 cents; and July 1, Oct. 7 and Dec. 19, 50 cents each.—V. 157, p. 2451.

#### Mutual Life Insurance Co. of New York—Report for First Half of Year—

The report of this company, covering its operations in the first half of 1943, issued on July 23 by Alexander E. Patterson, Executive Vice-President, in the absence of Lewis W. Douglas, President, who is in Washington, shows that the war to date has had little effect on the overall mortality rate among the company's 1,000,000 policyholders. The report also reveals that, because of improved economic conditions, voluntary surrenders of policies were 41% less than in the same period of last year; that claims under accidental deaths were one-third less, and that U. S. Government bond holdings now represent 41% of the company's total admitted assets.

The company's mortality ratio in the first half, including war death

claims, Mr. Patterson said, was slightly higher than for the first half of 1942, but lower than for the corresponding periods of 1941 and 1940. War death claims incurred by The Mutual Life from the date of Pearl Harbor to June 30, 1943, have totaled \$1,265,910 on 469 lives, including 124 cases of men reported "missing in action." Such claims comprised only about 1.7% of the total death claims paid by the company in the same period.

Claims for double indemnity because of accidental death were 34% less than in the same period of 1942. This decline is due primarily to the reduction in automobile fatalities because of reduced use of motor vehicles, and the lower speed of their operation.

On June 30 the company's holdings of U. S. Government securities totaled \$663,700,000, an increase of more than \$150,000,000 over the same date a year ago. Government holdings now constitute 55% of the company's securities portfolio.

Total benefits paid by the company to policyholders and beneficiaries in the first half were \$52,900,000, or \$3,400,000 less than in the first half of 1942. The decline in benefit payments was due to a reduction in the amount of insurance surrendered. Of the \$52,900,000 of benefits paid out, death benefits accounted for \$24,300,000, while the balance of \$28,600,000, or 54% of the total, was paid to living policyholders.

The number of stores in operation decreased from 993 in 1942 to 901 at July 17, 1943.—V. 158, p. 395.

**National Tool Co., Cleveland—10-Cent Dividend—Shipments Higher—**

It was announced on July 26 that the directors have declared a dividend of 10 cents per share on the common stock, no par value, payable Aug. 10 to holders of record July 31. A similar distribution was made on April 15, last, and on March 31, June 30 and Dec. 10, 1942.

Shipments for the first six months of 1943 were slightly more than 28% above the preceding year, setting a new high mark, according to A. J. Brandt, President.

The semi-annual report, to be released shortly, is expected to show an increase in net profits over last year, it was added.—V. 157, p. 1463.

**New Bedford Rayon Corp.—\$1 Class A Dividend—**

A dividend of \$1 per share has been declared on the class A common stock, par \$25, payable Aug. 10 to holders of record July 30. This compares with 75 cents each paid on April 30, 1943, and on July 8, 1942, and \$1 on March 14, 1942.—V. 156, p. 1056.

\*Certain retroactive adjustments for taxes and other items made during 1941 and 1942 have been distributed to the periods to which applicable. †After deduction of excess profits tax credit of 10%. Federal taxes for 1943 have been accrued at rates imposed by the Revenue Act of 1942. ‡Deficit.—V. 158, p. 293.

**New England Gas & Electric Association—Output—**

For the week ended July 23 this Association reports electric output of 12,496,660 kwh. This is an increase of 859,406 kwh., or 7.38% above production of 11,637,254 kwh. for the corresponding week a year ago.

Gas output for the July 23 week is reported at 93,875,000 cu. ft., an increase of 3,715,000 cu. ft. or 4.12% above production of 90,160,000 cu. ft. in the corresponding week a year ago.—V. 158, p. 395.

**New England Power Association—Output Up 9.01%—**

The Association reports number of kilowatt-hours available for its territory for the week ended July 24, 1943, as 63,873,378, compared with 58,595,035 for the week ended July 25, 1942, an increase of 9.01%. Output for the preceding week was 63,246,446 kwh., an increase of 10.03% over the corresponding week last year.—V. 158, p. 395.

**New Haven Clock Co.—To Pay Accrued Dividend—**

A dividend of \$4.87½ per share has been declared on account of accumulations on the 6½% cum. preferred stock, par \$100, payable Aug. 16 to holders of record Aug. 5. Distributions of \$1.62½ per share were made on this issue on Feb. 10 and May 10, last. Dividends paid in 1942 were as follows: Feb. 10, May 1 and Aug. 1, \$1.62½ each; and Nov. 2 and Dec. 7, \$3.25 each.

The current declaration represents payments due Nov. 1, 1940, Feb. 1, 1941 and May 1, 1941.—V. 157, p. 1848.

**New Jersey Zinc Co.—To Pay 50-Cent Dividend—**

A dividend of 50 cents per share has been declared on the common stock, par \$25, payable Sept. 10 to holders of record Aug. 20. This compares with \$1 paid on June 10 and 50 cents on March 10, 1943. Payments in 1942 were as follows: March 10, 50 cents; June 10, \$1; Sept. 10, 50 cents; Dec. 10, \$1; and Dec. 19, 25 cents.—V. 157, p. 1947.

**New York Life Insurance Co.—Results for Mid-Year—**

Insurance in force in this company was increased by \$127,399,900 during the 12 months ended June 30, 1943, and amounted to \$7,182,925,560 on that date, it was stated on July 22 by George L. Harrison, President, in a mid-year review of New York Life transactions.

New insurance premiums and renewal premiums during the first half of 1943 aggregated \$120,487,678, an increase of \$3,919,262 over the sum received during the corresponding period of the previous year. There was a marked decrease in the volume of policies surrendered, which was only 62% of the amount surrendered during the first six months of 1942.

As compared with the first half of 1942, reported death claims were 13% higher this year, but claims for additional accidental death benefits, resulting from automobile accidents, showed a decrease of 43%.—V. 157, p. 1947.

Income avail. for fixed charges	3,466,307	2,985,060
†Net after fixed charges	2,375,851	1,885,916

\*The leases of the following companies were rejected on dates stated below but net railway operating income includes the results of operations of these properties: Old Colony RR., June 2, 1936; Hartford and Connecticut Western RR., July 31, 1936; Providence, Warren and Bristol RR., Feb. 11, 1937; Boston and Providence RR. Corp., July 19, 1938. †Effective as of these dates, no charges for the stated leased rentals are included covering the Old Colony RR., Hartford and Connecticut Western RR., Providence, Warren and Bristol RR., and Boston and Providence RR. Corporation leases. ‡Includes accrued and unpaid real estate taxes on Old Colony and Boston and Providence properties; also accrued and unpaid charges against said properties for Boston Terminal Co. taxes and bond interest.—V. 158, p. 395.

**New York Ontario & Western Ry.—Earnings—**

## New York Telephone Co.—Record No. of Phones—

An official announcement says: For the first time the number of telephones served by this company in its territory in New York State and Greenwich, Conn., has reached and passed the 3-million mark. Figures available up to July 21 show that this total was attained during the week ending on that date.

The gain from January 1 to July 21 was about 107,000, producing a total of approximately 3,004,000 telephones in service. The gain during that period was greater than for any entire year since 1929, when the net addition was around 166,000.

In November, 1940, the number of telephones served by the company had regained and passed, after nearly 11 years, the previous peak of 2,696,600 attained in 1929. With the rapidly mounting telephone requirements resulting from the war, each year of the conflict has shown large gains—92,200 in 1940, 104,600 in 1941, and 82,000 in 1942.

Of the present total, about 1,848,700 are in New York City. This is an increase of about 36,000 since it regained on February 21 last its previous peak of 1,812,600 reached in 1930.—V. 158, p. 293.

—V. 158, p. 91.

## Northern States Power Co. (Del.)—Weekly Output—

Electric output of this company for the week ended July 24, 1943, totaled 38,264,000 kwh., as compared with 34,980,000 kwh. for the corresponding week last year, an increase of 9.6%.—V. 158, p. 396.

## Northeast Airlines, Inc.—Passenger Travel Gains—

Samuel J. Solomon announces that passengers carried by Northeast Airlines, Inc., of Boston, during the first six months of this year totaled approximately 13,200, compared with 11,677 during the same period of 1942, a numerical gain of 1,523, representing an increase of approximately 13%.

Northeast Airlines at present operates regular passenger, mail and express service between Boston and Bangor, Portland, Augusta, Houlton and Presque Isle, in Maine, and to Moncton, New Brunswick.—V. 157, p. 1849.

## Northwest Airlines, Inc.—New Records Reached—

For the second straight month this corporation carried a new all-time record cargo of airmail during the month of June, Croil Hunter, President and General Manager, announced. Total airmail pounds shot up to 391,033 in June, an increase of 15,228 over the previous record set in May. Through the month of June NWA planes, their loads swelled by new needs for swift correspondence between war centers from Chicago to the Pacific Northwest, flew a total of 278,650,825 pound-miles. The new record exceeds the total of airmail pounds in June, 1942, by more than 166,000, and the pound-miles total is more than 90,000,000 over the same month a year ago.

Spotlighting the increase in service of air transportation to the war effort of the nation, NWA planes carried a total of 7,990 passengers, mostly on war business, during the month of June, Mr. Hunter stated. The new figure, he said, shows an increase of 783 passengers over the total for the previous month, and an increase of more than 1,200 over the total transported by NWA planes during June, 1942. The planes flew an estimated 5,197,590 passenger miles during the month.

Northwest Airlines planes, loaded with materials for war industries in centers between Chicago and the Northwest, carried a total of 102,081 pounds of air express during the month of June, Mr. Hunter added. The total is nearly 19,000 pounds more than was carried in June of last year. The planes carried their cargoes a total of 62,808,673 pound-miles.

Increase in the totals has resulted principally from new demand for quick delivery of express vital to the war effort, Mr. Hunter pointed out.—V. 157, p. 2453.

\*After post-war credit of \$715,000.

Note—The company has made a final settlement covering renegotiation of 1942 war contracts which reduced net earnings after taxes as shown on the 1942 financial statement, by \$181,035. Surplus has been reduced by this amount and 1943 earnings are not affected.—V. 157, p. 2049.

## Pacific Western Oil Corp.—Debentures Called—

The corporation has called for redemption as of Aug. 27, 1943, a total of \$330,000 of 3½% sinking fund debentures due Aug. 1, 1949, at 102½ and interest. Payment will be made at the City Bank Farmers Trust Co., trustee, 22 William St., New York, N. Y.—V. 158, p. 91.

## Pacolet Mfg. Co.—Acquires Cotton Mill—

The stockholders of both this company and the Gainesville Cotton Mills have approved the sale of the latter's properties to Pacolet for \$500,000. The plant, which has about 57,000 spindles and 1,600 looms, will hereafter be known as Pacolet Mill No. 6.—("American Wool and Cotton Reporter.")—V. 157, p. 169.

## Palace Hotel Co. of San Francisco—Pays All Accrued Interest—

Henry E. Keyes, Treasurer, will pay the semi-annual installments of interest on its first mortgage realty gold bonds which became due and payable on Aug. 1, 1941; Feb. 1, 1942; Aug. 1, 1942, and Feb. 1, 1943, respectively, at the American Trust Co., 464 California St., San Francisco, Calif., upon presentation and surrender to said trust company, as paying agent, of coupons Nos. 33, 34, 35 and 36 appertaining to said bonds.—V. 157, p. 1948.

## Pathe Laboratories, Inc.—Master's Opinion in Pathe-DuPont Case—

James L. Dohr, Special Master appointed by Judge Knox of the Federal Court to render an opinion concerning accounting disputes resulting from a suit brought by Pathe Laboratories, Inc. against duPont Film Manufacturing Corp. on the ground that improper items had been included in the costs charged by duPont Film to Pathe, filed his report in the Federal Court on July 29. The Master held that "If Pathe was entitled to be billed at the formula price in question in my opinion Pathe has been over-charged by the following amounts: \$11,188.67". This over-charge to Pathe was for a period of 15 months. The law suit involves an additional 10-year period for which computation has not yet been made. The Master also held that the practice of E. I. duPont de Nemours & Co. of charging inter-plant profits in computing costs of certain film was improper. He stated in his opinion "Pathe's objection to the transfer of ingredients from one plant to another at a price in excess of cost at the place of manufacture is sustained; in my opinion the inclusion of such inter-department profit was improper accounting practice". The Master upheld certain of the charges included in cost such as depreciation, certain administrative charges and shipping expenses. He, however, found that the addition of 30% profit to experimental expense was improper.

The Master's opinion was based upon testimony given by witnesses presented by Pathe Laboratories, duPont Film Manufacturing Corp. and E. I. duPont de Nemours & Co.

The case will be tried in the Fall before a court and jury in the Federal Court, Southern District of New York.—V. 155, p. 173.

## Pennsylvania-Dixie Cement Corp. (&amp; Subs.)—Earnings—

Note—The provision for Federal excess profits tax for the six months of 1943 is after deducting \$32,100 for a post-war refund of excess profits tax which sum was set up as a reserve for contingencies.—V. 157, p. 1948.

## Pennsylvania, Ohio &amp; Detroit RR.—Bonds Authorized

The ICC on July 26 authorized the company to issue not exceeding \$28,483,000 of 1st & ref. mtge. 3¾% bonds, series D, to be sold at 100¼ and accrued int., and the proceeds applied to the redemption of a like principal amount of 1st & ref. mtge. 4½% bonds, series A. Authority was granted to the Pennsylvania RR to assume obligation and liability as lessee and guarantor by endorsement in respect of the series-D bonds.

The report of the commission states in part: Otis & Co., a stockholder of the Pennsylvania, was granted leave to intervene without the right to broaden the issues inherent in the application. A hearing was held and oral argument was heard by the examiners. No other formal objections were offered and no formal representations were made by any State authorities.

The bonds have been sold, subject to our approval, to Kuhn, Loeb & Co., at par and accrued interest from July 1, 1943, to date of settlement. The bonds have been offered to the public at 101.75, a spread of 1.75. Payment for the bonds is to be made by the bankers on a date to be selected by them not less than five days nor more than ten days after the entry of our order authorizing such issue. If the necessary authority is not effective on or prior to July 26, 1943, or such other date as the bankers may approve, they, or the Pennsylvania Ohio & Detroit have the option at any time to cancel the agreement to purchase and sell the bonds.

The last day on which settlement under the contract can be made is July 31, as the purchase price must be received prior to the first publication of notice of redemption, the redemption being effective upon such publication. Under the first and refunding mortgage of the Pennsylvania, Ohio & Detroit, bonds issuable thereunder are limited to an amount at any time outstanding not exceeding two times the then outstanding capital stock of the company, and under the proposed supplemental indenture dated July 1, 1943, this limitation is clarified so as to provide that this amount shall not include bonds called for redemption if the amount payable on the called bonds has been deposited with the trustee. To comply with this provision the proceeds of the sale of the series-D bonds must be received by the company and deposited with the trustee before the date of the first publication, August 2.

The redemption of the series-A bonds at 102¼% is on a 4.36% basis, indicating that the proposed financing would result in an annual saving of approximately \$173,000, or \$4,325,000 over the 25-year period. However the interest savings are estimated as follows: Interest on series-A bonds at 4½%, 25 years to July 1, 1968, \$32,043,375; interest on series-D bonds at 3¾% for the same period, with allowances for annual retirements through sinking fund, \$23,496,562, a gross interest savings of \$8,546,812. The 2½% premium on the called bonds, amounting to \$712,075, would reduce the interest savings over the period to \$7,834,737, indicating an average annual saving of \$313,389. The expenses incident to the redemption of the series-A bonds amount to \$251,072, and consist of Federal taxes, \$31,331; Philadelphia city tax, \$14,241; printing and engraving, \$15,000; trustee's fees, \$10,000; miscellaneous expense, \$2,500; duplicate interest at 3¾% for two months if proposed bonds are issued about Aug. 1, 1943, \$178,000. The deduction for these expenses would be made only against the first year's savings, and the total net savings, after giving effect to these deductions, would be \$7,583,664. The refinancing would also result in a substantial reduction in income taxes, payable for the year 1943, estimated to be about \$1,500,000, because in the consolidated income tax return the Pennsylvania would be able to take credit for the premium required to be paid in connection with the redemption, as well as unamortized discount at which the series-A bonds were originally sold.

would be greater if a higher price had been received for the bonds, and that the failure of the Pennsylvania to consult with more than one banker was a disservice to the stockholders.

In the issue and sale of securities having special characteristics, such as equipment-trust obligations and securities of terminal companies guaranteed by proprietary and tenant railroad companies, it has been our established practice for a number of years to require that such securities be sold through competitive bidding, or what is tantamount thereto, the inviting of bids for the purchase thereof. This practice is understood and observed by the railroads. In the sale of other securities the negotiated price has been scrutinized in the light of terms of each issue and the money market conditions obtaining at the time of the sale and, if the price has been found to be fair and reasonable, the issue and sale has been authorized. However, when we have deemed the proposed sale price to be too low, the carrier has been so advised or a minimum price has been fixed in authorizing the issue of the security. These practices have been long established and are well understood by the railroads. We have not recently engaged in a general investigation as to the matter of competitive bidding and as a consequence promulgated a general rule in regard thereto. Nor have we, in a decision in a particular case, given any indication, as a timely notice, that such practice would be expected to be observed in future sales of railroad securities. In the absence of such general rule or a decision of similar purport these railroads have considered they should proceed along the lines heretofore followed in the sale of their securities. The series-D bonds are the first issue of railroad bonds proposed to be sold in over six months and the largest in more than a year. The market therefor was undetermined and certain explorations were necessary to ascertain whether or not the bonds could be disposed of on favorable terms. The bonds have been favorably received and now to say, after the exploratory testing of the market is accomplished, and because some other prospective purchaser is willing in the light thereof to offer a higher price, that this issue is one which requires that the sale should be made only through competitive bidding, would be a conclusion not warranted by the facts.

We are not convinced, however, that the applicants received the best price obtainable for the bonds. Because of negotiations with only one investment house, the applicants do not appear to have explored the possibility of effecting greater savings, such as through the issue of serial bonds, either in whole or in part, in effecting the proposed refinancing. Because of the possible effect on the market of the bonds to be called and refunded we find that competitive bidding was not appropriate in case of this issue. We are unable to find any good and sufficient reason, however, why the applicant should not have consulted more than one investment house. The bonds will be issued under an existing mortgage and will be substantially similar to the outstanding bonds, except as to interest rate, maturity, and the providing of a sinking fund. As no new mortgage is to be executed, no special advice and counsel were necessary in the drafting of a supplemental indenture and creation of the series-D bonds. Furthermore, while the applicants assert that they will have need for their cash reserves we are not persuaded that a portion of the series-A bonds could not have been retired by using some of the cash on hand.

Another objection to the proposed issue is found in the circumstances attending the sale and distribution of the bonds. A partner of Kuhn, Loeb & Co. produced at the request of the intervenor statements showing the names of the sub-underwriters and of the selling group, their participation in the distribution of the series-D bonds, and the amount of such bonds proposed to be taken by nine insurance companies and a saving fund. With one exception, all of the institutional buyers hold some of the series-A bonds to be called. There are 72 participating sub-underwriters and 175 in the selling group, a total of 247, but some participate in both groups. These statements show that the Mellon Securities Corp., as a member of the sub-underwriting group, is to take \$1,700,000 of the series-D bonds, and as a member of the selling group is to take an additional \$1,320,000 of the bonds. Richard K. Mellon, a director of the Pennsylvania, owns 50% of the stock of the Mellon Securities Corp. A number of insurance companies and financial institutions have arranged to purchase various amounts of the series-D bonds, when issued, from some one or more of the sub-underwriting or the selling groups. Among these insurance companies and financial institutions are the Prudential Life Insurance Co., the Penn Mutual Life Insurance Co., and the Girard Trust Co. The president of the Prudential Life Insurance Co. is a director of the Pennsylvania; the president of the Girard Trust Co. is a director of the Pennsylvania, and also a trustee of the Penn Mutual; and the president of the Pennsylvania is a trustee of the Penn Mutual, and also a director of the Girard Trust Co. Two other directors of the Pennsylvania are also directors of the Girard Trust Co.

Upon argument counsel for intervenor intimated that the purchase of the series-D bonds by insurance companies and financial institutions having as officers persons who are also directors of the Pennsylvania would be in contravention of the intent and spirit of Section 10 of the Clayton Antitrust Act, although technically not in violation thereof.

Whether or not there would be any color of violation of the spirit and intent of Section 10 of the Clayton Antitrust Act should the institutional buyers acquire the series-D bonds is a question not committed to us for decision.

While, as heretofore stated, we are not convinced that the applicants received the best obtainable price for the bonds we can not overlook either the savings or the subsequent debt reduction through operation of the sinking fund which will result therefrom. The series-D bonds have been offered to the public at 101 3/4, a spread of 1 3/4 above the price agreed to be paid to the applicants. The amount of that spread and the fact that when offered the bonds found a wholly favorable market, together with the evidence given as to the interest of other investment bankers in the issue, indicate that a better price than par was available to the applicants. We conclude that we should authorize the applicants to sell the bonds at not less than 100 1/4 of par and accrued interest.

#### Summarized

1. The bonds to be redeemed are not due and there is no compelling reason for their payment at this time. They are to be called purely to save money.
2. There is no suggestion on the record that the Pennsylvania, with an investment of over \$3,000,000,000, is under any obligation to any banker, rather, the proposed transaction is the result of arms-length dealing between competent parties in which negotiations covering a considerable period culminated in a mutually satisfactory purchase and sale at a price confirmed by applicants' boards of directors composed of able businessmen.
3. It is not questioned that our approval of this transaction will result in a saving to the applicants of approximately \$9,000,000.
4. The interest rate on this debt is reduced, a sinking fund created, and the period to maturity materially shortened.
5. A rival investment company at the hearing, after the market had been developed and the securities subscribed for, made an offer at 102. That this offer was made on the spur of the moment and without adequate consideration is indicated, first, by the fact that the call price of the new bonds for sinking-fund purposes is 103, which limits the price at which the bonds could be sold to the public, and, second, by the attempt to modify substantially the offer after the hearing.
6. There being a time limit when the call for the bonds must be exercised if made at this time, it is very doubtful if the saving here to be made could be realized were we to disapprove this sale. What the monetary situation may be six months or a year from now, no one can foretell.
7. The spread between the sale price of 100 and the offering price to the public of 101 3/4, under the facts before us, is too great and should be reduced by increasing the sale price to not less than 100 1/4. Such a price appears to us to be fair and reasonable.

With the foregoing modification we find that the proposed issue by the Pennsylvania, Ohio and Detroit RR. of not exceeding \$28,483,000 of first and refunding mortgage 3 3/4% bonds, series D, and the proposed assumption of obligation and liability, as lessee and guarantor, by endorsement, in respect of these bonds by the Pennsylvania RR. as aforesaid, (a) are for lawful objects within their respective corporate purposes and compatible with the public interest, which are necessary and appropriate for and consistent with the proper performance by them of service to the public as common carriers, and which will not impair their ability to perform that service, and (b) are reasonably necessary and appropriate for such purposes.

#### Commissioner Mahaffie, dissenting stated in part:

I disagree with the decision approving the application. The modification required I consider of slight consequence. It in no way affects the basic questions presented.

The interlocking relationships disclosed by the record is a factor which, I think, requires our serious consideration. In addition to the interlocking relationships mentioned in the majority report, the testimony shows that Walter S. Franklin and C. Jared Ingersoll are directors of both the Pennsylvania and the Girard Trust Co. While the Pennsylvania, Ohio & Detroit is to be the primary obligor for the series-D bonds, that company is nevertheless controlled absolutely through stock ownership and lease by the Pennsylvania. The latter is the motivating force behind the proposal before us, and it is between the Pennsylvania and the insurance companies and financial institutions that the interlocking relationships exist.

Considering the broad public interest, I do not regard as a healthy condition in railroad financing a situation where, in the sale of securities by private negotiation, the same person, although he takes no part in the particular transaction, is serving as an officer or director of the carrier issuing or guaranteeing the securities and as an officer or director of a company participating in the sale and distribution of those securities. This is true whether such officer or director doubles as underwriter, sub-underwriter, member of the selling group, or immediate purchaser from any of these instrumentalities, since all are engaged in what is essentially one transaction. This view finds support not only in the provisions of State and Federal statutes concerned with the protection of public interests not committed to us for supervision but also, as discussed hereinafter, in the express provisions of the Interstate Commerce Act pursuant to which this application is made.

A feature of the proposals which is not stressed in the record also, I think, requires attention. As shown in the majority report, Richard K. Mellon, a director of the Pennsylvania, owns 50% of the stock of the Mellon Securities Corporation. His sister owns the remaining 50%. The record shows that the Mellon Securities Corp. as a member of the sub-underwriting group has subscribed for \$1,700,000 of the series-D bonds and as a member of the selling group is to take \$1,320,000. Under the terms of the sub-underwriting and selling agreements, the respective participants are to receive as compensation three-fourths of 1% for the underwriting commitment and a like amount for the selling commitment. As above indicated, profits realized by the Mellon Securities Corp. from its participation in the underwriting and in the selling of these bonds accrue to Mellon and his sister.

It is not in the public interest for a carrier, the subsidiary of another which determines whether and under what terms and conditions, the subsidiary shall issue its securities, to issue them in such manner that the transaction results in personal profit to a director or directors of the controlling carrier.

#### ICC Stays Its Order on Rail Bond Sale—Authorization of Issuance of Bonds Delayed on Petition of Otis & Co.—

The Interstate Commerce Commission on July 28 stayed through July 31 its order of July 27 authorizing the issuance of \$28,483,000 bonds.

The stay, ordered by Commissioner Claude R. Porter, presumably will give the Commission time to determine whether it should grant a petition by Otis & Co. for a rehearing.

The petition by Otis & Co. asserted that the majority of Division Four of the ICC had made nine errors. It said these included:

- (1) The finding that the proposed price of 100 had been confirmed by the directorates of the two applicant companies.
- (2) In holding that the transaction "was compatible with the public interest despite the fact that it did not appear that the applicants had received the best price obtainable for the bonds."
- (3) In finding that the price of 100 1/4 was fair and reasonable.
- (4) In finding that the price was fixed by arm's-length bargaining.
- (5) In finding the transaction compatible with the public interest "despite the fact that it involves personal profit as an underwriter and selling group members to a director of the railroad corporation controlling the issue."
- (6) In finding the transaction compatible with the public interest "despite the fact that out of 15 directors of the company controlling the issuer, 10 of such directors at the same time had personal or fiduciary interests on the buying side at a price frequently and privately negotiated without competition."
- (7) In finding "that there is any public interest in protesting the market price of bonds selling above call price when call is contemplated."

"The majority erred," the Otis & Co. petition said, "in finding that the price between applicants and bankers was fixed by arm's-length bargaining, despite the fact that the testimony of Martin W. Clement, President of the Pennsylvania RR., shows that he determined and fixed the price on behalf of applicants while he was also trustee for a purchaser of the bonds at a price directly dependent on the price fixed by him for the issuer."—V. 158, p. 294.

#### Pere Marquette Ry.—Earnings—

Period End. June 30—	1943—Month—1942	1943—6 Mos.—1942
Total oper. revenues—	\$4,649,449	\$3,618,503
Total oper. expenses—	3,144,128	2,600,144

Gross income	\$12,111,886	\$11,077,995
Income deductions	\$6,015,313	\$5,954,611
Net income	\$6,096,573	\$5,123,384
Divs. on pfd. stock	\$4,140,163	\$4,212,838
Balance	\$1,956,410	\$1,910,546

#### New Official Elected—

Bernard P. Carey, a past president of the Pennsylvania Electric Association, has been elected Vice-President in charge of legal affairs.

#### Weekly Output—

The electric output for the company and its subsidiaries for the week ended July 24, 1943, amounted to 118,875,000 kwh., an increase of 13,812,000 kwh., or 13.1%, over the corresponding period a year ago.—V. 158, p. 396.

#### Pfeiffer Brewing Co.—Earnings—

6 Mos. End. June 30—	1943	1942	1941	1940
*Net profit	\$262,189	\$183,629	\$243,227	\$263,362
Earns. per share on no par capital stock	\$0.61	\$0.43	\$0.57	\$0.61
*After provision for depreciation and Federal income taxes.				
Note—The Federal income tax for the first half of 1943 was \$178,285 as compared with \$126,419 in 1942, computed at the rate of 40%.				

—V. 157, p. 2455.

#### Philadelphia Dairy Products Co., Inc. (& Subs.)—Earnings—

Period End. June 30—	1943—6 Mos.—1942	1943—12 Mos.—1942
Consolidated net income after charges & taxes	\$382,941	\$445,298
Earn's per com. share	\$1.38	\$1.94

—V. 157, p. 1850.

#### Phillips Petroleum Co. (& Subs.)—Earnings—

6 Months Ended June 30—	1943	1942	1941
*Gross income	\$74,156,540	\$69,403,336	\$62,431,726
Cost of products sold, operating and general exps., taxes & int.	48,585,511	48,092,115	42,448,011
Reserves for depl., deprec., develop. costs and retirement	11,955,714	11,354,802	9,569,000

Net income before Federal taxes on income	\$13,615,315	\$9,956,420	\$10,414,715
Provision for Federal income taxes	6,270,000	3,225,000	2,178,035

Net profit	\$7,345,315	\$6,731,420	\$8,236,680
Net profit per share	\$1.62	\$1.51	\$1.85

\*Does not include inter-company business or gasoline taxes collected and paid to Federal and State Governments.

Notes—(1) The provision for Federal taxes on income for 1943 is computed at rates prescribed by the applicable Revenue Act.

(2) Earnings per share for the first six months of 1943 are based on an average of 4,520,920 shares of common stock outstanding, compared with 4,449,052 during the first six months of 1942.

#### K. S. Adams, President, and Frank Phillips, Chairman, State in part:

Additions to the company's underground reserves of crude oil, natural gas, and lighter hydrocarbons, resulting from intensive exploration and exclusive of producing properties acquired, far exceeded production withdrawals during the period. These results are in contrast with the discovery trend of the industry.

Already the year 1943 has marked the initial operation of several large and important manufacturing plants of new types, all of which are based on company research. These have been designed, constructed, and are being operated by the company. The largest of these projects is a plant now manufacturing butadiene, the basic and major ingredient in synthetic rubber. Operations were also started at three new plants which will greatly increase the company's protection of high octane aviation gasoline and its components. Two plants use the outstanding new catalytic process developed by Phillips' research chemists, the hydrofluoric acid alkylation process, and are the first to be placed in operation within the industry. The third plant is the first of the company's three isomerization plants.

Also during the first half of the year, initial design work or actual construction was started on many other highly technical manufacturing projects. Included among these are the following: A large cycloversion (catalytic cracking) plant, a unit for producing a new and superior synthetic blending agent, an additional superfractionation installation, a desulphurization unit, a plant for the manufacture of a special Phillips type carbon black required in the compounding of synthetic rubber, several specialized chemical manufacturing installations, and a large hydrocarbon extraction plant to be operated in conjunction with the long-distance transmission of natural gas to inadequately supplied industrial areas.

On April 30, 1943, the company called for redemption on June 1, 1943, \$5,000,000 convertible 1 3/4% debentures. On June 28, 1943, company announced that it had elected to redeem on Aug. 3, 1943, at the office of Manufacturers Trust Co., New York, an additional \$7,500,000 of its convertible 1 3/4% debentures at 102 and accrued interest. Holders of debentures listed for redemption, however, have the option to convert into fully paid non-assessable common stock of the company at the rate of one share of such stock for each \$45.50 principal amount of debentures so converted at any time until the close of business on July 31, 1943. Holders of stock so converted and of record Aug. 6, 1943, will receive the dividend payable Sept. 1, 1943. Of the \$20,000,000 of convertible 1 3/4% debentures issued in January, 1941, \$8,789,500 had been converted into 192,736 shares of common stock as of July 22, 1943.—V. 158, p. 92.

#### Pillsbury Flour Mills Co.—25-Cent Dividend—

A dividend of 25 cents per share has been declared on the capital stock, payable Sept. 1 to holders of record Aug. 12. This compares with 50 cents paid on May 28, last, and 25 cents per share in each preceding quarter.—V. 157, p. 1653.

#### Pittsburgh & Lake Erie RR. Co.—Earnings—

#### Pittsburgh Steel Co.—\$4.12 1/2 Prior Preferred Div.—

The directors on July 28 declared a dividend of \$4.12 1/2 per share on account of accumulations on the 5 1/2% first series prior preferred

stock, payable Sept. 1 to holders of record Aug. 20. A like amount was paid on March 1 and June 1, last, and on Sept. 1 and Dec. 1, 1942, which compares with \$2.75 each on March 2 and June 1, 1942. Following the payment of the June 1, 1943, dividend, arrearages totaled \$8.25 per share.

It was stated that the Sept. 1 distribution will be available to holders of class B 7% preferred stock who exchange their shares under the plan of exchange for the prior preferred stock.—V. 157, p. 2256.

#### Pittsburgh Steel Foundry Corp.—New President—

Frank Cordes has resigned as Chairman of the board of the Blaw-Knox Co., and has been elected as President of the Pittsburgh Steel Foundry Corp., to succeed Parker Wilson.

It was reported, without confirmation, that Mr. Cordes would be succeeded as Chairman of Blaw-Knox Co., by William P. Witherow, its President. Mr. Witherow is a former President of the National Association of Manufacturers.—V. 155, p. 91.

#### Pittsburgh & West Virginia Ry.—Earnings—

June—	1943	1942	1941	1940
Gross from railway	\$663,946	\$599,046	\$464,142	\$353,836

—V. 158, p. 92.

#### Plymouth Oil Co. (& Subs.)—Earnings—

6 Mos. Ended June 30—	1943	1942	1941	1940
Net profit	\$1,099,161	\$798,729	\$628,177	\$998,819
Shares capital stock	1,044,916	1,037,100	1,037,546	1,029,133
Earnings per share	\$1.05	\$0.77	\$0.61	\$0.97

\*After depreciation, depletion, Federal income taxes, etc.

Note—No provision was made for excess profits tax since the earnings do not indicate any liability based on the tax laws now in force.—V. 157, p. 2256.

#### Poor & Co.—Accumulated Dividend of 37½ Cents—

A dividend of 37½ cents per share has been declared on the \$1.50 cum. and partic. class A stock, no par value, on account of accumulations, payable Sept. 1 to holders of record Aug. 16. Like amounts were disbursed on March 1 and June 1, last, and in each quarter during 1942. In addition, an additional dividend of \$1.25 per share was paid on Dec. 1, 1942.—V. 157, p. 1851.

#### Pressed Steel Car Co., Inc.—Reduces Preferred—

The outstanding 5% cumulative convertible first preferred stock was reduced 7,857 shares between April 30 and June 30 through the conversion of this stock into common on a share for share basis, the company reported to the Securities and Exchange Commission.—V. 157, p. 2256.

#### Public Service Co. of New Hampshire—Earnings—

Period End. June 30—	1943—Month—	1942—Month—	1943—12 Mos.—	1942—12 Mos.—
Operating revenues	\$671,368	\$647,071	\$8,492,011	\$8,056,197

Note—Federal income taxes for 1943 are computed at rates set forth in the Revenue Act of 1942. Provisions for the periods in 1942 and 1941 covered by this statement give effect to the rates applicable to those periods. It is presently estimated that taxable deductions arising from refinancing operations completed in 1943 will result in a tax saving of \$603,300 in 1943. An amount equal to this tax saving is being deducted from gross income in 1943 as "acceleration of amortization of debt discount and expense."—V. 158, p. 92.

#### Reading Co.—Earnings—

Period End. June 30—	1943—Month—	1942—Month—	1943—6 Mos.—	1942—6 Mos.—

—V. 158, p. 93.

#### Reliable Stores Corp. (& Subs.)—Earnings—

(Exclusive of the company's share of the earnings of Frank Corp.)	12 Months Ended June 30—	1943	1942
Net sales		\$13,209,582	\$13,519,325
Consolidated earnings before Federal income and excess profits taxes and interest		2,375,180	2,083,536
Net profit		715,900	735,609
Shares of common stock outstanding		302,710	309,411
Earnings per share		\$1.97	\$2.00

The corporation and subsidiaries report (exclusive of company's share of earnings of Frank Corp.) for the quarter ended June 30, 1943, a profit of \$372,213 after charges and Federal income taxes, but before provision for excess profits taxes. This compares with a profit of \$264,160 in June quarter of previous year and with a profit of \$168,254 for the March quarter of 1943. Consolidated net sales for the quarter ended June 30, amounted to \$3,289,854 in 1943 against \$3,315,785 for the corresponding quarter last year.

Note—Federal income and excess profits taxes for the 12 months ended June 30 amounted to \$1,633,654 in 1943 and \$1,341,778 in 1942.—V. 157, p. 2052.

#### Republic Aviation Corp.—Operations Expanded—

Since May 1, 1941, the production delivery rate of this corporation has increased nearly 100 times, Ralph S. Damon, President, states in a letter to stockholders concerning his resignation, which becomes effective Aug. 31. Mr. Damon said that during the period which is the time he has been President, total floor space has increased approximately 10 times, including the additional plant at Evansville and other new facilities added by the Government, while personnel has increased about eight times. Backlog is up 10 times, Mr. Damon said.

Commenting on the financial situation, the retiring President said renegotiation of contracts for 1942 has not yet been concluded, but that discussions are under way and should be satisfactorily completed.

Mr. Damon pointed out 25% of the outstanding second preferred stock had been retired at \$10 a share and suggested it would be wise to retire the balance of this issue on the same basis, if it could be arranged. Mr. Damon said he was retaining his own common shareholdings, all of which had been purchased in the open market.

Mr. Damon told stockholders he was returning to American Airlines because he felt his purpose at Republic had been achieved.—Thunderbolt

fighters are in quantity production and are giving a fine account of themselves on the fighting front. He pointed out that this return was part of the arrangement made when he originally came to Republic. See also V. 158, p. 397.

#### Rheem Manufacturing Co.—Earnings—

6 Months Ended June 30—	1943	1942
Net sales	\$23,215,000	\$16,457,443
Prof. after all chgs. incl. contng. but bef. taxes	3,288,785	2,096,772
Federal income and excess profits taxes	2,690,000	1,686,000
Net profit	\$598,785	\$410,772
Outstanding shares of common stock	402,126	314,674
Earnings per share	\$1.31	\$1.15

Note—The indicated net profit for the quarter ended June 30, 1943 is \$316,217 or \$0.70 per share of common stock on 402,126 shares as compared with 1942 second quarter earnings of \$135,310 or \$0.43 per share on 314,674 shares.—V. 157, p. 2052.

#### Richmond Radiator Co.—New Officials—

R. S. Reynolds, President of Reynolds Metals Co., has been elected Chairman of the board of the Richmond Radiator Co. Henry L. Charlton, Vice-President and director of Reynolds Metals, has been named President. H. J. McMenimen, formerly an executive of the Budd Wheel Co., has been elected Executive Vice-President and a member of the board.—V. 158, p. 397.

#### Richmond Fredericksburg & Potomac RR.—Earnings

—V. 158, p. 93.

#### Rio Grande Valley Gas Co.—Sale of Bonds Privately—

The SEC on July 24 issued an order permitting to become effective declaration filed with respect to the issuance and sale of \$87,000 of first mortgage bonds, series B, 4%, due 1961, at par for cash to The Northwestern Mutual Life Insurance Co.; said series B bonds to be issued against bondable property additions as provided in the indenture securing the first mortgage bonds, series A, 4%, due 1961, under which \$2,757,000 are outstanding in the hands of The Northwestern Mutual Life Insurance Co. The proceeds from such sale will be utilized to defray, in part, certain expenditures made for new construction.—V. 157, p. 2456.

#### Royal Dutch Co.—Far East Properties Wrecked—

With the exception of a small part of the Pladjoe, N. E. I., refinery, all producing, refining and storage properties of the Royal Dutch group in the Far East had been wrecked prior to the invasion by the Japanese, it is revealed in the annual report for 1942.

These properties were in the Netherlands East Indies, British North Borneo, Sarawak, and Malaya.

Japanese paratroops were dropped in the middle of the Pladjoe refinery center and it was not possible "to accomplish the destruction as planned," the managing directors point out.

"It is known, however, that the central power plant, the furnaces at the cracking plant and the central boiler plant were rendered useless and that the jetties were partly destroyed," they add. "The installations were afterwards shelled with mortars, and finally bombed several times by Netherlands Indian bombers; it has been reported that among other parts of the installations, the alkylation plant was destroyed by these attacks."

Planning for reconstruction is being actively pursued, the directors state. The company's special reserve for contingencies, as of Dec. 31, last, stood at fl. 71,663,911.

"It will be realized that very considerable sums of money will be needed to reconstruct all that has been lost," the directors declare. "The Group, however, has consistently followed a conservative policy with regard to the creation of reserves generally. That policy has been abundantly justified and has enhanced the stability of the Group during these difficult war years."

Under the new Venezuelan petroleum law, enacted earlier this year, the Group plans to convert its concessions in that country and will receive new concessions for longer terms, but will lose their rights of importation of material free of import duty, and will have to pay considerably higher taxation.—V. 158, p. 294.

Sales	\$46,717,064	\$46,529,555	\$312,405,555	\$321,633,967

Stores in operation on July 17, last, totaled 2,487, against 2,697 a year earlier.

#### Opens Separate Purchasing Divisions—

The corporation has set up, during the last 60 days, a number of separate purchasing divisions, or companies, with offices either in Oakland or San Francisco apart from the company's executive and distribution headquarters, a dispatch from San Francisco says. Each of these buys certain types of food directly from producers.

Among the first divisions to be established was Regent Canned Foods, in San Francisco, to deal with packers in this and other areas. Other divisions are those for canned milk (Hanford Milk Co.),

sugar (Olympic Sugar Co.), beans (Hillside Bean Co.) cheese (Superior Cheese Co.), and separate departments to handle purchase of flour and dried fruits and raisins.—V. 158, p. 93.

Earnings per share of com. stock	\$0.80	\$0.55	\$0.60	\$0.65

Notes—(1) A portion of the profits was derived from contracts with departments and agencies of the United States Government and, therefore, is subject to the provisions of the War Profits Control Act. As is the case with other members of the petroleum industry, notice has been received of the commencement of renegotiation proceedings and the preparation of schedules and data in respect thereto is in progress. The extent, if any, to which the earnings of the company may be affected is not determinable at this time, but it is believed the above reported net earnings will not be materially changed thereby.

(2) For the quarter ended June 30, 1943, the company's net profit, the report states, includes dividends received from Shell Pipe Line Corp., a wholly-owned subsidiary, in the amounts of \$450,000 for 1943 and 1942. The net income for this company for the three months ended June 30 amounted to \$816,386 in 1943, compared with \$600,359 in 1942.

#### Listing of Additional Stock—

The New York Stock Exchange has authorized the listing of 400,000 additional shares of common stock (par \$15) upon official notice of issuance in connection with the acquisition of 50% of the outstanding capital stock of Shell Chemical Co., making the total number of such shares included in this and previous applications 13,470,625.

The 400,000 shares are to be issued to N. V. de Bataafsche Petroleum Maatschappij (The Bataavian Petroleum Co.) in consideration of the delivery to the company of 50,000 shares of the capital stock of Shell Chemical Co. (such shares representing 50% of the outstanding capital stock thereof). Company is at present the owner of the other 50% of the capital stock of Shell Chemical Co.

The effect of the transaction on capital, capital surplus and investment is set forth below:

(1) Capital amounting to \$196,059,375, represented by 13,070,625 shares of common stock (par \$15) will be increased by \$6,000,000 representing the par value of 400,000 shares to be issued.

(2) Capital surplus will be increased by \$4,000,000 representing the amount by which the aggregate consideration received for the additional shares issued, as determined by the board of directors of the company, exceeds the aggregate par value thereof.

(3) Investment in capital stock of Shell Chemical will be increased by \$10,000,000 representing the cost of shares of capital stock acquired from N. V. de Bataafsche Petroleum Maatschappij.

(4) In accordance with the accounting policy of the company of reducing the carrying value of its investment in a subsidiary company to book value of the net assets at the effective date of acquisition, capital surplus will be debited and investment in Shell Chemical Co. will be credited with the amount by which the investment therein will be greater than the stated net book value at the date of acquisition.—V. 157, p. 2457.

#### Sherneth Corp., N. Y.—May Pay Interest—

This corporation, owners and operators of the Sherry Netherland Hotel in New York, has informed the registered owners of its reorganization 5% bonds that indications are that there will be available for distribution a sum sufficient to permit the payment of 1%, and the application of approximately \$10,000 to the retirement of bonds.

The corporation added, however, that the amount of net earnings for the six months' period ended June 30 will not be finally determined until the audit by independent auditors, as provided in the indenture, is completed. The bond interest payment would then be made on Sept. 1, in accordance with the provisions of the indenture, to bondholders of record Aug. 12, it was stated.—V. 155, p. 1022.

#### Sioux City Service Co.—Earnings—

#### Sloss-Sheffield Steel & Iron Co.—Listing—

The New York Stock Exchange has authorized the listing of 143,235 shares of \$1.20 cumulative preferred stock (no par) in lieu of 28,647 shares of \$6 cumulative preferred stock presently listed and outstanding, and 500,000 shares (\$20 par) common stock (of which 3,410 shares will be held in the company's treasury) in lieu of 100,000 shares (\$100 par) common stock (of which 682 shares are held in the company's treasury) presently listed and outstanding.

At a meeting held on May 26, 1943, directors adopted resolutions

which approved a plan of recapitalization and readjustment of capital stock dated May 26, 1943. This plan was approved by the stockholders July 14.

Under the plan the company proposes to:

(1) Readjust its capital stock so as (a) to change and divide each share of the presently authorized and outstanding \$6 cumulative preferred stock into five shares of full paid and non-assessable \$1.20 cumulative preferred stock (no par), redeemable at \$22.40 per share, plus dividends accrued thereon to the date of redemption, and (b) to change and divide each share of the presently authorized and outstanding common stock into five shares of common stock (par \$20), all without any change in the total amount of capital of the company represented by the new shares or by either class of stock;

(2) Exchange 143,235 shares of \$1.20 cumulative preferred stock (no par) for the 28,647 shares of \$6 cumulative preferred stock (no par) presently outstanding; and

(3) Exchange 500,000 shares (\$20 par) common stock for the 100,000 shares (\$100 par) common stock presently outstanding.

The purpose of the issuance of the \$1.20 cumulative preferred stock and the \$20 par value common stock is to effect the proposed readjustment and exchanges of the capital stock of the company.—V. 158, p. 295.

**South Carolina Electric & Gas Co.—\$20,000,000 Bonds Offered—**A group headed by The First Boston Corp. and Lehman Brothers on July 27 offered \$20,000,000 first mortgage 3% bonds at 104.21 and interest, to yield about 3.40%.

Associated with The First Boston Corp. and Lehman Brothers in the offering are Blyth & Co., Inc.; Harriman Ripley & Co., Inc.; Smith, Barney & Co.; Goldman, Sachs & Co.; Harris, Hall & Co.; F. S. Moseley & Co.; A. C. Allyn & Co., Inc.; Eastman, Dillon & Co.; Equitable Securities Corp.; Tucker, Anthony & Co.; Merrill Lynch, Pierce, Fenner & Beane; The Wisconsin Co.; Alex. Brown & Sons; Graham, Parsons & Co.; Newton, Abbe & Co.; Paine, Webber, Jackson & Curtis; G. H. Walker & Co.; Whiting, Weebs & Stubbs, Inc.; Hayden, Miller & Co.; Starkweather & Co.; G. H. Crawford Co., Inc., and J. J. B. Hilliard & Son.

The bonds were awarded to the First Boston Corp. and Lehman Bros. group, at competitive bidding on their bid of 103.0879. Two other bids were received at the competitive sale, one of 103.5037 for obligations with a 3% coupon by Halsey, Stuart & Co., Inc., and associates and one of 103.298 for a similar coupon by Melon Securities Corp. and associates.

Bonds are dated July 1, 1943 and mature July 1, 1973. Interest payable Jan. 1 and July 1 at the office or agency of the company in New York, in such coin or currency of the United States of America as at the time of payment is legal tender for public and private debts. The definitive 1973 Series bonds are to be issued in coupon form, registerable as to principal, in the denominations of \$1,000, and in fully registered form in the denominations of \$1,000 and any multiple of \$1,000 authorized by the board of directors.

**Purpose—**The proceeds from the sale of the bonds together with other funds of the company, are to be applied to redemption of all of the funded debt of the company.

The funded debt of the company, before this financing, was as follows:

Broad River Power Company First and Refunding Mortgage Gold Bonds, Series A, due Sept. 1, 1954	\$8,361,900
Parr Shoals Power Company First Mortgage 5% Sinking fund gold bonds, due April 1, 1952	1,359,000
Issues of Lexington Water Power Company to be assumed by the company First Mtg. 5% gold bonds, ser. due 1968	10,717,700
5% convertible sinking fund gold Debentures	2,373,600

Prior to or concurrently with the issuance and delivery of the bonds now offered General Gas & Electric Corporation in connection with the consolidation and merger of Lexington Water Power Co., will, among other things, deliver to the company for cancellation \$400 of Broad River Power Co., first and refunding mortgage gold bonds, Series A, \$504,400 of Lexington Water Power Co. first mortgage 5% gold bonds Series due 1968 and \$2,186,900 Lexington Water Power Co. 5% convertible sinking fund gold debentures, and the company will pay to the holders of, or deposit with the respective trustees under the indentures securing, the indebtedness listed in the above table sums of money sufficient to pay, redeem or otherwise retire the balance of such indebtednesses.

#### Capitalization After Refinancing

	Authorized	Outstanding
First mtg. bonds, 3% series due 1973	\$200,000,000	\$20,000,000
5% preferred stock (par \$50)	146,266	*126,210
6% preferred stock (par \$50)	3,734	None
Common stock (par \$100)	70,000	43,394

\*The amount of 5% preferred stock to be outstanding is stated on the assumption that all holders of the presently outstanding preferred stocks of the company will convert their shares in accordance with the provisions of the agreement of consolidation, and the amount of 6% preferred stock to be outstanding is stated on the assumption that none of the holders of the debentures of Lexington Water Power Co. will elect to convert such debentures into 6% preferred stock.

#### Summary of Earnings Available for Interest Charges

	Years Ended Dec. 31—	Year Ended May 31, '43
	1940	1941

<b>Net earnings</b>	<b>\$1,642,045</b>	<b>\$2,099,873</b>
Other income	15,624	8,850
<b>Net earnings before interest, amortization</b>	<b>\$1,657,669</b>	<b>\$2,108,723</b>
Annual int. req. on \$20,000,000 1st mtg. bonds, 3% series due 1973—total long-term debt to be outstanding		\$725,000

**History and Business—**The South Carolina Co. was organized in South Carolina, under the corporate name of Broad River Power Co. on July 19, 1924, and its name was changed to South Carolina Electric & Gas Co. on March 8, 1937. Lexington Water Power Co. was organized in South Carolina on July 1, 1903. Prior to the consolidation and merger of Lexington Water Power Co. into South Carolina Co. the former company was an affiliated company engaged in the operation of the Saluda hydro plant. The power produced at the Saluda hydro plant was sold by the Lexington Water Power Co. to South Carolina Co. and other power companies through direct connections with the facilities of Duke Power Co., Carolina Power and Light Co. and South Carolina Co.

Company is engaged principally in the generation, purchase, transmission, distribution and sale of electric energy for residential, commercial, industrial and other purposes at retail and wholesale in the central section of the State of South Carolina and the sale of electric energy to other power companies and to certain rural cooperative associations and municipalities for local redistribution. It is also engaged in the manufacture, transmission, distribution and sale of manufactured gas for residential, commercial, industrial and other uses in 5 municipalities, 2 of which are separated from the territory served generally by the company's electric distribution system. Company is also engaged in the business of operating a bus transportation service in Columbia and its environs.

#### Consolidation and Merger of Lexington Water Power Co. Into the Company

Pursuant to an agreement of consolidation, Lexington Water Power Co. will be consolidated and merged into the company and the following transactions will be consummated prior to the issuance of the bonds now offered:

(a) The authorized capitalization of the company will consist of 220,000 shares of stock of which 70,000 are to be common stock (par \$100), and 150,000 are to be preferred stock (par \$50), of which 146,266 shares are to be a series designated 5% preferred stock and 3,734 shares are to be a series designated 6% preferred stock.

(b) Each outstanding share of \$6 prior preferred stock of the South Carolina Company will be converted into two shares of new 5% preferred stock of the company. Each holder of the \$6 prior preferred stock of South Carolina Company who votes against the consolidation and merger and requests payment for his shares will be entitled to the appraised value of his stock which the company has agreed will be \$105 and accumulated dividends, so that a holder is entitled to such price if he does not elect to have his stock appraised. General Gas & Electric Corporation, holding 24,371 shares of said \$6 prior preferred stock, has assented to the consolidation and merger and such stock will be accordingly converted into 48,742 shares of 5% preferred stock.

(c) Each outstanding share of 7% preferred stock of the South Carolina Company will be converted into two shares of new 5% preferred stock of the company. Each holder of the 7% preferred stock of the South Carolina Company who votes against the consolidation and merger and requests payment for his shares will be entitled to the appraised value of his stock which the company has agreed will be \$110 and accumulated dividends, so that a holder is entitled to such price if he does not elect to have his stock appraised. General Gas & Electric Corporation, holding 12,517 shares of said 7% preferred stock, has assented to the consolidation and merger and such stock will be accordingly converted into 25,034 shares of 5% preferred stock. Accumulated dividends on the shares converted will be paid to the holders thereof other than General Gas & Electric Corporation, which has waived payment to it of accumulated dividends.

(d) Each share of common stock of the South Carolina Company is to continue as a share of common stock of the company. General Gas & Electric Corporation, holding 43,294 shares of common stock, has assented to the consolidation and merger and will accordingly continue to hold 43,294 shares of common stock of the company.

(e) In the event that any holder of the 5% convertible sinking fund gold debentures of Lexington Water Power Co. elects to convert such debentures into preferred stock he shall receive 20 shares of new 6% preferred stock of the company for each \$1,000 principal amount of debentures. If no holder so elects to convert, none of the new 6% preferred stock will be issued.

(f) The company will be possessed of all of the properties, assets, rights, privileges, powers and franchises of Lexington Water Power Co., subject to all the restrictions, covenants, disabilities and duties of such company and the payment of all of the indebtedness of Lexington Water Power Co.

(g) General Gas & Electric Corporation will deliver to the company for cancellation the following securities:

\$400 Broad River Power Co. (now South Carolina Electric & Gas Co.) first and refunding mortgage 5% gold bonds, series A, due Sept. 1, 1954.

504,400 Lexington Water Power Co. first mortgage 5% gold bonds, series due Jan. 1, 1968 (in addition to the \$108,300 delivered to Lexington Water Power Co. on or about Jan. 1, 1943).

2,186,900 of Lexington Water Power Co. 5% convertible sinking fund gold debentures, due Jan. 1, 1953 (in addition to the \$125,000 delivered to Lexington Water Power Co. on or about Jan. 1, 1943).

and receive in exchange therefor 50,000 shares of new 5% preferred stock of the company. The outstanding shares of common stock of Lexington Water Power Co., all of which are held by General Gas & Electric Corporation, will be cancelled.

(h) General Gas & Electric Corporation will purchase 100 shares of new common stock of the company for \$1,735,000 and make a cash contribution of capital to the company of \$240,000, and the company will pay to General Gas & Electric Corporation the amounts due it on open account and notes, which aggregate \$1,726,083.

Within sixty days after the consolidation and merger the company will establish a reserve for plant adjustments in the amount of \$10,000,000 based upon the following estimated amounts of plant adjustments:

Electric plant adjustments	\$7,400,000
Electric plant acquisition adjustments	2,300,000
Gas plant adjustments	300,000

which reserve will be charged to the surplus accounts of the company. Upon final determination of the original cost of fixed capital, it is proposed that the reserve will be charged with the amount determined as applicable to electric and gas plant adjustments and with such portion of the amount of electric plant acquisition adjustments as may be legally required to be written off.

The consolidation and merger has been approved by The Public Service Commission of South Carolina, the Federal Power Commission and the Securities and Exchange Commission.

**Purchases—**The following named underwriters have severally agreed to purchase from the company, and the company has agreed to sell to them, the respective principal amounts of the bonds set opposite their names:

The First Boston Corp.	\$2,000,000	The Wisconsin Co.	500,000
Lehman Brothers	2,000,000	Alex. Brown & Sons	400,000
Blyth & Co., Inc.	2,000,000	Graham, Parsons & Co.	400,000
Harriman Ripley & Co., Inc.	2,000,000	Newton, Abbe & Co.	400,000
Smith, Barney & Co.	2,000,000	Paine, Webber, Jackson & Curtis	400,000
Goldman, Sachs & Co.	1,000,000	G. H. Walker & Co.	400,000
Harris, Hall & Co., Inc.	1,000,000	Whiting, Weeks & Stubbs, Inc.	400,000
F. S. Moseley & Co.	1,000,000	Hayden, Miller & Co.	300,000
A. C. Allyn & Co., Inc.	700,000	Starkweather & Co.	200,000
Eastman, Dillon & Co.	700,000	G. H. Crawford Co., Inc.	150,000
Equitable Secur. Corp.	700,000	J. J. B. Hilliard & Son	150,000
Tucker, Anthony & Co.	700,000		
Merrill Lynch, Pierce, Fenner & Beane	500,000		

—V. 158, p. 398.

#### Southern California Gas Co.—To Call Bonds—

The directors have taken action to call on Oct. 1, next, \$1,500,000 of first mortgage 3% bonds of 1970 at 105. This action, it was stated, was brought about by the company's inability to utilize funds now held by the trustee for financing construction of new facilities. Because of war conditions the company is reported to have found it impossible to carry on the usual property additions and replacement program, which would necessitate the use of a large quantity of critical materials.—V. 153, p. 1141.

—V. 158, p. 398.

#### (A. G.) Spalding & Bros., Inc.—Sales of Athletic Goods Off—War Output Expanding—

Although sales of athletic goods of this corporation in the six months ended April 30 were 33% below the preceding year, aggregate volume for the period was off only slightly as a result of rising sales of war materials. Charles F. Robbins, President, states in a report to employees in the Spalding Sportsman, company magazine.

Mr. Robbins further adds: "Commercial expenses of selling, advertising and warehousing have been sharply reduced, so that ratio level expenses to sales has been maintained on a somewhat lower level than last year. Percentage of gross profit on this year's sales, however, is substantially less than last year, reflecting the change in character of our sales—from commercial sales to the U. S. Government."

The company is continuing to make all the athletic goods possible under present conditions, and is actively conducting research looking to development of substitute materials and improvement of its products, Mr. Robbins continued.

During the first six months of the current fiscal year, says Mr. Robbins, the program of converting more and more of its facilities to the production of war material was continued.—V. 157, pp. 645 & 479, and 470.

#### Sperry Corp.—To Pay 75-Cent Dividend—

A dividend of 75 cents per share has been declared on the common stock, payable August 11 to holders of record July 30. Like amounts were paid on Aug. 14 and Dec. 22, 1942, as compared with \$1 each on Aug. 5 and Dec. 9, 1941.

Thomas A. Morgan, President, states that the corporation made a new record of shipments for the first half of this year and that while earnings had not yet been finally determined they would be higher than for the last half of 1942. He further stated that the directors did not increase the dividend because of the working capital required to meet continuing large volume of business.—V. 158, p. 398.

#### Spiegel, Inc.—Plans to Open Retail Stores—

Modie J. Spiegel, Jr., President and General Manager, on July 27 announced the election by the board of directors of John W. Miller as Vice-President in charge of retail stores, which will be opened as soon as conditions permit.

Mr. Miller for the past ten years has been merchandising economist of Montgomery Ward & Co. and for the past two years also was in charge of the Washington office of that organization, and directed the nationwide sales promotion of priority goods.

"The decision of the board of directors to open retail stores was based on the desire to increase the flexibility of their present mail order operations and to serve more adequately a wider market," Mr. Spiegel stated. "The company plans to open retail stores and catalog order offices on an experimental basis until a pattern has been thoroughly tested and proved."—V. 158, p. 197.

#### Spokane International Ry.—Earnings—

—V. 158, p. 94.

#### Stadacona Rouyn Mines, Ltd. (in Liquidation)—Continuation of Operation Favored Until Debt is Discharged

Three possible courses for further action are set before the shareholders in a statement of George Duclos, liquidator, forwarded by the shareholders' protective committee.

The alternative plans are:

(1) Sale of property by public tender with court approval with proceeds distributed according to law.

(2) Formulation by the liquidator of plans of compromise or arrangements, with shareholders accepting any equity as might be made available.

(3) Continued operation of the property by the liquidator until sufficient funds are accumulated to pay off all creditors with subsequent return of the property to its shareholders, free and clear of all debts.

The third of these alternative plans is favored by the shareholders' protective committee.

A statement forwarded to shareholders shows a working capital deficit of \$74,816 at Nov. 30, 1939, changed to working capital on hand of \$263,489 at Nov. 30, 1942. Total net current assets of \$369,055 at Nov. 30, 1942, included \$81,576 of cash and \$150,000 in Dominion of Canada bonds.

Total revenue for the three years ended Nov. 30, 1942, amounted to \$2,426,724. Operating profit before depreciation was \$508,780, and after capital expenditures, shaft sinking and bad debts written off totaling \$162,475, current assets position was improved \$346,305, as shown above.—(Toronto "Financial Post.")

#### Standard Brands, Inc.—Earnings—

	1943	1942	1941	1940
6 Months Ended June 30—				
Net sales	\$83,706,733	\$68,214,605	\$54,851,477	
Cost of sales, selling, advertising, general and admin. expenses	72,800,107	61,418,506	48,131,501	
Operating profit	\$10,906,626	\$6,796,099	\$6,719,976	
Other income	790,167	290,444	717,887	
Total income	\$11,696,793	\$7,086,543	\$7,437,863	
Other charges	597,153	347,370	62,040	
Net after charges	\$11,099,640	\$6,739,173	\$7,375,823	
Federal inc. and excess profits taxes	6,382,971	3,874,296	3,067,250	
Net profit	\$4,716,669	\$2,864,877	\$4,308,573	
Res. for possible future inv. losses	1,000,000			
Balance transferred to surplus	\$3,716,669	\$1,364,877	\$4,308,573	
Shares of common outstanding	12,648,108	12,648,108	12,648,108	
Earnings per share	\$0.34	\$0.19	\$0.30	

For the quarter ended June 30, 1943, net profit, before appropriation for possible future inventory losses, was \$2,233,622, equal to \$0.16 a common share, as compared with \$1,374,897 or \$0.09 a common share for the quarter ended June 30, 1942 and \$2,483,047 or \$0.18 a common share for the quarter ended March 31, 1943.

In view of the fact that there was a further increase in the price of the principal items in the inventory, the Board of Directors, in continuance of the policy established in 1941, authorized a further appropriation for possible future inventory losses in the amount of \$1,000,000, increasing such reserve to \$6,000,000, as compared with \$5,000,000 on Dec. 31, 1942, and \$4,000,000 on Dec. 31, 1941.

James S. Adams, President, stated that the company's financial condition remains satisfactory, with working capital amounting to approximately \$46,960,000, compared with \$44,773,000 on June 30, 1942.

The company is currently using \$5,000,000 of its revolving credit of \$10,000,000. These borrowings are seasonal, peak cash requirements for the year having been reached in June.—V. 158, p. 295.

#### Standard Chemicals Co., Ltd.—Exchange of Stock—

Exchange of almost 50% of the old remaining shares of this company for new common was effected in the fiscal year ended March 31, 1943. Under a reorganization approved in 1927 the old 7% preference stock was to be exchanged on the basis of one preferred for one common and 10 shares of the old common for one new common. Since that date the trust company held shares to effect the exchange but many holders of the old shares failed to turn in the stock for conversion. (Toronto "Globe and Mail.")—V. 158, p. 197.

#### Standard Gas & Electric Co.—Weekly Output—

Electric output of the public utility operating companies in the Standard Gas & Electric Co. system for the week ended July 24, 1943, totaled 185,244,000 kwh., as compared with 161,420,000 kwh. for the corresponding week last year, an increase of 14.8%.

Electric output of the public utility operating companies in the Standard Gas & Electric Co. system for the week ended July 17, 1943, totaled 186,514,000 kwh., as compared with 158,555,000 kwh. for the corresponding week last year, an increase of 17.6%.—V. 158, p. 295.

#### Standard National Corp., N. Y.—Pays All Dividend Arrearages—To Retire Entire Issue of Preferred Stock—

The company on July 1 paid a dividend of \$19.25 per share on account of accumulations and the usual quarterly dividend of \$1.75 per share on the 7% cumulative preferred stock, par \$100, both to holders of record June 25. This wiped out all arrearages on the senior issue.

The company on Oct. 1 will redeem at 110 and dividends all of the preferred stock outstanding on that date. The preferred stock is callable on any dividend date on 30 days' notice.—V. 157, p. 2354.

#### Stanolind Pipe Line Co.—To Increase Capacity—

The company is spending approximately \$500,000 enlarging the capacity of its pumping stations on its recently looped pipeline from the Texas Gulf Coast through Oklahoma and the midcontinental area to Whiting, Ind., a Fort Worth (Tex.) dispatch stated. The pump stations are located at Lakenon, Cresson, Grayford and Bowie in North Texas. One new pump and one engine are being installed in each of the stations, and the work is expected to take approximately one year to complete, the dispatch added.—V. 157, p. 2355.

#### State Street Investment Corp.—Earnings—

In a report for the six months ended June 30, 1943, the company states that, with securities at market quotations at the close of the period, net assets amounted to \$46,807,165 equal to \$79.54 a share on the 588,439 shares of common outstanding. This compares with net assets on March 31, 1943 of \$43,323,070 or \$74.15 a share on 583,046 shares and with net assets on June 30, 1942 of \$29,990,189 or \$54.79 a share on 547,402 shares.

	1943	1942	1941	1940

#### Steep Rock Iron Mines, Ltd.—Voting Trust Extended—Par Value of Stock Changed—

Holders of voting trust certificates, at a special meeting held on July 19, extended the voting trust agreement for a further five years dating from May 1, 1944, and authorized a change in the par value of the 6,000,000 shares of stock from no par value to \$1 par value.

The meeting was asked to authorize the \$1 par value to facilitate trading in the United States in the company's shares. Shares of no par value in the United States are subject to heavier trading charges than those of \$1 par value, the meeting was told.—V. 157, p. 1276.

#### Stokely Foods, Inc.—New Name—

See Foundation Industrial Engineering Co., Inc., above.

#### (D. A.) Stuart Oil Co., Ltd.—Extra Dividend—

The directors have declared a participating dividend of 25 cents per share and the usual quarterly dividend of 20 cents per share on the class A participating preferred stock, no par value, both payable Sept. 1 to holders of record Aug. 14. A participating dividend of 25 cents was also paid on this issue on Sept. 1, last year.

The directors also declared a dividend of 25 cents per share on the common stock, no par value, payable Sept. 1 to holders of record Aug. 14. A payment of 60 cents per share was made on this stock on June 1, last.—V. 156, p. 1422.

#### Tampa Electric Co.—Earnings—

	1943—Month—1942	1943—12 Mos.—1942

**United Corporations, Ltd.—Refunding Approved—**

By unanimous vote of shareholders at a special general meeting held on July 10, the refunding of the corporation's outstanding \$2,986,400 5½% income bonds, series A, due 1953, was authorized. The income bonds are called for redemption on August 25 next.

Of the \$3,000,000 new bonds \$400,000 are serial 3s maturing \$100,000 each year from 1944 to 1947; \$400,000 are series 3½s maturing \$100,000 annually from 1948 to 1951 and \$2,200,000 are 4% bonds maturing in 1958.

The new \$3,000,000 issue has been sold to the Wood, Gundy Corp., Ltd., who have been offering the issue for sale subject to the approval of shareholders.

Attention is drawn to the fact that the corporation will not be making any conversion offer directly to the present bondholders.—See V. 158, p. 399.

**\$3.50 Preferred Dividend—**

A dividend of \$3.50 per share has been declared on account of accumulations on the \$7 cum. non-voting preferred stock, no par value, payable Sept. 1 to holders of record Aug. 6. Distributions of \$2.75 each were made on March 1 and June 1, last, and on Sept. 1 and Dec. 1, 1942, while in each of the 12 preceding quarters payments of \$2.25 per share were made.—V. 157, p. 2459.

**United States Foil Co.—Pays All Arrearages On Preferred Stock—Resumes Common Dividends—**

The directors have declared a dividend of \$22.75 per share on the preferred stock, par \$100, and a dividend of 30 cents per share on the class A and class B common stocks, par \$1 each, all payable August 15 to holders of record August 10. The preferred payment will clear up all arrearages on that issue. Other distributions made on the preferred stock during the current year were as follows: January 4, \$7; and July 6, \$3.50.

The previous payment on the common stocks was six cents per share paid on Dec. 24, 1937.—V. 158, p. 95.

**U. S. Industrial Chemicals, Inc.—Listing of Stock—**

The New York Stock Exchange has authorized the listing of 391,238 shares of common stock (no par).

The company was a wholly-owned subsidiary of U. S. Industrial Alcohol Co., the common stock of which was listed and registered on the New York Stock Exchange. On June 18, 1943, an agreement of merger was entered into which provided for the merger of the Alcohol company with and into the company. The agreement of merger was approved by stockholders at their annual meeting July 15, 1943, and became effective July 16.

The agreement of merger provided that the company shall have an authorized capitalization of 500,000 shares of common stock (no par). It also provided that each of the issued shares (whether outstanding or in the treasury) of the common stock of the Alcohol company be converted into one share of the common stock of the company. No shares of stock were issued in the merger for the 100 shares of capital stock of the company outstanding and owned by the Alcohol company.—V. 158, p. 400.

**United States Plywood Corp.—To Retire Preferred Stock on Sept. 1—**

The 20,176 shares of preferred stock now outstanding, of \$20 par value, which is being replaced by a new issue of preferred stock, series A, will be called Sept. 1, according to the company.

A public offering made on July 14 consisted of 15,000 shares of 4% cumulative preferred stock and 50,000 shares of common stock. Of the net proceeds, approximately \$554,840 will be used to redeem the present issue of preferred stock at the redemption price of \$27.50 a share while the balance will be used for working capital requirements. See also V. 158, p. 296.

**Listing—**

The New York Stock Exchange has authorized the listing of 50,000 additional shares of common stock (par \$1) on official notice of issuance pursuant to offering, making the total amount applied for to date 300,382 shares.—V. 158, p. 296.

**United States Rubber Co.—Semi-Annual Report—**

The company for the first six months of 1943 reported net income of \$6,912,466 after all charges, including provision for excess profits and income taxes and for all other requirements which will not be determined until a later date. This net income, after provision for \$4 in dividends on the 8% preferred stock, was equal to \$2.44 a share on the 1,759,092 shares of common stock. Net income for the same period of 1942 was \$1,554,841, after special provision for war losses of \$2,741,649 and all other charges, which was equal to \$2.39 a share on the preferred stock.

Consolidated net sales, exclusive of the large volume of business done for the Government on a cost plus fixed fee basis, amounted to \$202,718,494, an increase of \$71,903,599 or 55% over the \$130,814,895 net sales in the first half of 1942.

Provision for taxes, including Federal excess profits taxes, normal income taxes and foreign taxes, amounted to \$17,820,414, contrasted with \$13,189,822 in the 1942 period.

In commenting upon the report, Mr. F. B. Davis, Jr., Chairman of the board, pointed out that the company is cooperating in the Government's synthetic rubber program, with two plants already in operation for the Government at Naugatuck, Conn., and Institute, W. Va., with a third plant at Los Angeles, Calif., scheduled to come into production in September. "These three plants," he added, "have a rated annual capacity of 150,000 tons of buna S, which is equivalent to nearly one-quarter of the normal peacetime consumption of rubber in this country for all purposes."

"The proportion of synthetic as compared with the amount of natural rubber used by company plants in the manufacture of both war and

essential civilian goods is increasing rapidly each month. Consumption of synthetic rubber in June was 3½ times the consumption in April.

"Buna S, the type of synthetic rubber which the company produces for the Government, is used in the manufacture of tires, footwear, mechanical goods, drug sundries and in numerous other items of equipment essential in the prosecution of the war. Other types of synthetic are also being employed in the lining of airplane fuel cells, making of raincoats, coated fabrics for the Army and Navy, and other essential articles."

"Two more United States Rubber Company plants, at Shelbyville, Tenn., and Eau Claire, Wis., were singled out by the War and Navy Departments for Army-Navy "E" awards. With these awards the number of employees privileged to wear the "E" pin is increased to about 32,600.

"The number of employees registered another sharp increase, totaling 92,497 as of June 30, compared with 80,684 at the close of 1942."

Dividends of \$2 per share each were paid upon the 8% non-cumulative preferred stock on March 26 and June 25, 1943, thereby completing the payments with respect to the year 1942. A further dividend of \$2 per share was declared on July 7, 1943 to be paid on Sept. 24, 1943 to stockholders of record on Sept. 10, 1943 from earnings for the year 1943.

The report included the statement that the Chairman of the board of directors exercised the remainder of his option on 25,000 shares of common stock by purchasing 20,000 shares on June 10, 1943. This option was granted under the stock option plan approved by stockholders in 1936.—V. 158, p. 400.

**United States Steel Corp.—Quarterly Earnings Report**

Reporting the earnings of the corporation for the second quarter of 1943, Irving S. Olds, Chairman, announced that the directors had declared the quarterly dividend of \$1.75 per share on the preferred stock, payable Aug. 20, to holders of record July 30, and a dividend of \$1 per share on the common stock, payable Sept. 20, to holders of record Aug. 20.

Income for the second quarter of 1943, before declaration of dividends, amounted to \$15,679,456, after allowance for estimated taxes calculated on the basis of the Federal Revenue Act of 1942 and after quarterly provision for pensions on the annual basis of 1942. Income for the first six months of 1943 was \$31,086,053, compared with income reported for the first half of 1942 of \$33,866,907, a reduction of \$2.8 million. If the results for the first six months of 1942 are adjusted to allow for their pro rata shares of the provisions for pensions and income taxes actually made in 1942, the income for that semi-annual period would be \$44.7 million, or \$13.6 million more than the income for the first six months of 1943. The drop in income was occasioned primarily by a \$63 million increase in payroll costs during the first half of 1943.

Work stoppages in the coal mines of subsidiaries resulted in reduced coal production during the second quarter of 1943. This brought about the shutting down of a number of blast furnaces, with a consequent loss in subsidiaries' steel ingot production. As a result of such decreased production and because of some shift of war demand from heavy semi-finished and finished steel products to light finished steel items, shipments of finished steel products in the second quarter of 1943 of 4,890,034 net tons were 260,000 net tons less than the 5,149,982 net tons shipped in the first quarter of 1943.

Net current assets of the corporation and its subsidiaries at June 30, 1943, after deducting the current dividend declaration, were \$550,674,974 compared with \$505,285,276 at June 30, 1942.

The total capital expenditures during the second quarter of 1943, for additions to and betterments of fixed assets, were approximately \$21,500,000. On June 30, 1943, unexpended balances for property additions and replacements approximated \$120,000,000. After retirement of capital obligations of \$9,260,144 during the quarter, the amount of total long term debt outstanding at June 30, 1943, was \$140,203,452.

The average number of employees in the second quarter of 1943 was 344,021 compared with 338,054 in the same quarter of 1942. The increase in total employment is attributable primarily to additional shipbuilding workers.

**Comparative Consolidated Income Account for Periods Ended June 30**

	2d Quarter 1943	6 Months 1943	6 Months 1942
Sales and revenues	477,240,171	916,997,880	903,604,086
Wages, salaries, social secur. taxes and pensions	223,694,013	430,515,115	356,302,620
Purchased products and services	160,708,502	308,264,630	307,349,587
Depreciation, depreciation and amort. of emergency facilities and loss on sale of fixed assets	32,176,558	59,985,261	53,361,240
Estimated additional costs applicable to this period arising out of war	6,000,000	12,000,000	12,000,000
Interest and other costs on long term debt	2,717,759	3,930,784	2,957,447
State, local and miscell. taxes	11,563,883	18,416,037	20,767,085
Estimated Federal taxes on income	24,700,000	52,800,000	117,000,000
Income	15,679,456	31,086,053	33,866,907
Preferred dividends	6,304,919	12,609,838	12,609,838
Common dividends	8,703,252	17,406,504	17,406,504
Surplus	671,285	1,069,711	3,850,565
Per common share	\$1.08	\$2.12	\$2.44
Shipments of finished steel products (N. T.)	4,890,034	10,040,016	10,503,507

Note—All results stated are subject to final 1943 audit adjustments and also to various uncertainties such as those involved in the possibility of renegotiation of profits on certain contracts, the estimated tax liability, provision for depreciation and amortization, and estimates of various contingencies.

**Foreign Holdings, etc.—**

Common stock of this corporation outstanding June 30, 1943, amounted to 8,763,252 shares, while preferred stock totaled 3,602,811 shares.

Of the common stock outstanding June 30, 1943, 2,188,800, or 25.14%, were in brokers' names, representing a decrease of 4,216 shares from the 2,193,016 shares, or 25.19%, held by brokers on March 31, 1943. Investors' common stockholdings June 30, 1943, were 6,514,452 shares, or 74.851%, compared with 6,510,236 shares, or 74.802%, March 31, 1943.

Of the preferred stock outstanding, 477,411 shares, or 13.251%, were in brokers' names June 30, 1943, an increase of 2,310 shares from the 475,101 shares, or 13.187%, held March 31, 1943. Investors' holdings of preferred amounted to 3,125,400 shares, or 86.749%, of the outstanding issue, on June 30, 1943, compared with 3,127,710 shares, or 86.813%, held by them March 31, 1943.

New York State brokers' holdings of common stock June 30, 1943, were 1,920,692 shares, or 22.069%, against 1,928,606 shares, or 22.160%, March 31, 1943.

\*And after reserve for excess profits tax. †On 750,000 shares of capital stock outstanding. ‡On 696,000 shares of capital stock. §After adjustment of Federal income and excess profits taxes to the actual rate paid for that year.—V. 156, p. 2159.

**Virginia-Carolina Chemical Corp.—\$3 Pref. Div.—**

The directors on July 21 declared a dividend of \$3 per share on account of accumulations on the 6% cum. partic. preferred stock, par \$100, payable Aug. 20 to holders of record Aug. 6. This compares with \$5 paid on Aug. 20, last year, and \$1 on Dec. 18, 1941. Accruals on the preferred stock amounted to \$83.50 per share as at June 30, 1943.—V. 157, p. 262.

**Virginia Fire & Marine Insurance Co.—Adds Five Directors—**

Five additional directors were elected on July 22 at the special stockholders' meeting and the new board, meeting later with the new members participating, elected Claude D. Minor of New York as President.

The five new directors are: Thatcher M. Brown of Brown Bros., Harriman & Co., New York; W. Randolph Burgess, Vice-Chairman of the National City Bank, New York; William S. Gray Jr., President, Central Hanover Bank & Trust Co., New York; Benjamin Strong, Vice-President, United States Trust Co., New York; and Mr. Minor.

Beverly C. Lewis Jr. of Richmond, who has been connected with the company in various capacities since 1903, was reelected Vice-President and Secretary of the company, and Henry C. Pitot of New York was elected a Vice-President.—V. 157, p. 2260.

**Virginia Iron, Coal & Coke Co.—Earnings—**

	1943	1942	1941	1940
3 Mos. End. June 30—

\*After giving effect to changes resulting from recapitalization plan approved by stockholders on Sept. 29, 1942.

Farris R. Russell, Chairman of the board of directors, stated that the sales figures reflect the increased demand for bakery products, but added that "bread prices, unchanged since before our entry into the war, remain lower than justified by costs."

With current uncertainties and with bread prices continuing unadjusted to realities, Mr. Russell says, "your management makes no forecast with respect to future operating profits," but calls particular attention to the levels at which excess profits taxes come into play.

Note—In estimating the provisions for excess profits tax, the company has taken into consideration the excess profits carryover credits from prior years. It is expected that, on the basis of the tax law at present in effect, no such carryover credits will be available for the year 1944 and subsequently. It is estimated that if the net income, after deducting Federal normal income tax and surtax, reaches approximately \$6 per share in 1943 and approximately \$4.25 per share in 1944 on the preferred stock, income in excess of those amounts will, under the present tax law, be subject to excess profits tax at a net rate of 81% (90%, less post-war refund) without giving effect to any excess profits tax relief which may or may not be had under Section 722 of the present tax law.—V. 157, p. 1951.

**Warner Sugar Corp.—Payment Recommended—**

Oscar W. Ehrhorn, referee in bankruptcy, on July 7 announced he has recommended to the United States District Court in New York N. Y., that Francis J. Quillman, court trustee, and Chase National Bank, mortgage trustee of Warner Sugar Corp. first mortgage bonds, be authorized and directed to pay 9%, or \$419,076, on account of the \$4,656,400 principal amount outstanding.

The referee's report and recommendation, entered on application for a cash distribution on the bonds filed by attorneys for the first mortgage bondholders' committee, is slated to come before Judge Samuel Mandelbaum for confirmation at an early date.—V. 158, p. 96.

**Warren Brothers Co., Boston—\$1.25 "B" Dividend—**

A dividend of \$1.25 per share has been declared on account of accumulations on the class B stock, no par value, for the period from Aug. 1, 1942, to Feb. 1, 1943, payable Aug. 28 to holders of record Aug. 10. A similar distribution was made on June 10, 1943, and on March 1, 1943, when dividends were inaugurated on this issue.—V. 157, 1056, 1951; 158, p. 199.

**Washington Gas Light Co.—Wins Rate Increase—**

The U. S. Circuit Court of Appeals, according to a Washington (D. C.) dispatch, reversed a District Court order setting aside a rate increase allowed the company by the District of Columbia Public Utilities Commission. The rate increase approximates \$200,000 annually.

The Office of Price Administration and the Office of Economic Stabilization, the dispatch said, had fought the rate increase as tending to produce inflation. OPA officials said the Circuit Court's order would be studied further before a decision was reached on what if any, additional action might be taken by the stabilization agencies.

The Commission's order granting the rate increase provides that if

the company earns excess profits income it must make refunds to customers. Some OPA officials believe the company this year will be in the excess income bracket and that so far as company earnings are concerned the rate increase would be of little benefit. The stabilization agencies had maintained that rate increases which would produce excess income would be inflationary.—V. 158, p. 199.

**West Indies Sugar Corp.—Two Common Dividends—**

The directors have declared two dividends of 25 cents each on the common stock, payable Aug. 16 and Dec. 16 to holders of record Aug. 6 and Dec. 6, respectively. An initial of 50 cents per share was paid on Dec. 21, last year; none since.—V. 157, p. 1951.

—V. 158, p. 96.

**White Motor Co.—New Vice-President—**

Vollmer W. Fries, associated with the company in various capacities from 1924 until 1942, has been elected a Vice-President. He has been serving with the WPB and as a member of the W. Averell Harriman mission in London.—V. 157, p. 1258.

**Wilkes-Barre Lace Mfg. Co.—\$1 Dividend—**

The directors have declared a dividend of \$1 per share on the capital stock, payable Sept. 1 to holders of record Aug. 16. This compares with 50 cents per share paid on March 1 and June 1, last.—V. 157, p. 560.

**Will & Baumer Candle Co., Inc.—10-Cent Dividend—**

The directors on July 27 declared a dividend of 10 cents per share on the common stock, payable August 16 to holders of record August 6. Like amounts were paid on Feb. 15, May 15 and June 15, last, and on Feb. 16, March 18, April 15, May 15, Aug. 15, Nov. 16 and Dec. 28, 1942.—V. 157, p. 2056.

**Willys-Overland Motors, Inc.—Now Second Largest Producer of Aluminum Forgings—**

In less than two years, monthly production of aluminum aircraft forgings by this corporation has climbed from the zero mark to more than 1,000,000 pounds, it was announced on July 21 by Joseph W. Frazer, President.

In achieving this production record, he explained, the company has become the second largest producer of aluminum aircraft forgings in the nation, with a total output since Pearl Harbor of more than 7,000,000 pounds.

Mr. Frazer explained that his company entered the aluminum forgings business late in 1941 "without any previous experience in this type of work," making it necessary to install all new machinery and to train workers for the specialized jobs involved.

The company's aluminum department produces 700 different types of forgings, he said, the parts being used in the manufacture of aircraft fusilages, wings and structural sections, as well as in the manufacture of airplane engines.—V. 157, p. 2460.
